DRESSING

OS 3009 Hydrocolloids Dressing

PRODUCT DESCRIPTION:

Specifications: 5"5cm, 10"10cm, 15cmx15cm, 8x12cm, 15x18cm etc
Hydrocolloids have been clinically shown to:

- Facilitate the removal of necrotic tissue and debris through the process of autolytic debridement.
- Reduce the risk of wound infection by providing an effective barrier to external contamination and bacterial
- Reduce pain and discomfort during dressing removal and application
- Create an environment that fosters the body's natural healing process, resulting in faster healing compared to normal dressings.

Hydrocolloids work on:

- Wound dressings
- Osborn wafers
- Incontinence products
