

Applications

- Tubes for blood collection.

Features

- Transparent polypropylene tubes with flat bottom
- Rigid Polyethylene Screw cap for a leak free closure
- Color coded cap and label for ease of recognition
- Printed data on label allowing a visual control of the filled volume: 2.5 ml, 5 ml or 10 ml of blood
- CE marked in accordance with (EU) 2017/746 2017
- Supplied with rack for user convenience

Product and Packaging Specifications

Product Code	Additive	Usage	Color	Volume (ml)	Pcs /Rack	Racks /Box	Pcs/ Box	Box Dimensions L x w x H (mm)	Average Weight/Box (Kg)
BCS-100	Plain	-	White	10	50	40	2000	528 x 288 x 478 (±10)	11 (±0.5)
BCS-500				5					
BCS-201	Fluoride oxalate	for glucose determinations	Yellow	2.5	50	20	1000	476 x 231 x 291 (±10)	5.03 (±0.5)
BCS-501				5					
BCS-202	K ₃ EDTA	For Whole blood Hematology determinations	Green	2.5	50	20	1000	476 x 231 x 291 (±10)	5.03 (±0.5)
BCS-502				5					
BCS-203	Lithium heparin	Inhibits clotting activity	Dark blue	2.5	50	20	1000	476 x 231 x 291 (±10)	5.03 (±0.5)
BCS-503				5					
BCS-204	Trisodium citrate	Routine Coagulation analysis (INR, PT & aPTT)	Pink	2.5	50	20	1000	476 x 231 x 291 (±10)	5.03 (±0.5)
BCS-504				5
