About Edan

Edan is a healthcare company dedicated to improving the human condition around the world by delivering value-driven, innovative and high-quality medical products and services. For over 20 years, Edan has been pioneering a comprehensive line of medical solutions that address a broad range of healthcare practices including:

- Diagnostic ECG
- Patient Monitoring
- OB/GYN
- Ultrasound Imaging
- Point-of-Care Testing
- In-Vitro Diagnostics
- Veterinary

Healthcare professionals around the world depend on Edan's breakthrough medical technologies and outstanding customer support.

A world of potential

A world of potential

SE-601 Series

Multi-channel Electrocardiograph

- User-friendly Design**
- Compact and portable design
 - 5.7" high resolution color touch screen(optional)
 - Alphanumeric keyboard

Streamlined Workflow

- One-touch operation
- Support barcode scanner to simplify workflow (SE-601B only)

Accurate Clinical Performance

- 12 leads simultaneous acquisition
- Weak signal detection with the advanced 24-bit A/D converter technology
- Anti-noise technology with computer smoke filter and the high QVTR over 121dB
- 120s real-time ECG waveforms freezing and review to assist your diagnosis
- Automatic measurements and interpretation with QSTAN, RT, and other
- Extends printing once arrhythmia is detected to further your rhythm analysis

Flexible Printing Solution

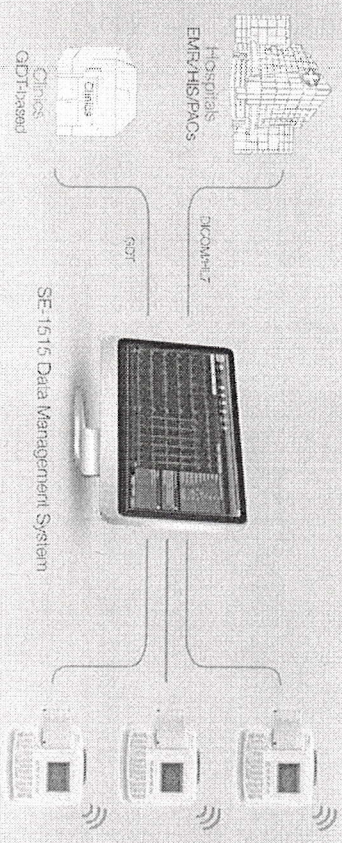

- Built-in high resolution thermal printer
- Support external USB printer

Data Management

- Internal storage up to 500 ECGs and can be enlarged by USB flash disk
- Data transmission to PC via series
- Dual LAN/Wireless Wi-Fi (Wi-Fi for SE-601B only)
- 24 hrs software for data management and operations
- Support to print ECG for SE-601B and SE-601A
- Support FDA/MIL/DICOM data export

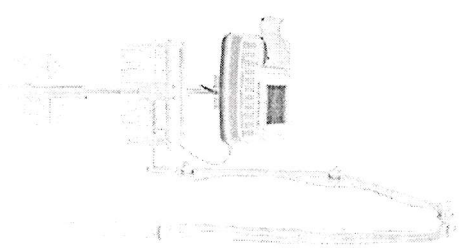

Seamless Connectivity

SE-601A (3.5" Monochrome LCD Display)

SE-601B (5.7" Color LCD Display)

SE-601C (5.7" Color Touch Screen)

Network your ECG data with EDAN SE-1515 Data Management System

- Bidirectional communication with ECG machines or worklist and reports
- Cardiac consultation upon ECG reports over database sharing
- Multiple report formats output including PDF, XML, SCP, DICOM, JPG, BMP, and DOC
- Data access with HIS/EMR/PACS/OIS based on HL7/DICOM/CDT protocol
