Supplementary terms and conditions for construction works

Version: June 2021

1. Framework conditions and sustainability

1.1 Environmental and social standards, human rights

When performing the construction works, the Contractor must observe applicable national and international environmental law, minimise greenhouse gas emissions and avoid all activities that could increase the vulnerability of the population and/or ecosystems to the effects of climate change.

The Contractor must also ensure, with due regard for international standards and multilateral agreements (in particular international agreements on human rights), that measures are in place to respect human rights, protect children, prevent violence, abuse or exploitation of any kind, prevent discrimination (in particular with regard to origin, ethnicity, religion, age, gender identity, sexual orientation or disability) and promote equality of opportunity for all genders.

The Contractor must implement appropriate measures to prevent sexual harassment at the workplace and must refrain from any incitement to violence or hatred and from any objectively unjustified discrimination against individuals or groups of people.

1.2 Labour standards and minimum wages

In performing the contract, the Contractor is obliged to comply with the fundamental principles and rights at work as stated in the Declaration of the International Labour Organization (ILO) of 18 June 1998 (freedom of association, the right to collective bargaining, the elimination of all forms of forced or compulsory labour, the effective abolition of child labour and the elimination of discrimination in respect of employment and occupation).

In particular, the Contractor is obliged in the performance of the contract to comply with the regulations enacting the ILO core labour standards (conventions nos. 29, 87, 98, 100, 105, 111, 138 and 182) in the legislation of the country of assignment. If the country of assignment has not ratified one or more core labour standards or not enacted them in national legislation, the Contractor is obliged to comply with such regulations in the country of assignment which pursue the same goal as the core labour standards.

1.3 Avoiding unintended adverse impacts when implementing the contract

When performing the construction works, the Contractor must seek to avoid or mitigate any unintended adverse impacts on the environment, the climate, climate change adaptation, human rights, gender equality and fragile contexts involving conflict and violence by implementing attributable mitigation measures. The Contractor also undertakes to fully harness all opportunities to promote gender equality.

1.4 Legal consequences of breach of these obligations

If the Contractor breaches any of the obligations set out in section 1 and GIZ terminates the contract for this reason, responsibility for termination lies with the Contractor.

2. Integrity

2.1 Conflicts of interest

The Contractor must avoid all conflicts of interests in relation to the contract. Conflicts of interest can arise in particular as a result of commercial interests, political allegiances or national ties, links to family members or friends and other ties or interests. In particular, the Contractor undertakes:

- (a) not to accept any additional remuneration from third parties in connection with the contract;
- (b) during the term of the contract with GIZ, not to accept any other contract where a conflict of interest is to be anticipated due to the nature of that contract or due to the Contractor's personal or financial connections with a third party, unless prior consent has been given by GIZ in text form;
- (c) in relation to the contract with GIZ, not to enter into any contracts with natural or legal persons with whom it has personal or financial ties unless GIZ has previously agreed to this in writing.

The Contractor undertakes to inform GIZ without delay of any circumstances that constitute or could lead to a conflict of interest. It must discuss and agree with GIZ any further steps to be taken. If the parties are unable to reach agreement and GIZ then terminates the contract, responsibility for termination lies with the Contractor.

2.2 Integrity principles

Whether directly or via a third party, the Contractor must not offer or grant any gifts or benefits and must not accept or demand gifts or benefits for itself or others in connection with the award and/or implementation of the contract; this also applies to facilitating payments.

The Contractor must not agree any restraints on competition with one or more other companies.

Any form of corruption is prohibited. The Contractor is obliged to take appropriate and reasonable measures to prevent and combat corruption. In connection with the implementation of the contract, it is also obliged to report confirmed cases and strong suspicions of corruption and/or property offences (e.g. fraud, misappropriation and breach of trust) without delay to GIZ's whistleblower system. The whistleblower system can be accessed through the whistleblower portal at [Whistleblowing \(giz.de\)](https://www.giz.de/whistleblowing), GIZ's Integrity Advisor by email (integrity-mailbox@giz.de) and the external ombudsperson via the website at [Whistleblowing \(giz.de\)](https://www.giz.de/whistleblowing) GIZ external ombudsperson.

2.3 Consequences of breach of the integrity rules

If the Contractor breaches any of the prohibitions or obligations set out in section 2.2 and GIZ terminates the contract for this reason, responsibility for termination lies with the Contractor. In response to a breach of any of the obligations set out in section 2.2, GIZ is entitled, where appropriate, to exclude the Contractor from future tenders for a limited period.

3. Specific contractual penalties

Following any breach of the obligations set out in sections 1.1 (Environmental and social standards, human rights), 1.2 (Labour standards and minimum wages) and 2 (Integrity), the Contractor is obliged to pay a contractual penalty of EUR 25,000 in respect of each individual breach. If a benefit-in-kind given is greater than EUR 25,000, the Contractor is liable to pay a contractual penalty equal to the amount of the benefit-in-kind. This is without prejudice to any further claims for damages by GIZ. However, the contractual penalty will be deducted from any such claims for damages.

4. Prevention of the financing of terrorism and compliance with embargoes

The Contractor must ensure that the remuneration provided by GIZ is not used to make funds or other economic resources directly or indirectly available to third parties that are included on a sanctions list issued by the United Nations and/or the European Union (EU).

When implementing the contract, the Contractor may enter into and/or maintain business relations only with third parties that are reliable and that are not subject to any statutory ban on entering into a contract or business relations.

Furthermore, when implementing the contract, the Contractor must comply with embargoes and other trade restrictions issued by the United Nations, the EU or the Federal Republic of Germany.

The Contractor must notify GIZ without delay and on its own initiative if the Contractor itself or a member of its official managing body and/or other administrative bodies, its shareholders and/or staff is included on a sanctions list issued by the United Nations or the EU. This also applies if the Contractor learns of any occurrence that leads to such a listing.

The Contractor must notify GIZ without delay and on its own initiative of any violation of the provisions stipulated in this section 4.

- End of Supplementary terms and conditions-
