

INTRODUCTION

R-Vent Medikal was founded in 2015 with confidence and value. Located in Izmir, Turkey, R-Vent is a professional enterprise in the field of researching, manufacturing, marketing and servicing disposable medical devices. We provide flexible patient solutions for airway management, anesthesia, critical care and oxygen & aerosol therapy for use within emergency care, the hospital environment and also in the home. All products have been clinically tested. A dynamic and inventive company, R-Vent enjoys international success via export to Europe, North and South America, Asia, Africa and Australia continents, growing up with the warmest welcome by its devoted customers.

Biocompatible raw materials used in production are in conformity to USP and ISO 10993 Standards. In-house acceptance controls are also performed to meet the stringent demands of our quality system. Extrusion, injection and blow molding processes are performed in controlled environments. Product assembly and packaging are performed in class 10.000 and 100.000 clean rooms. Disposable medical devices are packaged in clean rooms using fully automated equipment with validated processes and packaging materials. Our goal is to continually supply high quality medical devices to healthcare professionals all over the world and to ensure that these products fully comply to both national and international regulatory and customer requirements. All products bear the CE mark demonstrating compliance with the Medical Device Directive 93/42/EEC. R-Vent Quality Management System is certified according to ISO 13485:2016.

A specialist in Anesthesiology, R-Vent aims to extend its product range over the time. R-Vent commits to Research and Development of new products while aiming to be at the forefront of advancements in anesthesiology.

R-Vent proudly stands for its ability to serve you with OEM and ODM services which assist you to find the best product that accommodates your unique requirement. We are dedicated to supply high quality components tailored to individual customer requirements. In the core of business, all staff holds the same belief: We care for patients with quality products. The company runs many projects with world-wide multinationals.

R-Vent products, services and activities have an environmental dimension. We follow a sustainable development policy in line with the move to a cleaner and healthier world for future generations. We strive to protect and improve healthcare and welfare of the humanity.

- Light weight and economical system
- Corrugated inside
- Flexible, elastic within the tube
- 4 different sizes; 26mm, 22mm, 15mm, 10mm
- Raw material PE

Extendible Tubings

- Easy positioning for convenient usage and storage
- Corrugated and expandable
- Ability to store a memory, easy set-up for further usages
- 2 different sizes; 22mm, 15mm
- Raw material PP

Smoothbore Tubings

- Reinforced by an external helix while inner surface is smooth
- Low flow resistance
- No water accumulation
- Low compliance
- 2 different sizes; 19 mm, 15mm
- Raw material PVC
- PHT and DEHP Free

A GUIDE TO OUR CATHETER MOUNTS

Smoothbore, extendible, corrugated versions

Transparent, clear to see

R-Vent color code in ports for easy observation

Low compliance

Good flow characteristics

Red safety cap option

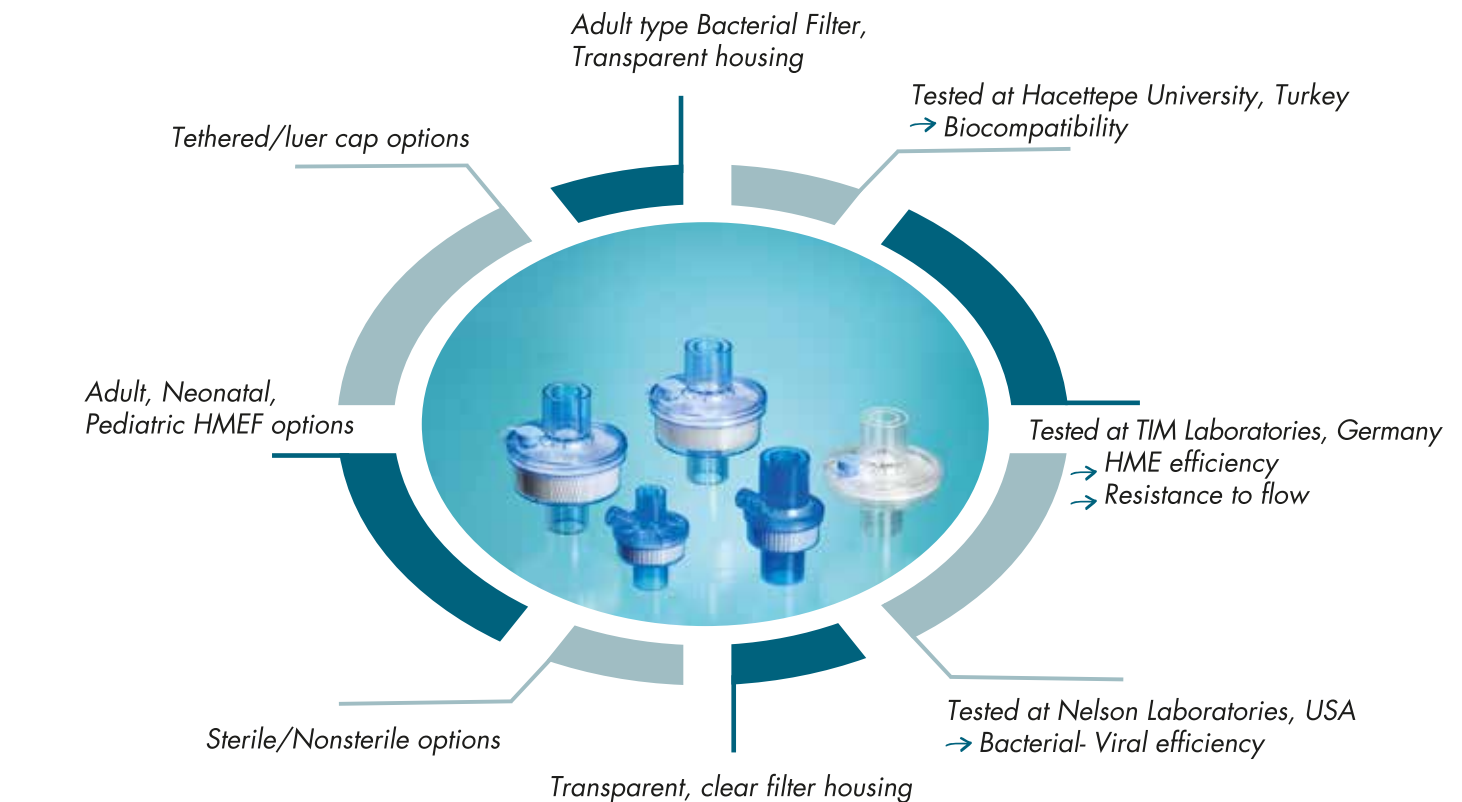

Phthalate- Latex Free

Unique design with no leakage, easily rotating swivel ports

Sterile/ Nonsterile options

*Bronchoscopy and suction ports
first tab open → bronchoscope mode with seal
second full cap open → suction mode*
