Statement on the ISO 13485 certification status of Eurocor Tech GmbH

To whom it may concern,

We, Eurocor Tech GmbH, would like to update you on the certification status of our quality management system according to EN ISO 13485:2016 expiring on December 17th, 2021. We have been informed by PCBC that the required on-site audit for re-certification is currently not possible due to their COVID-19 policy which halts travels to Germany. PCBC will extend the validity of the existing certificate by six months and conduct the audit as soon as travel constrictions to Germany are lifted. A letter confirming this extension is expected by PCBC at December 17th, 2021 at the latest.

Eurocor Tech GmbH,

A handwritten signature in blue ink, appearing to read "Vivek Ramnani", written over a horizontal line.

Mr. Vivek Ramnani
Managing Director
