United Nations Development Programme (UNDP) Moldova

“Digital Transformation of Social Protection” Project

Name: Anatol Umanet

Function: Project Manager, “Digital Transformation of Social Protection” Project

Company: United Nations Development Programme (UNDP) Moldova

Contact information: anatolie.umanet@undp.org

UPCODE GROUP SRL acted as a software development service provider for UNDP Moldova between 2024 and 2026 within the “Digital Transformation of Social Protection” Project, implemented in partnership with the Ministry of Labour and Social Protection. The team delivered the eSocial platform, the Case Management module and the compensatii.gov.md system, covering business analysis, solution architecture, backend and frontend development, integration with MPass, MConnect, MNotify and MPay, testing, deployment on MCloud and maintenance. Throughout the cooperation UPCODE GROUP SRL demonstrated strong technical expertise in .NET Core and React/Angular, in-depth knowledge of the Moldovan e-Government services ecosystem, rigorous project management, transparent communication and full compliance with delivery deadlines, quality standards and applicable cybersecurity requirements. We recommend UPCODE GROUP SRL with full confidence as a reliable partner for the development and modernisation of public-sector information systems.
