To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for PNA Software SRL. As responsible from GIZ Moldova, I have had the privilege of working closely with PNA Software SRL on a significant software development project that has greatly contributed to the regional and local development efforts in the Republic of Moldova.

PNA Software SRL demonstrated great professionalism and technical expertise throughout the implementation of the project. They were responsible for delivering a comprehensive digital information system tailored to support regional and local development projects. Despite the complex requirements and the involvement of numerous stakeholders, PNA Software SRL managed to deliver the project on time, ensuring that all functional and non-functional requirements were met with high standards.

Their ability to manage communications among various stakeholders, including representatives from the Ministry of Infrastructure and Regional Development, Regional Development Agencies, National Office for Regional and Local Development representatives, the Electronic Government Agency, and the Public Institution "Information Technology and Cyber Security Service", was particularly commendable. PNA Software SRL ensured that all parties were well-informed and engaged throughout the project lifecycle, facilitating smooth collaboration and integration.

The software solution provided by PNA Software SRL has proven to be a valuable tool in enhancing the efficiency and effectiveness of our regional development initiatives. The system's robust architecture, user-friendly interface, and secure data management capabilities have been instrumental in achieving our objectives.

Their commitment to excellence, strong project management skills, and technical proficiency make them an outstanding partner. We look forward to the possibility of collaborating with them on future endeavors.

In case of need for additional information, please contact me at petru.veverita@giz.de and/or +373 68074242.

Sincerely,

Petru Veverita
