

Your Ideal Platform for Language Teaching & Learning

Applications:

- Interactive Language Learning
- Pronunciation Practice
- Listening Practice
- Oral Quiz and Examination
- Presentation Skill Training

DLL is a Language Learning Software that provides all the features required by teachers for language learning such as pronunciation practice, video presentation, audio broadcasting, quiz and exercise.

The contents for **DLL** are highly flexible. Teaching materials can be tailor-made for students with the aid of content builder. Alternatively, teachers can use any other resource existed in the market. With our **DLL**, language learning becomes easy, flexible and interactive.

Functions & Benefits

Prepare Teaching Materials with Ease

Courseware Building

- Customize your own course materials
 - Zoomable visual waveform
 - Bookmark management
 - Caption / subtitle creation for learning aids
 - Play media at any point bookmarked
- Feel free to adopt movie clips, TV programs, AV signal, Webcam source or any other multimedia files as your teaching aids
- All-in-One Assignment: easy to integrate multimedia contents, exercises, subtitles and book marks in the same project file for content management

Facilitate Communications in Classroom

Intercom through Microphone

- Allows teacher to give instructions or advices to individual student or broadcast to all instantly
- Teacher can monitor students' learning progress by listening to each of their pronunciations
