Established in 1998, Lights Medical Manufacture Co., Ltd. is a professional manufacturer of medical supplies. All the products are manufactured by automatic production lines in the GMP workshop Class 100,000 – Class 300,000 standard according to international criteria. The products are exported to more than 40 countries and regions and take the market share in every region in the world. With high international reputation, we have more than 300 customers throughout the world. Lights Medical has consummate quality control system and got CE certificate, FDA registration, ISO9001/13485 quality management system certificate, and Social Accountability 8000 (SA 8000) certificate.

Lights Medical is a factory specialized in manufacturing wet pads, which are widely used in many fields such as medical supplies, beauty, hotel, etc. Synchronizing with the international trend, we could produce various kinds of wet pads with different specifications, sizes, weights, materials (such as different kinds of non-woven and paper), and packages. Meanwhile, we could manufacture OEM products according to customers' requirements.

Due to customers' special concern about the quality control, Lights Medical produces all our products in accordance with the international criteria in order to fulfill customers' quality requirements. Therefore, most of the raw materials we use, especially for the chemicals, are imported. We have signed the long-term purchasing agreements with the internationally renowned high quality suppliers so as to ensure the products' quality.

普光拥有多种先进的印刷/包装设备，包括双色/四色柔性版印刷机、凹版印刷机、移印机、全自动丝网印瓶机、淋膜机、干法复合机、分切机等先进的纸张、塑料印刷及印后加工设备。

独立设计制造的柔版印刷机采用多色套印、电脑跟踪程序，印刷速度可达每分钟150延米，日单班印刷能力逾6吨。印刷采用水性油墨，UV光油上光，色泽艳丽饱和亮度高，印刷品无需覆膜经水浸后仍保持原色、原样。其印品无毒害，无气味残留，被世人称为“环保绿色印刷”，超越美国FDA食品容器标准要求。广泛适用于食品、医药用品包装和高档化妆品及其他物品的包装。

公司具备移印机、全自动丝网印瓶设备，可印刷多规格塑料盒、瓶、筒，机器一体化全自动印刷动作、UV快速干燥系统，保证产品色泽饱满，附着力强等优点。

普光公司拥有先进的淋膜机、干法复合机和分切机加工设备，可加工生产各类复合包装材料，如纸塑复合纸、铝塑复合纸及多用途塑料复合膜，日生产各类复合材料达6吨以上。复合材料根据客户要求兼具高强度、高保鲜、耐蒸煮、高阻隔等特点。

公司同时具备较强的无纺布、复合材料分切深加工能力，现常规规格无纺布分切宽度有28mm, 30mm, 45mm, 56mm, 90mm, 190mm等尺寸，量身制造的分切设备更是具有优秀的张力调控、平衡度稳定性，填补了同类市场空白。

Lights has various kinds of advanced printing/packaging equipments. It includes the advanced paper and plastic printing as well as the post-press processing equipments, such as double colors/ four colors flexographic printing machine, intaglio printing machine, tempo printing machine, auto-bottle screen printing machine, laminating machine, dry compound machine and cutting machine, etc.

The flexographic printing machine, which is independently designed and manufactured by Lights, adopts multi-color overprint and computer tracking. The speed of printing will up to 150 meters per minute and up to 6 tons per single shift. For printing, it uses water-based ink and spread UV varnish for glazing with excellence of brightness and colors. The finished products don't need to be coated after soaked in water and could remain its ordinary colors. The product is nontoxic and identified as green printing. In accordance with U.S. FDA standards for food containers, the products are widely used in many fields, such as food, medical and cosmetic packaging, etc.

Lights owns the tempo printing machine and auto-bottle screen printing machine and can automatically print kinds of plastic boxes, tubes and bottles with UV quick drying system. The finished products are with the excellent color and strength adhesion.

Lights also owns the advanced laminating machine, dry compound machine and cutting machine, which could mass produce composite materials such as paper-plastic laminated paper, aluminum-plastic laminated paper, and multi-purpose plastic composite film, etc. The output is up to more than 6 tons per day. The composite materials have the characteristics of high strength, high perservation, cooking resistance, and high barrier according to customers' requirements.

Lights is capable of cutting the non-woven and composite materials. At present, our non-woven cutting width has the sizes of 28mm, 30mm, 45mm, 56mm, 90mm, 190mm etc. The specific cutting equipments have the good tension control, balance stability which fills the vacancy of the market.

机器特点

Features of the machine

一体化设计，实现全自动缠棉、烘干、装盒等工序的一次性完成。

Integrated design. The machine can accomplish the processes of wrapping cotton, drying and packing automatically at one time only.

生产效率高，每分钟能产出1000只棉签，且生产速度可随意调节。

High-productive efficiency. The machine can produce 1000 swabsticks per minute. You can adjust the production speed at will.

棉签棉头饱满、光洁、大小均匀，棉头与棒体缠绕牢固，不会脱落。

The cotton head is full, clean and with an average size. The cotton heads and rods are wrapped firmly with each other and will not fall off.

整台生产线的操作仅需2人，操作简单，有效节约人工成本。

Only 2 workers are required to operate the entire production line. The machine is easy to operate, and could save labor cost effectively.

采用本公司自主研发的专用数控系统，针对性强，实现全过程自动化生产。

Using our self-developed CNC system, the machine is well targeted. We achieve full automated production.

更换专用工装后能适应多种规格棉签生产，适用范围广泛。

The machine adapts to production of swabsticks in various specifications after we apply special-use equipments. It has a wide range of application.

更换产品规格方便快捷，适应多品种小批量生产，快速满足市场需求。

Convenient and fast to change specifications of products. The production line is suitable for small-quantity production in numerous types, and can meet market demand promptly.

独特的棉签缠棉、烘干、装盒机构设计，有效提高了成品合格率。

The design of cotton-wrapping, drying and packing is unique, improving the qualified percentage of finished product effectively.

自主设计的烘干系统具有烘干和蒸汽冷凝双重功效，实现快速烘干，烘干效果更佳。

Self-designed drying system has dual functions including drying and steam condensing. It can dry quickly, and the drying effect is better.

装盒采用伺服驱动系统，台湾优质直线导轨传动，定位精准，速度快。

We use servo drive system and Taiwan high-quality linear rail transmission in packing. It can fix the location precisely and quickly.

采用高品质进口气动元件，反应灵敏，工作可靠性高。

The high-quality imported pneumatic components have the functions of quick response and high reliability.

采用高刚度的整体框架，结构紧凑，保障机床运转平稳，故障率低。

High stiffness overall framework and compact structure ensures the smooth operation of machine with low failure rate.

集成式控制显示屏，显示内容丰富，控制操作简便。

The integrated control screen can display plentiful contents and easy to control and operate.

锁控式电源开关，彻底杜绝带电修调，确保安全。

Lock controlled power switch eliminates the possibility of maintenance with the machine on to ensure safety.

前后柜式结构，使动力与操作部件分离，结构清晰，维修调整方便。

Front and back cabinet structure separates motive power and operating components. The structure is clear, easy to maintain and adjust.

前门打开后，操作部件均可接近，无死角，便于维修调整和卫生清理。

All the operating components can be reached after the front door is open. There is no blind spot for the convenience of maintenance, adjustment and clearance.

机床采用全封闭结构，外观新颖，操作安全，整机外形美观，简洁大方。

The machine's structure is fully enclosed. Its appearance is novel and safe to operate. The whole machine is excellent in shape, brief and graceful.

机床外观设计精美，配色艳丽，人性化设计美观实用，极富现代感。

The design of the machine's appearance is delicate and the color is bright. Human-centered design is beautiful, practical, and very modern.

机床配色可定制。

The color of the machine can be customized.

配备全套专用维修工具，方便实用。

With a full set of special-use maintenance equipments, convenient and practical.

主要技术参数

The main technical parameters are as follows

型号 Type		STMQ-350
可生产棉签规格 Cotton swabstick specification	长度 Length	73 mm
	杆径 Rod diameter	2.5 mm
生产速度 Production speed		0-1000 swabsticks/min
烘干温度范围 Temperature range of drying tunnel		130-150℃
包装数量范围 Range of packing quantities		20-350 pcs/box (swabsticks/box)
所用棉条规格 Cotton's specification used		1.5 g
电源 Power supply		AC:380V.50Hz
最大功率 Maximum power		13 KW
整机重量 Machine's weight		1000 kg
外形尺寸(长×宽×高) Shape Size(L×W×H)		7000 mm × 1000 mm × 1540 mm

Application

Beverage Packaging Printing
 Paper Cup Printing
 Food/Pharmacy Packaging Printing

LK系列 柔性版-食品/饮料/纸杯包装印刷机

使用水性油墨符合美国FDA标准
 生产效率高,更适用于大批量的长版活
 可进行连线后加工,进一步提高生产效率,降低人工成本
 节约印刷纸张

LK Flexographic Food/Beverage/Paper Cup Packaging Printing

With water based ink in accordance with FDA requirements
 With high production efficiency, suitable for long-run printing jobs
 With Inline Rotary Die Cutting,improving productivity and working efficiency
 Saving paper and lowering labor cost

性能特点:

从1色-13色,满足不同客户需要
 印刷厚度由80克-300克, 200克-400克, 300克-500克不同选择
 超厚墙板,增强稳定性
 标准配套全自动纠偏,提供连续印材控制
 高速干燥能力,红外及吹风干燥
 精确的横向和纵向套准能力,满足高质量印刷的需要
 稳定精确的张力控制系统
 标准配置频闪检测系统,及时检测印刷色彩及套准效果
 操纵控制台使用方便
 无限扩张空间,实现超能力的连线加工能力

Advance in

Customized design from 1-13 colors
 Paper thickness from 80-300gsm,200-400gsm,300-500gsm
