This is a letter of recommendation for the services provided by Profile Agency.

We have worked with Profile Agency hand in hand for a number of projects related to logistics and event planning and implementation. At no one time have they failed us, and they have always been a reliable partner to us.

One of the most important project implemented alongside Profile Agency, was GUAM Summit, a high level event that reunited the prime-ministers of 4 member states. During that event, and not only, the agency brought along good expertise and dedication to their job that went beyond scope of work.

We highly recommend PRofile Agency as a team of professionals for any project you may have.
