

SLens_{ida}

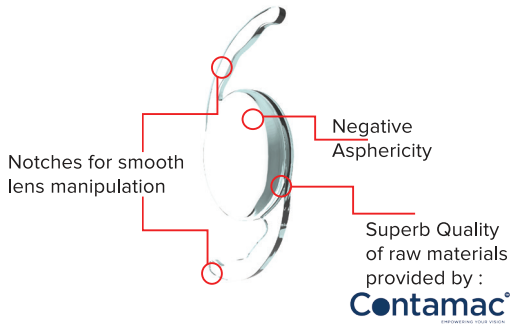

Aspheric Hydrophilic

One-Piece Acrylic
Foldable Intraocular Lens

SLens_{ida}

Aspheric Hydrophilic IOL
One-Piece Acrylic
Foldable Intraocular Lens

Premium Aspheric Optic Design that provides sharper vision

360° Square Edge surface that reduces PCO rates

Superb quality of raw materials with extremely low inflammatory response and optimal biocompatibility

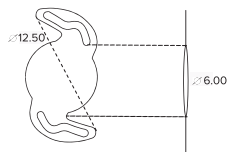

Product Features

- Ideal handling characteristics with controlled unfolding within the capsular bags
- Biocompatible hydrophilic acrylic material with UV absorption
- Negative asphericity - 0.16
- Over 70.000.000 implants worldwide *
- Unmatched material transparency offers the patient clear post-surgical vision and optimal optical outcome, providing permanent optic quality and improved safety
- Maximal axial, radial and rotational stability
- Easily inserted through a small incision due to its' flexibility and plasticity
- Accompanied by cartridges manufactured in Europe
- Wide diopter range :
-10.0 D to +40.0 D in half diopter steps (out-of-range diopters available upon request).
- Company is certified for implementing a Quality Management System according to ISO 9001:2015 & ISO 13485:2016 standards

SDA

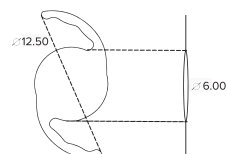

Aspheric,
360° Square Edge,

Optic Design: Biconvex
Optic Size: 6.00 mm
Overall Length: 12.50 mm
Haptic Angle: 5°
Refractive Index : 1.46
A.Constant : 118.0

SDAC

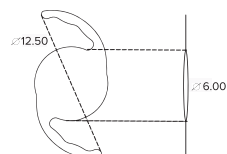

Aspheric,
360° Square Edge

Optic Design: Biconvex
Optic Size: 6.00 mm
Overall Length: 12.50 mm
Haptic Angle: 5°
Refractive Index : 1.46
A.Constant : 118.0

SDACY

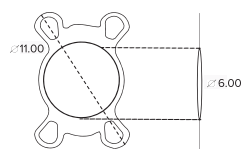

Aspheric,
360° Square Edge
Yellow, Blue Light Filtering

Optic Design: Biconvex
Optic Size: 6.00 mm
Overall Length: 12.50 mm
Haptic Angle: 5°
Refractive Index : 1.46
A.Constant : 118.0

SDA4

Aspheric,
360° Square Edge

Optic Design: Biconvex
Optic Size: 6.00 mm
Overall Length: 11.00 mm
Haptic Angle: 5°
Refractive Index : 1.46
A.Constant : 118.0
