

LATEX POWDERED

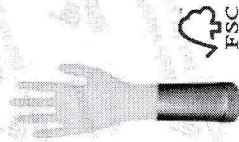

Latex Powdered has been part of our life for more than 100 years.

It was one of the life-changing innovations that still deliver the touch of life to people around the world today.

Today latex gloves have been improved compared to when they were first produced. STGT takes pride in our knowledge and R&D in latex raw materials as well as experience in gloves production. We deliver the most comfortable gloves that remain effective in order to carry on this legacy and offer the "Touch Of Life", on a global scale.
