

FLIR PT-SERIES HD

HD Visible and Thermal Pan/Tilt

The FLIR PT-Series HD is our most advanced dual-sensor security system, combining a cooled or uncooled thermal sensor with 640 × 480 resolution, a 1080p HD visible-light imaging sensor, and a high speed, precision pan/tilt system. This camera series integrates easily with FLIR United VMS 8.0 as well as other major third party video management systems, making it an extremely versatile solution for critical infrastructure protection in total darkness, bright sun, and adverse conditions.
