

EVACUATION / TRANSPORT CHAIR
PRO SKID-E

MAIN FEATURES

- Two slides allow for smooth and controlled stair descent.
- Extendable transport handle enhances grip.
- Two front pull-out handles enable transport upstairs.
- Large rear wheels (Ø20 cm/Ø 7.9 in) reduce friction on flat surfaces.
- Pivoting front wheels are fitted with brake
- Adjustable headrest with secure head restraint strap.
- Reinforced, easy-to-clean PVC seat for added comfort.
- Footrest improves stability and supports blood circulation.

PRODUCT DESCRIPTION: The PRO SKID-E stair chair is designed for the safe evacuation of individuals with mobility limitations during emergencies. Featuring two reinforced tracks, an extendable control handle, and a sturdy yet lightweight frame, it ensures stability and control during stair descent. With two front pull-out handles, the PRO SKID-E can also be used for going upstairs, though a third operator is recommended for added support during ascent. Clear graphic instructions are conveniently placed on the back of the headrest for quick reference.

INTENDED USE: Stair chairs like the PRO SKID-E are designed to safely move and position a patient in a seated position for transport to the ambulance, but are not intended for use inside the ambulance itself. Equipped with slide tracks, they assist in stair descent, minimizing the effort required by the operator during patient transfer. These chairs are not designed for use as a seating option for parking or stationary positioning.

TECHNICAL DATA

Code	SK10001
Length with bottom handles extended	145 cm / 57 in
Length with bottom handles retracted	111 cm / 43 in
Height with transport handle fully extended	55 cm / 21.6 in
Min. Height	160 cm / 63 in
Height with retracted backrest	107 cm / 42 in
Size when folded	55 x 107 x 33 cm / 21.6 x 42 x 13 in
Weight	14,2 kg / 31.3 lb
Load capacity	250 kg / 551 lb
Front wheels	Ø 10 cm / Ø 4 in
Rear wheels	Ø 20 cm / Ø 8 in
Materials	Al, PVC, PP, PU
Frame color
