

Hight-end disposable“Human-Machine”Interconnect Solutions

Oct 2017

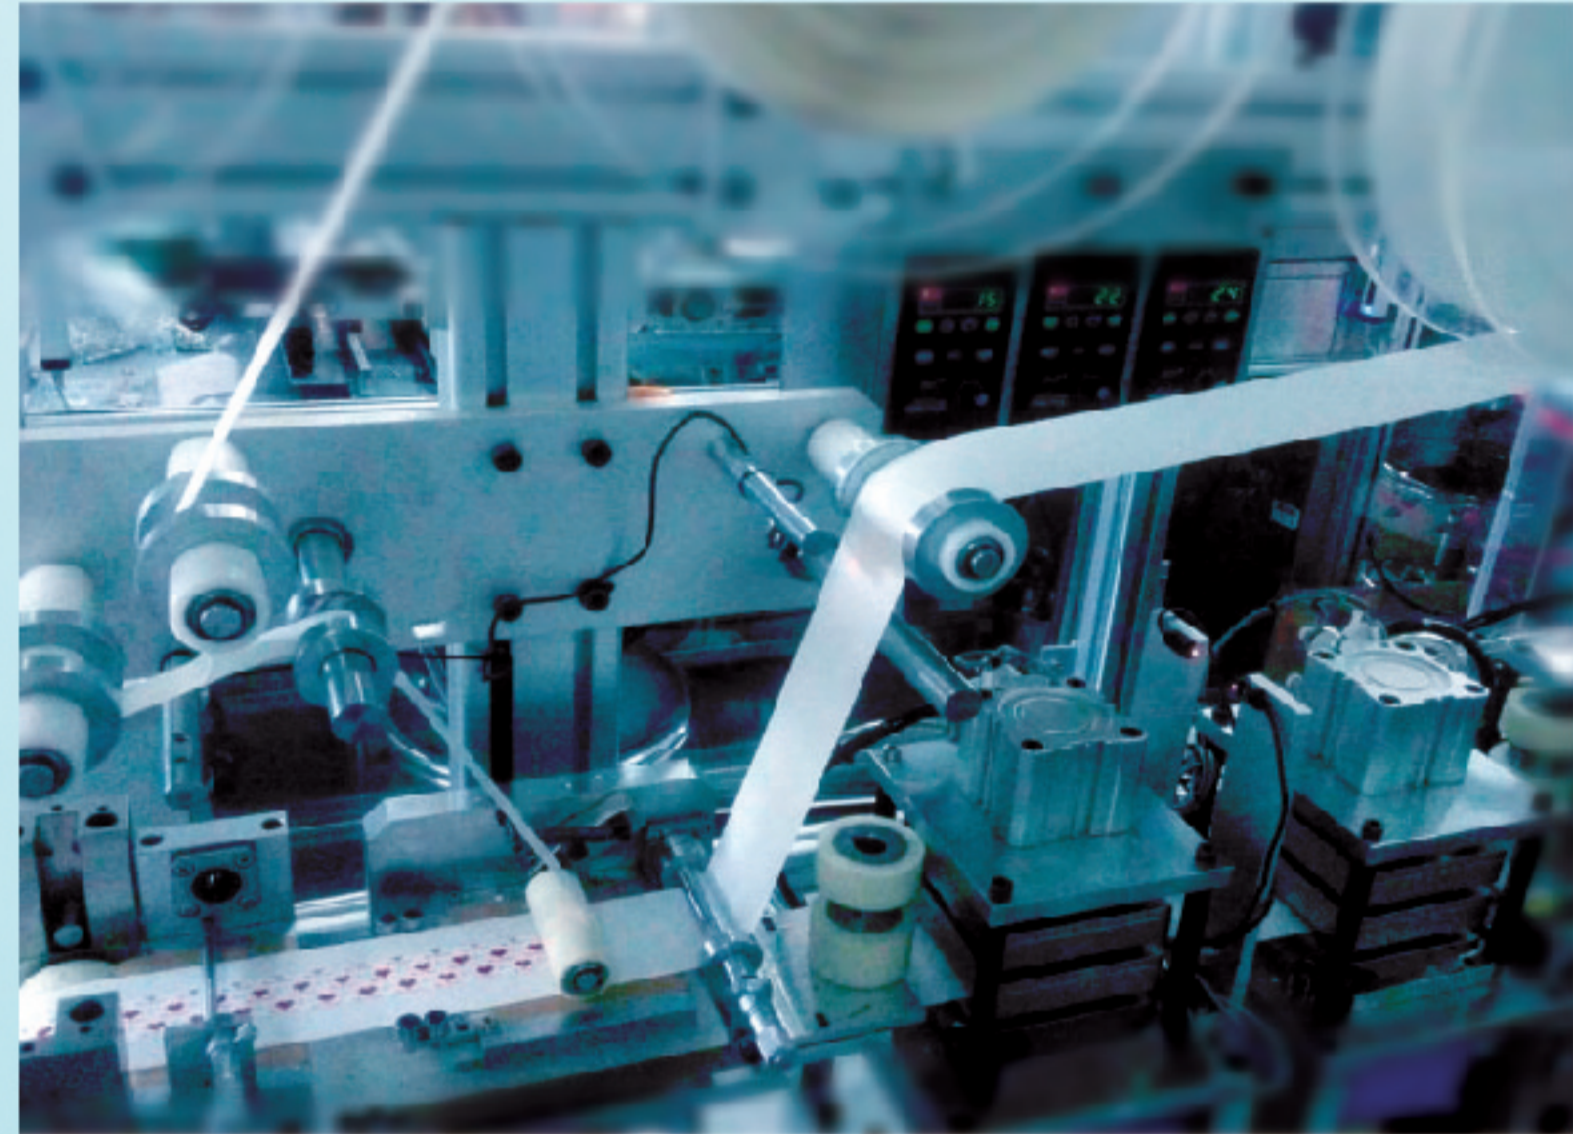

Company Profiles

We, Qingdao Bright Medical Manufacturing Co., Ltd. established in 1993, is a professional private high-tech medical device company. As “Shandong Patent Star Enterprise”, we have obtained over 50 domestic and international patents. The registered capital of company is RMB 21,000,000 and our company has established Bioelectricity Laboratory, Engineering Technology Center, as well as Incubation Center and Manufacturing Center. We own an industrial park with production site of 20,000 square meters, which covers a land area of 19988 square meters. Over last 2 decades, we have dedicated ourselves in research and development of bioelectric signal related products and medical sensors. Our mission is to provide a reliable and precise “Human-Machine” interconnection solution. With many successful experiences in cooperation with world famous research institutes and medical device manufacturers, we have become a recognized expert in this area.

Since 2009, we have introduced cutting edge technologies and expanded our business into development and manufacturing of military medical optics, smart devices, mobile & wearable devices and first aid products. We have cooperated with numerous world famous enterprises, universities and institutions for joint development and production. We will continue the diversified strategy in medical and healthcare segments.

With integrity and pragmatic business philosophy, advanced and reliable experience in R & D, excellent quality management system, perfect customer service, we have earned recognition and respect from our colleagues. After technique collaborations with over 500 domestic and international enterprises and institutions, we have accumulated strong research capabilities and built up a sophisticated sales channel. Proudly, we have become one of the most important research and production center of accessories for high-end medical devices.

WHY US

With more than 20 years experiences in designing, manufacturing and marketing ECG cable and electrodes, China Qingdao Bright Medical Manufacturing Co.,Ltd has become one of the well recognized market leaders. Our patented adhesive formula and imported high quality sensor provide quick, accurate traces. The lower chloride composition in hydro gel help to minimize skin irritation. The high quality backing materials ensure high patient adhesion without residual. A full range of disposable ECG electrodes including stud disposable ECG electrodes, TAB electrode, Pre-wired neonatal electrode in different shapes and sizes ,meet all your clinical need in resting ECG, stress ECG and Holter monitoring.

FEATURES :

- High quality medical adhesive provides strong adhesion, it won't easily fall off even on Diaphoretic patient ;
- Imported Ag/Agcl sensor and patent formulated hydrogel ensure quick ,clear and accurate traces ;
- Electrical performances comply to AAMI EC12 Standard,
- Materials ISO10993 compatible.
- Private labeling and packing are available ;
- All electrode produced in 100,000 level clean room;
- Neoprene-free, DEHP-free and Mercury-free ;

0811115-02	42*46mm	Solid	Foam	5pcs/strip 50pcs/pouch 5000pcs/case	Diagnostic Monitoring Holter/tread mill	Adult
0811124-02	36*42mm	Solid	Foam	5pcs/strip 50pcs/pouch 5000pcs/case	Diagnostic Monitoring Holter/tread mill	Adult
0801171	30*33mm	Solid	Foam	5pcs/strip 50pcs/pouch 5000pcs/case	Diagnostic Monitoring Holter/tread mill	Pediatric

Disposable ECG Electrode

Dimension:50*50mm

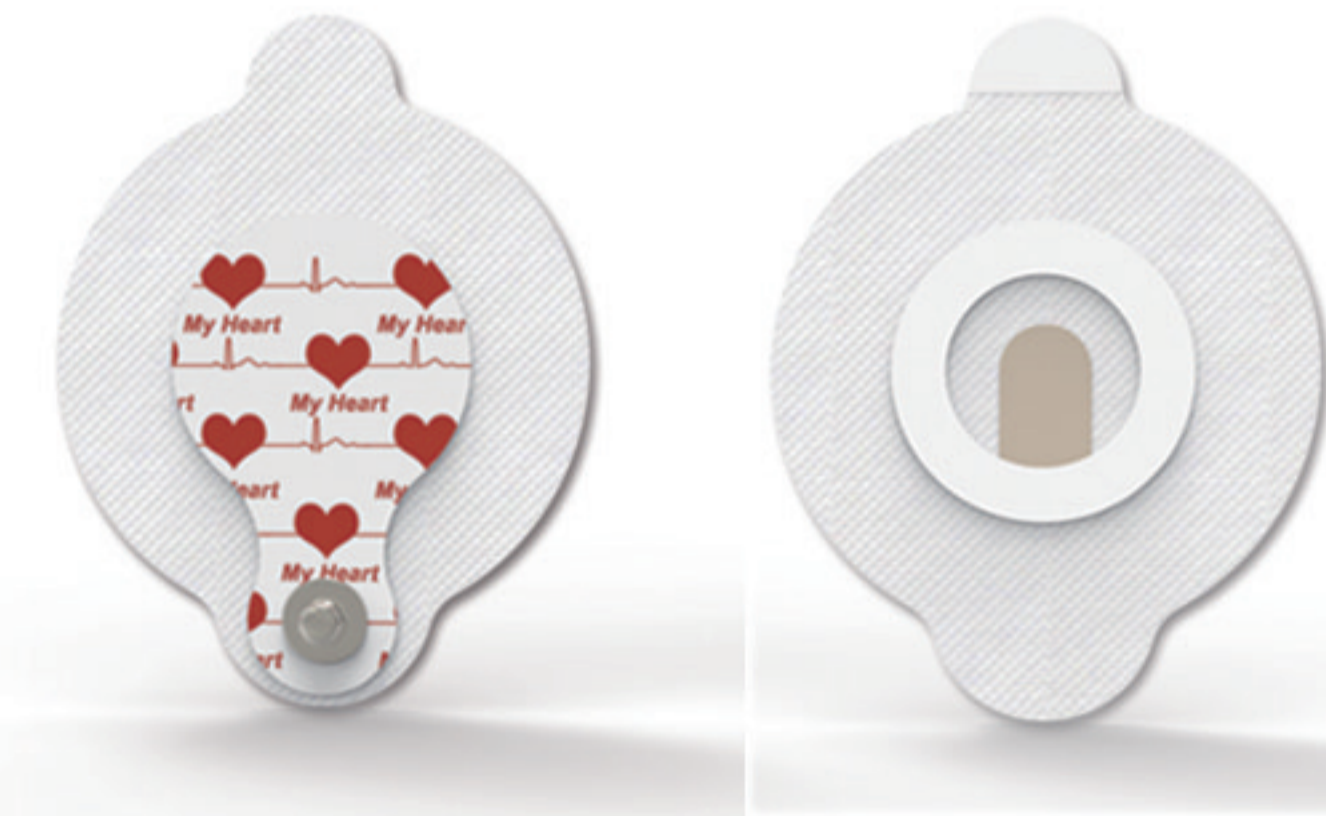

Gel:Solid Gel

Backing:Non-woven

Packing:50pcs/case 40case/box

Features :

- Soft cloth, permeable and cause no irritation.
- Excellent conductivity performance with advanced conducting technology.
- The substrate is with good adhesive foam.

Patent NO.: 201420102639.6

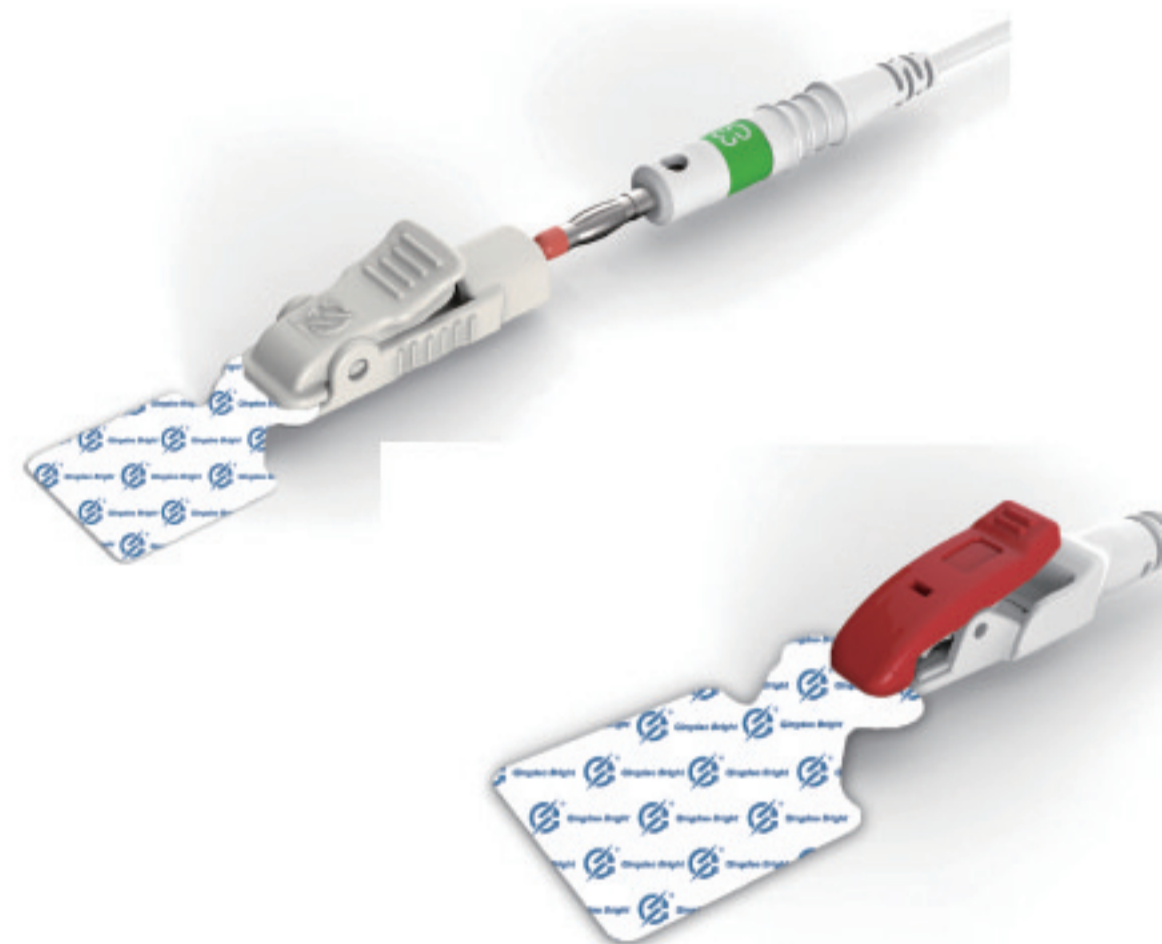

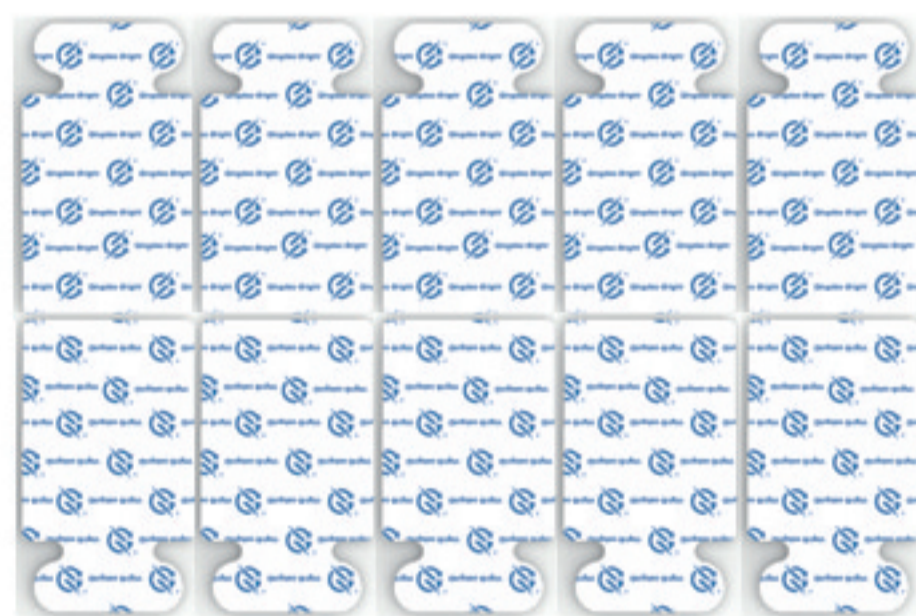

TAB Electrode

Features :

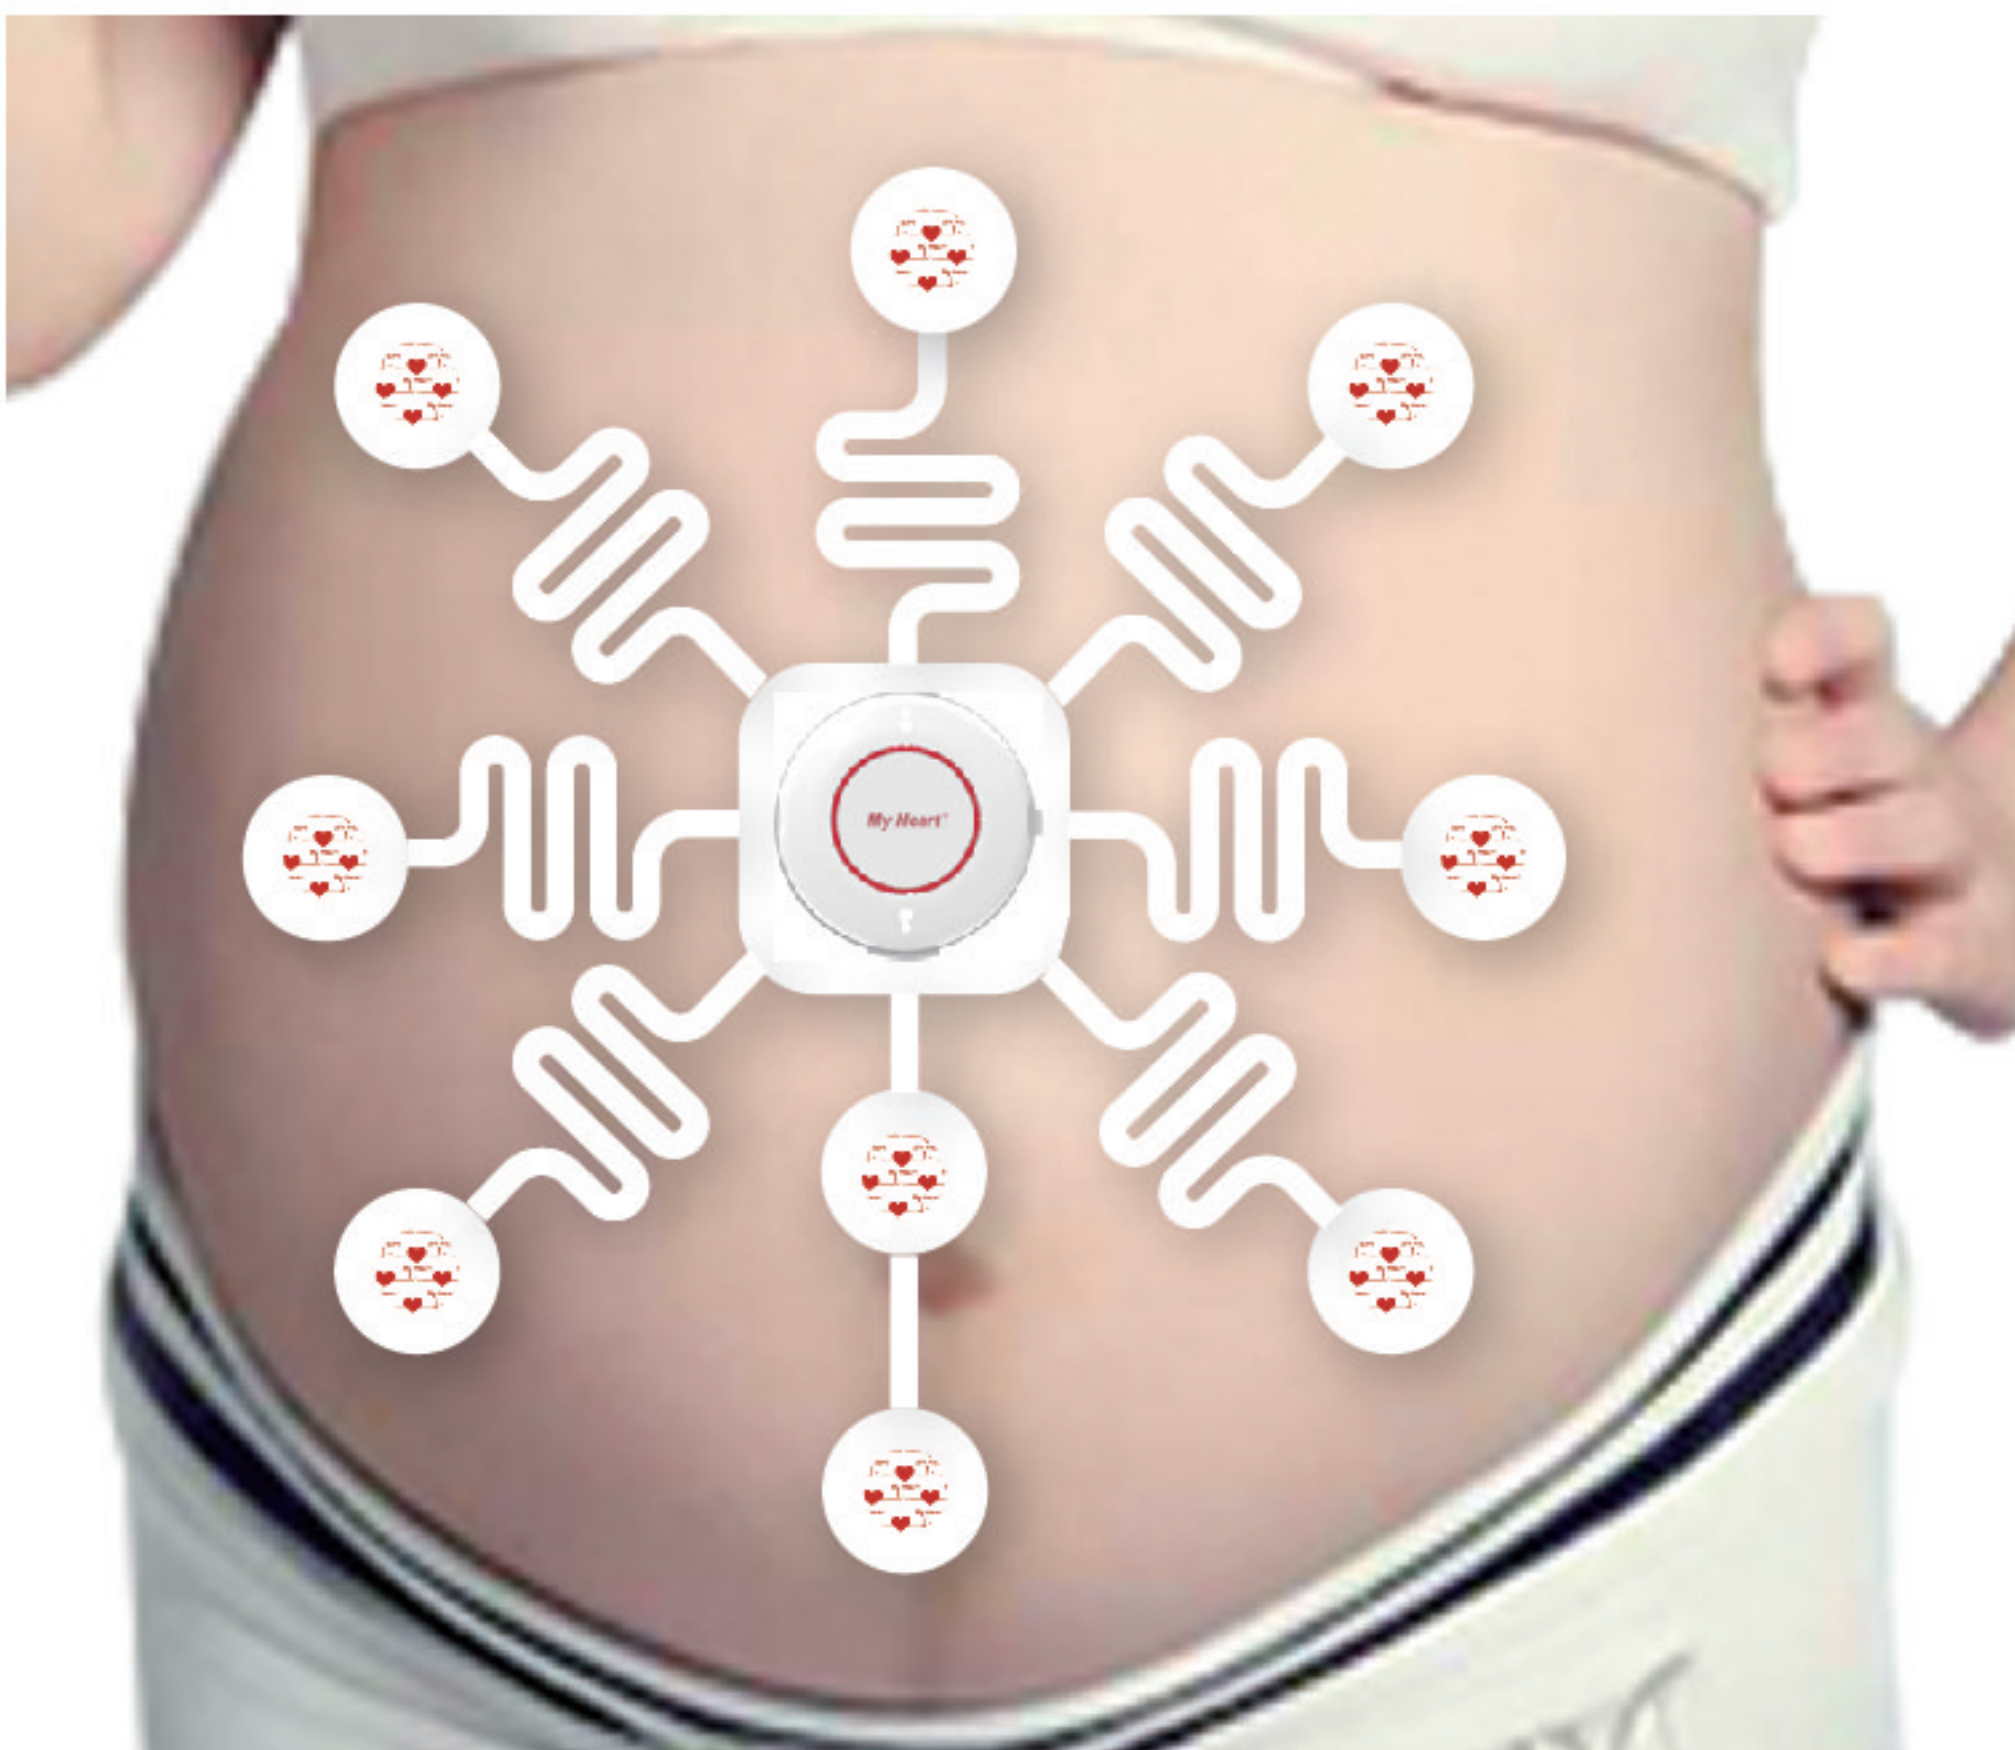

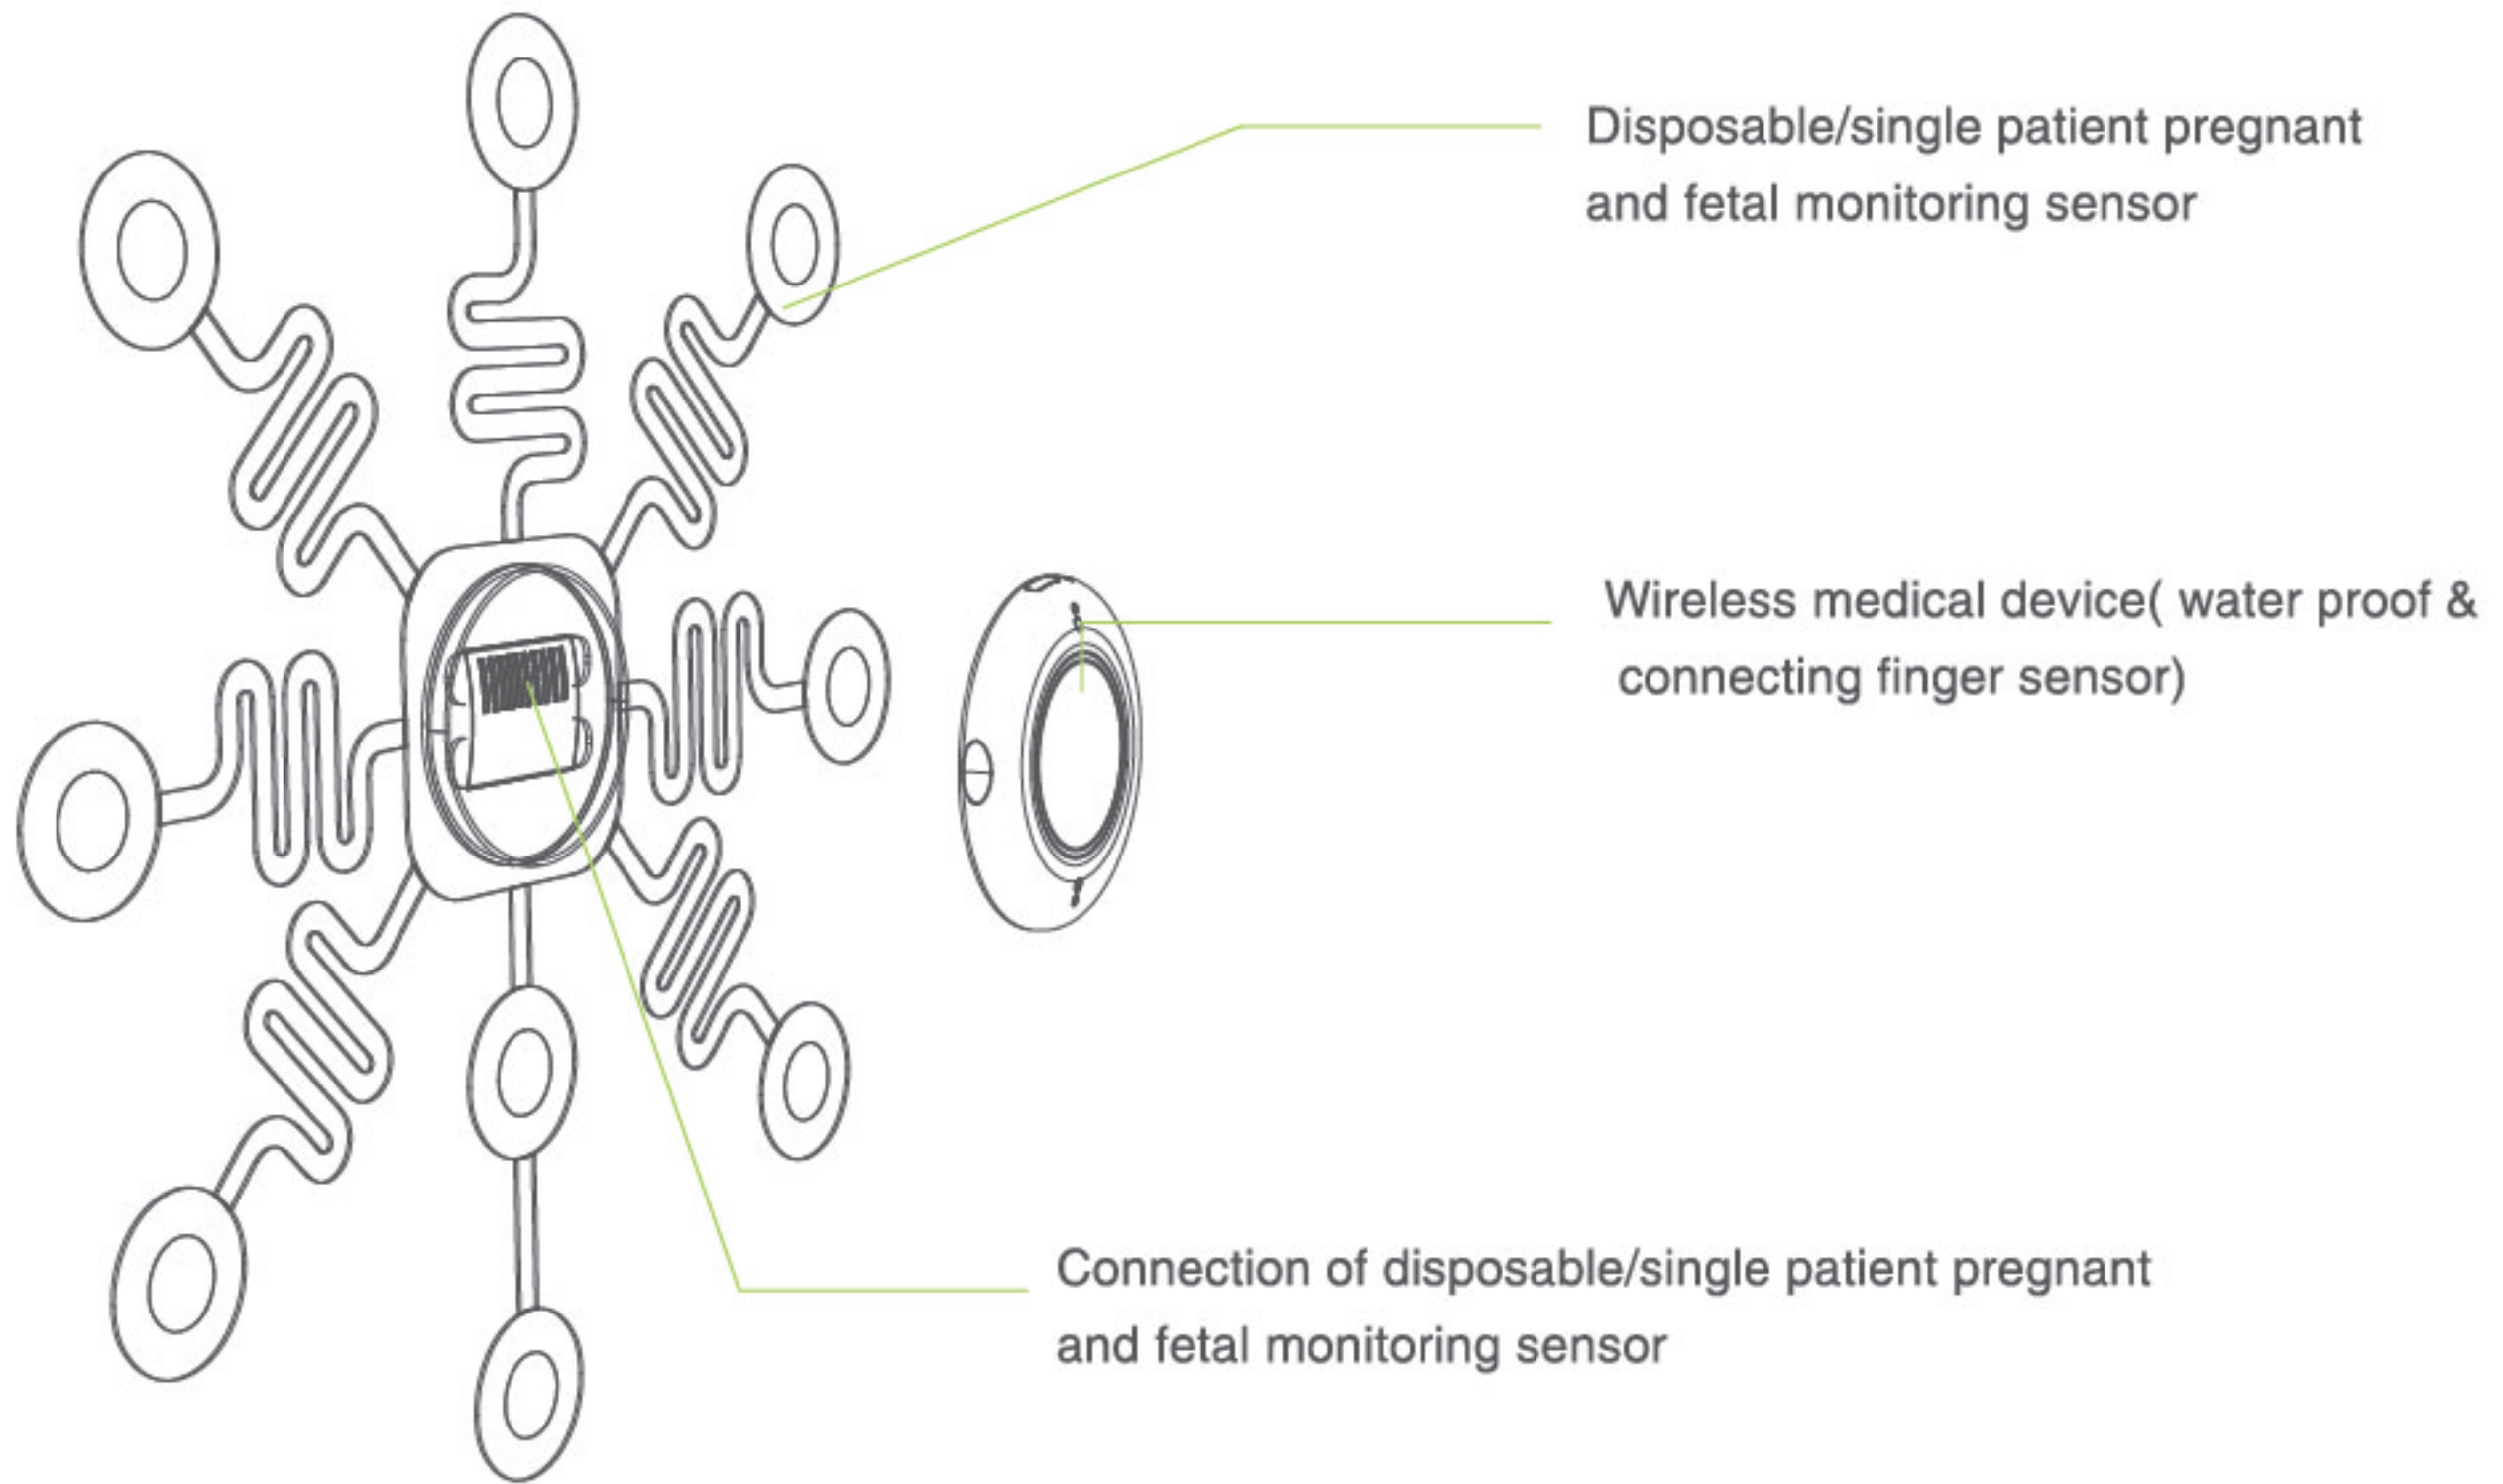

- High-quality medical adhesive provides strong adhesion, it won't easily fall off even on hairy skin;
- Ag/Agcl conductive adhesive gel ensures quick ,clear, ccurate traces;
- Neoprene-free, DEHP-free and Mercury-free;

Product code	Size	Gel	Packing	Suggested usage	Applicable people
0406045	15*34mm	Hydro gel	10pcs/strip 100pcs/pouch 10000pcs/case	Resting ECG	Adult,Pediatric
0406042	20*34mm	Hydro gel	10pcs/strip 100pcs/pouch 10000pcs/case	Resting ECG	Adult,Pediatric
0406048	25*34mm	Hydro gel	10pcs/strip 100pcs/pouch 10000pcs/case	Resting ECG	Adult,Pediatric

Disposable Pregnant Electrode

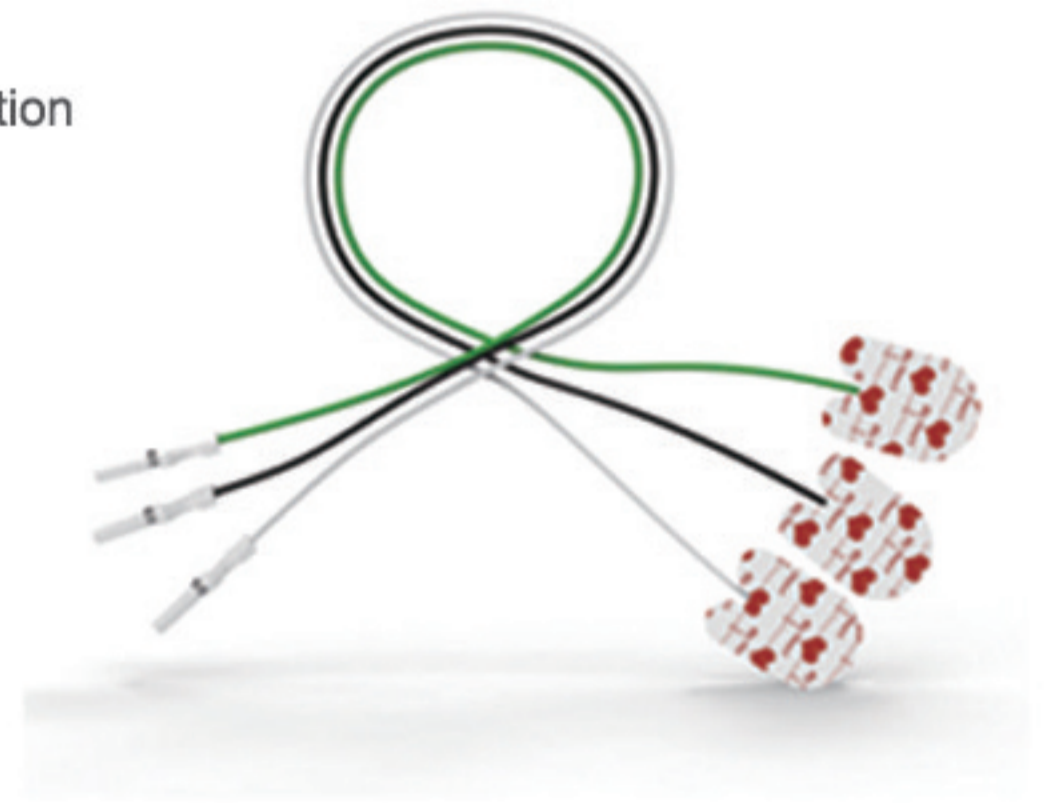

Pre-wired Electrode

Features

- Conductive adhesive hydrogel provides firm adhesion while minimizing irritation to delicate newborn skin;
- Color coded leadwires with 1.5mm touch proof connector;
- Ag/AgCl conductive adhesive gel ensures quick, clear, accurate traces;
- Neoprene-free, DEHP-free and mercury-free;
- Radiolucent is available.

Product code	Size	Gel	Packing	Applicable people	Standard
0801172	20*28mm	Hydro gel	3pcs/Pouch 50Pouch/Case	Neonate	IEC
0801173	20*28mm	Hydro gel	3pcs/Pouch 50Pouch/Case	Neonate	AHA
0801174	20*20mm	Hydro gel	3pcs/Pouch 50Pouch/Case	Neonate	IEC
0801175	20*20mm	Hydro gel	3pcs/Pouch 50Pouch/Case	Neonate	AHA

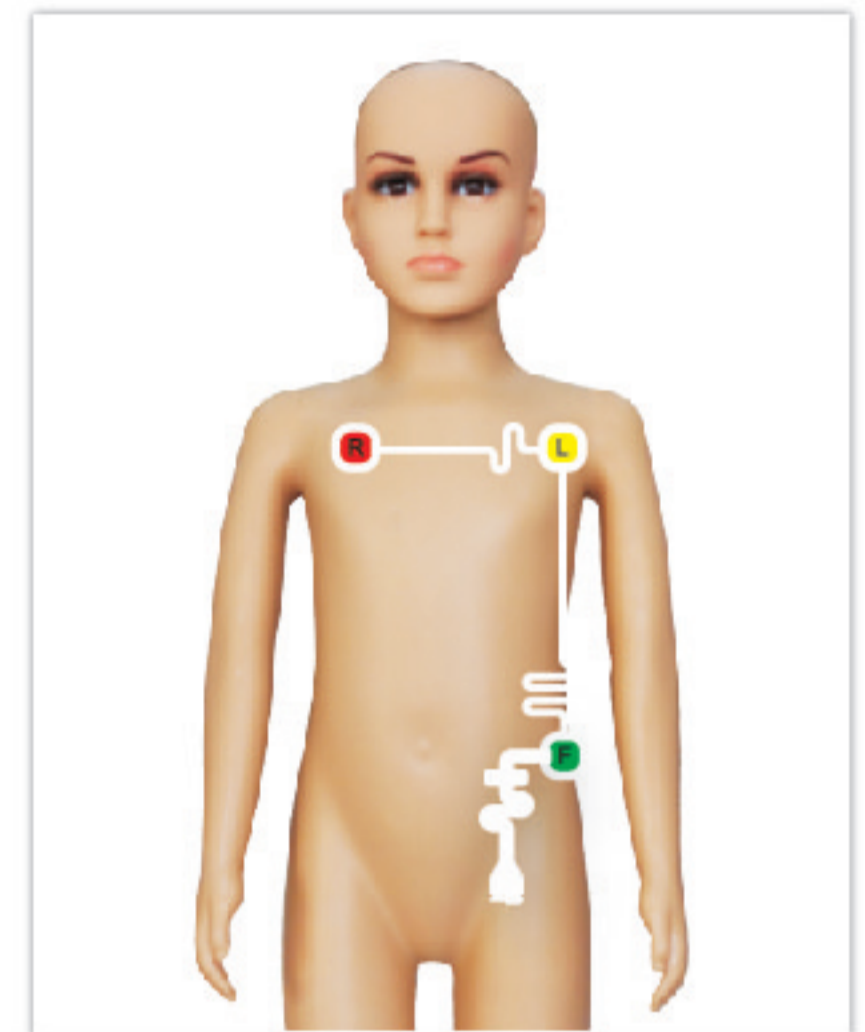

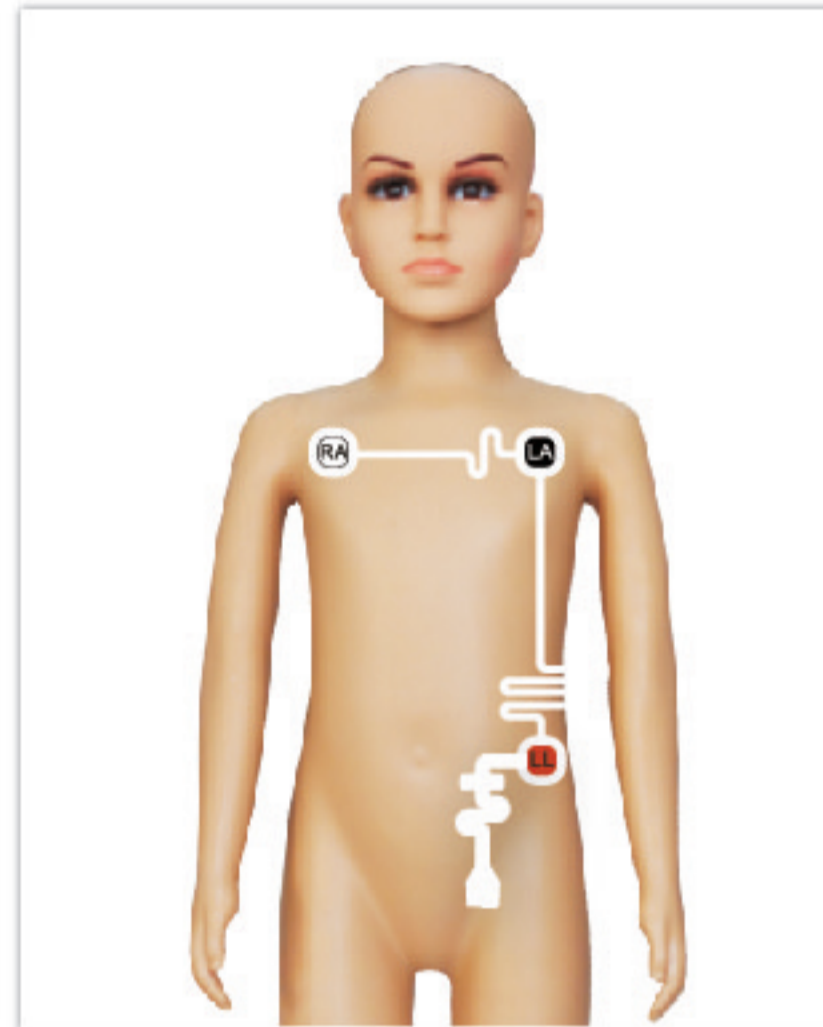

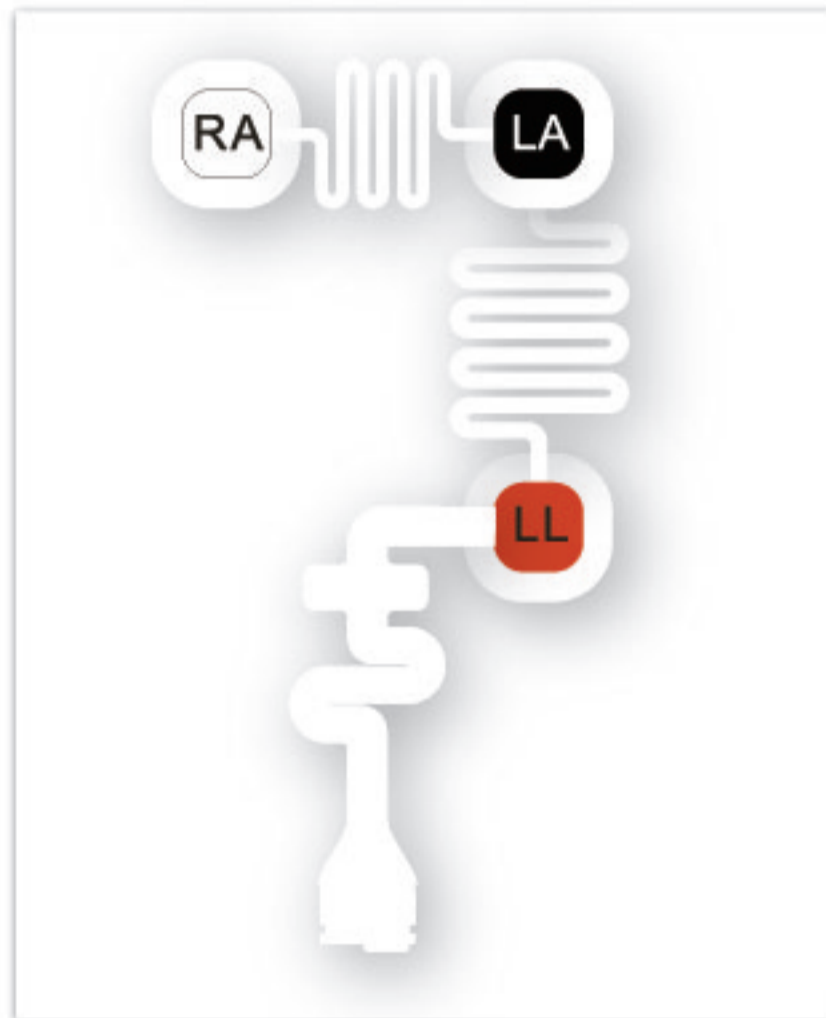

Disposable ECG String Cables

ECG - 3 Leads (Children)-Monitor

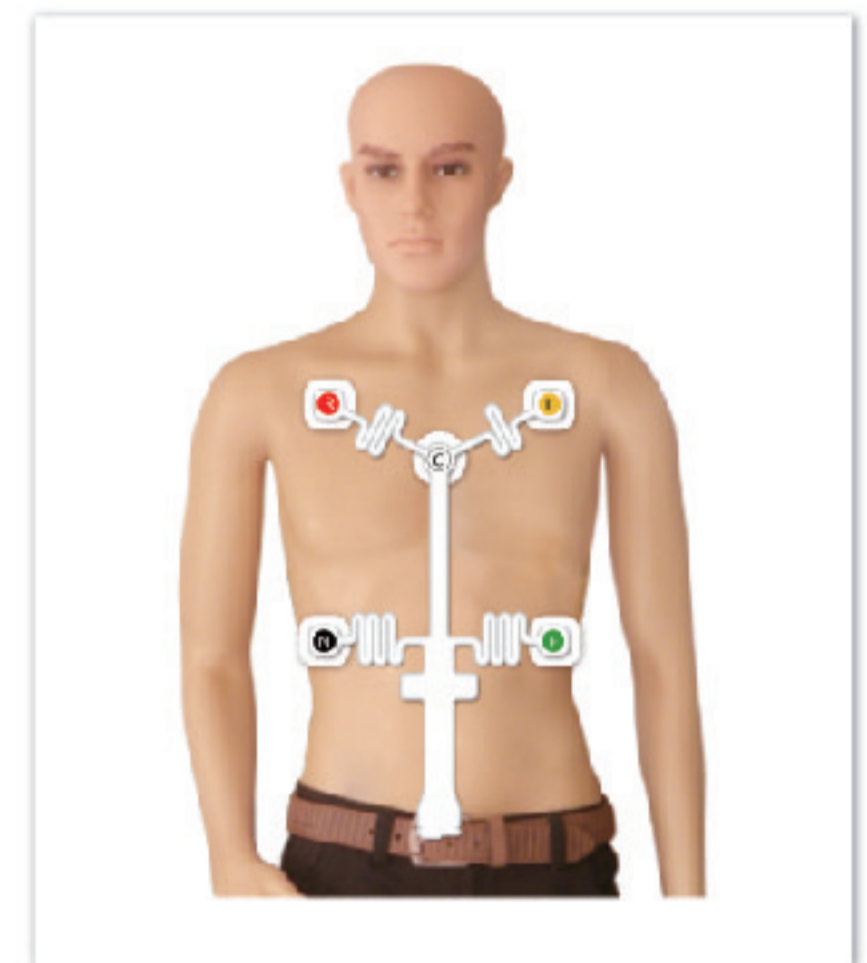

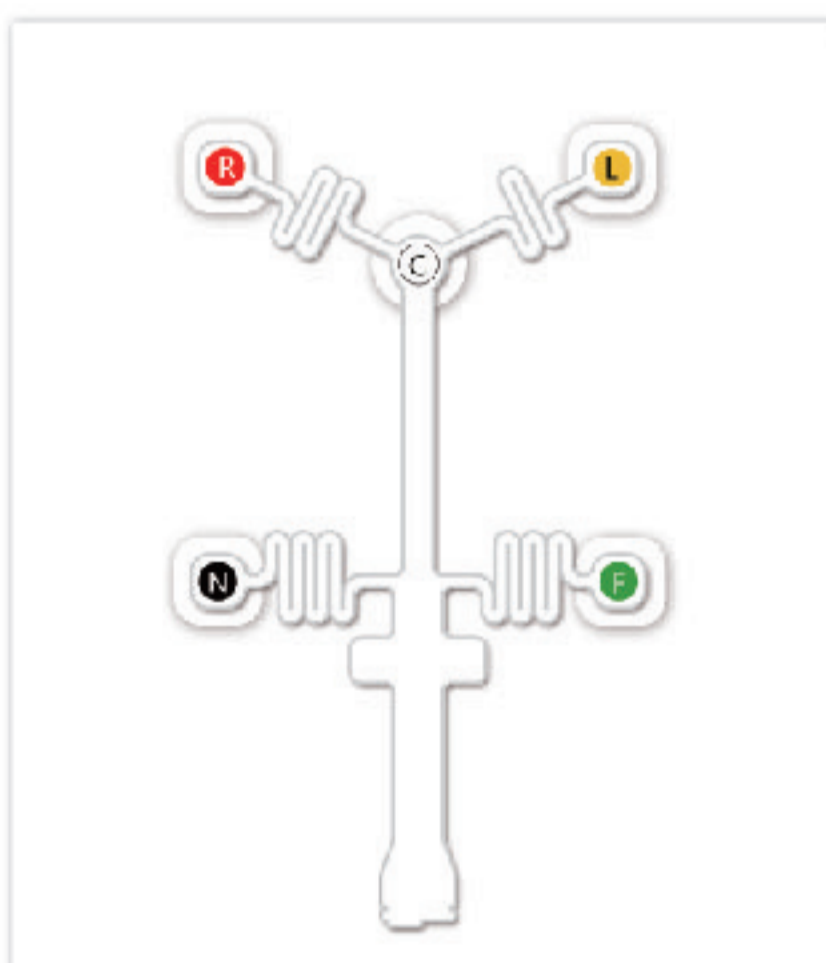

AHA

IEC

Patent NO.: 002469080-0002
201430091136.9

ECG - 5 Leads (Adult)-Holter

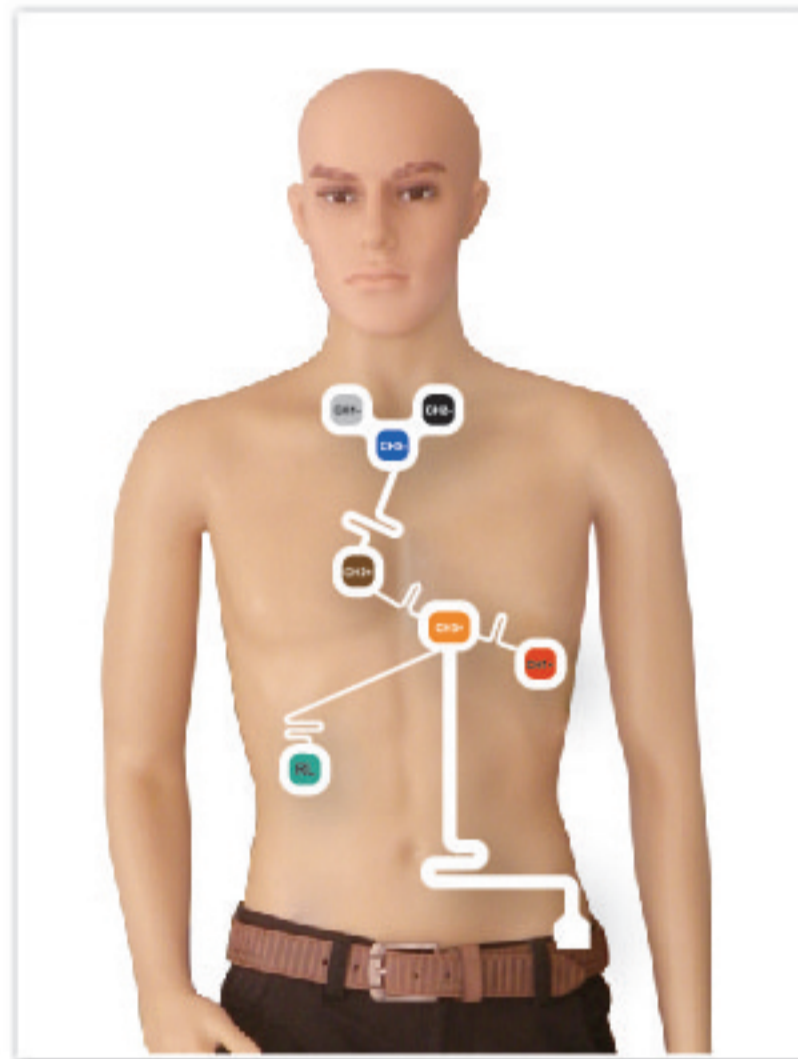

Patent NO.: 002469080-0002
201430091136.9

Disposable ECG String Cables

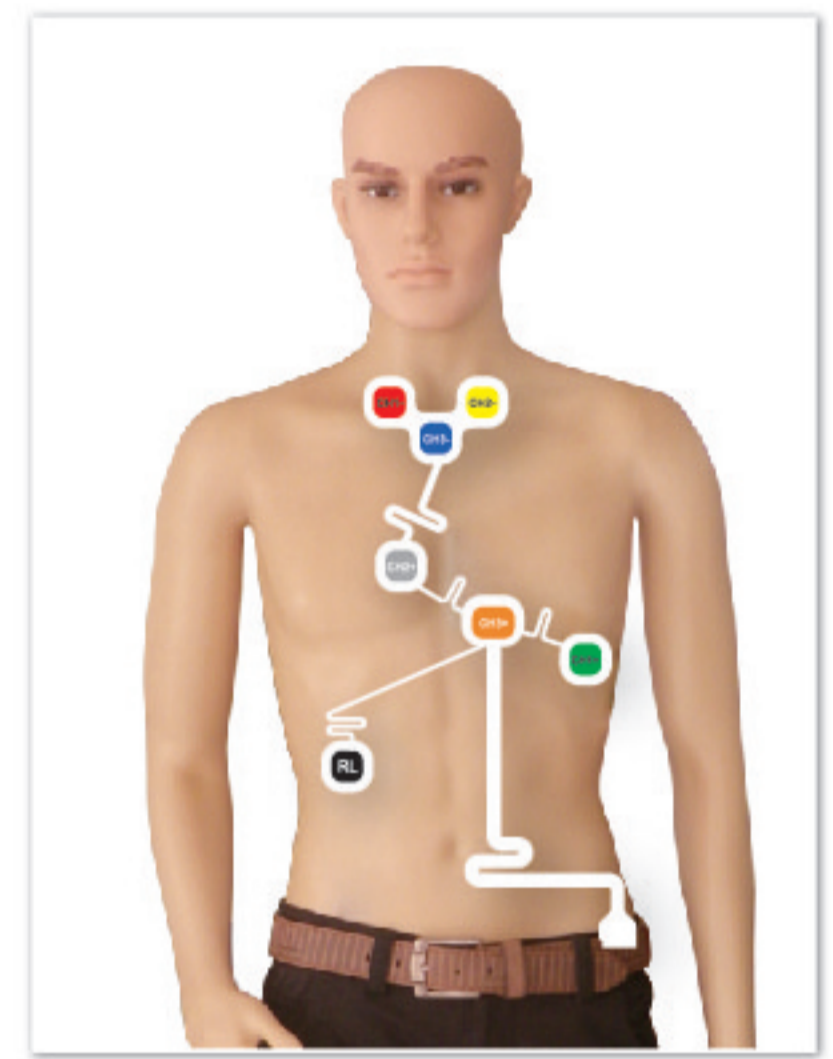

ECG - 7 Leads (Adult)-Holter

AHA

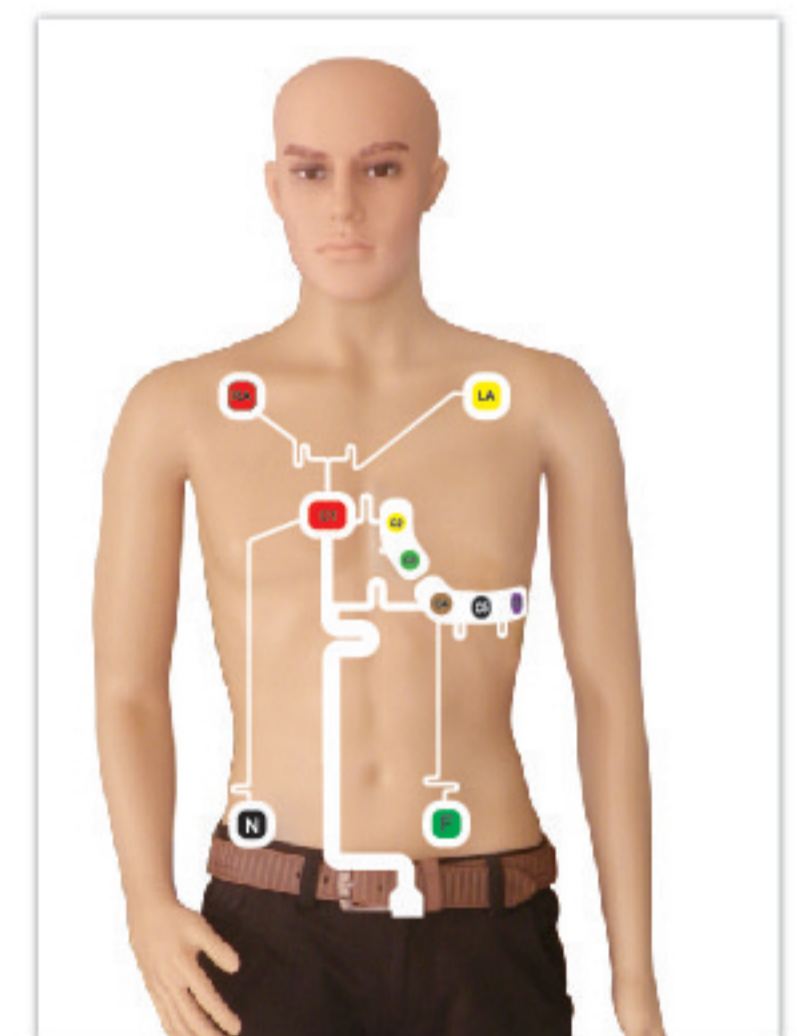

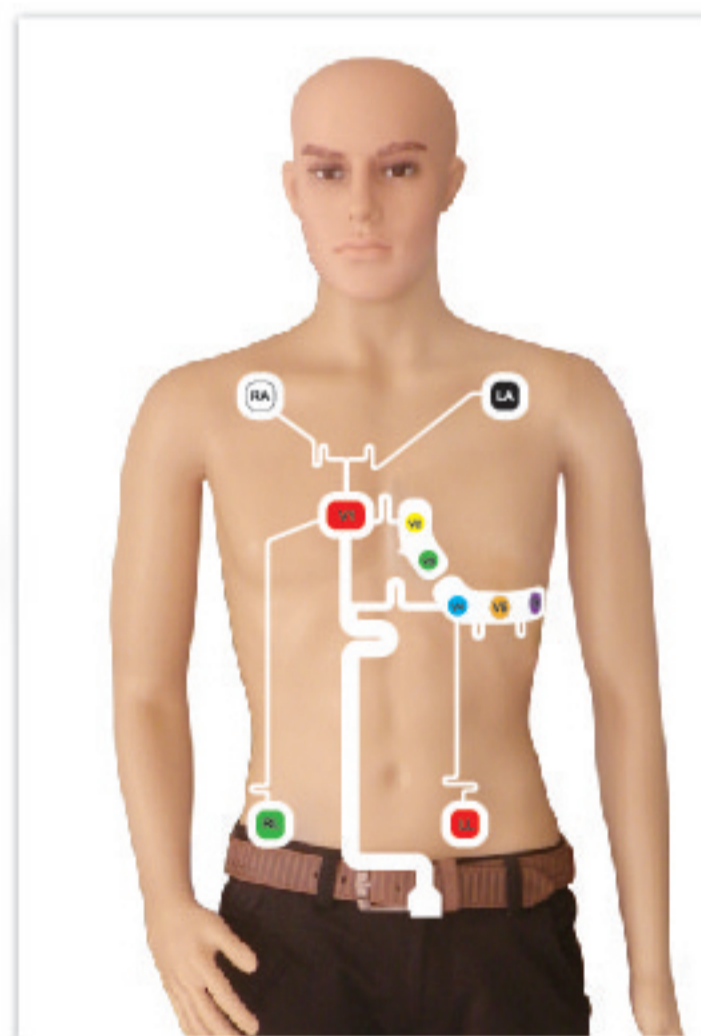

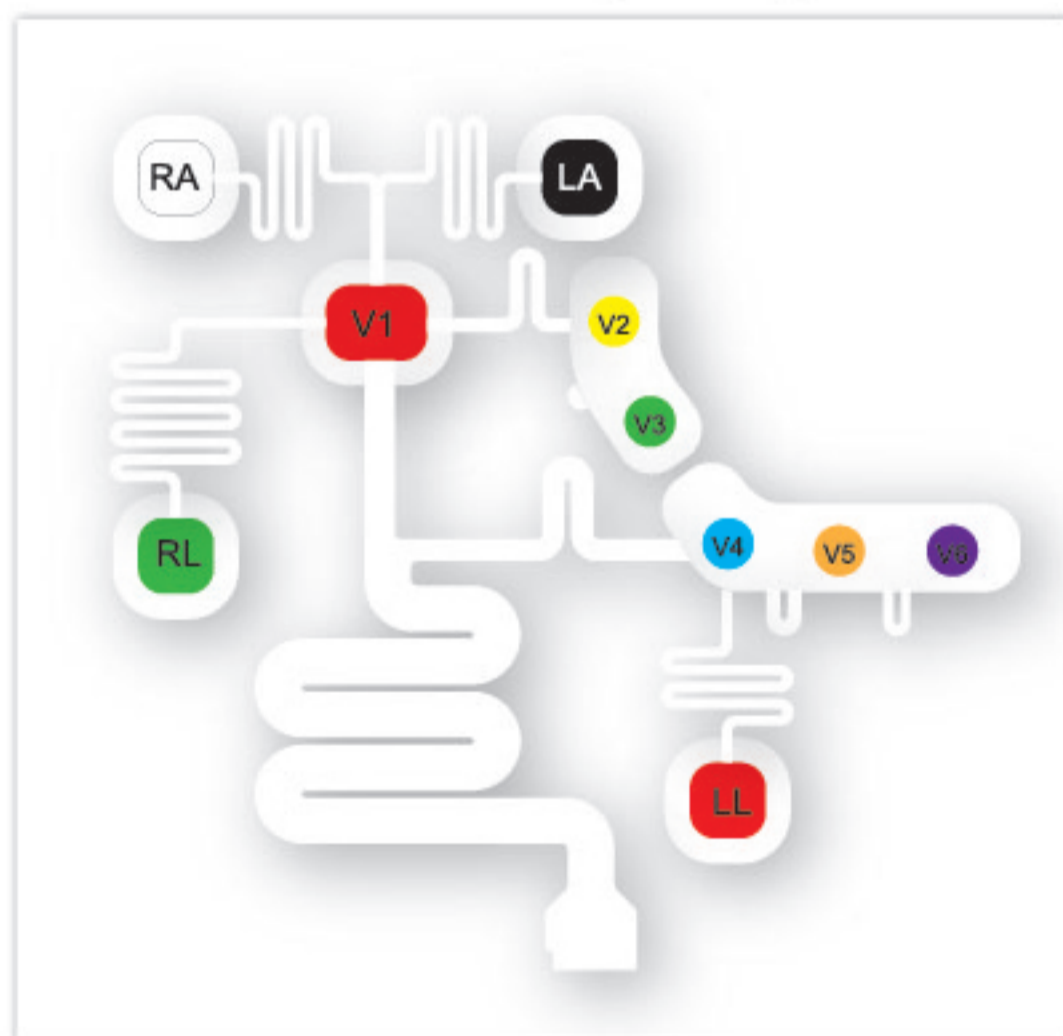

IEC

Patent NO.: 002469080-0002

ECG - 10 Leads (Adult)-Holter

Patent NO.: 002469080-0002
201430091136.9

■ Disposable EEG Monitoring Sensor

Patent NO.: 201210161134.2

Patent NO.: 002469080-0002
201430091136.9

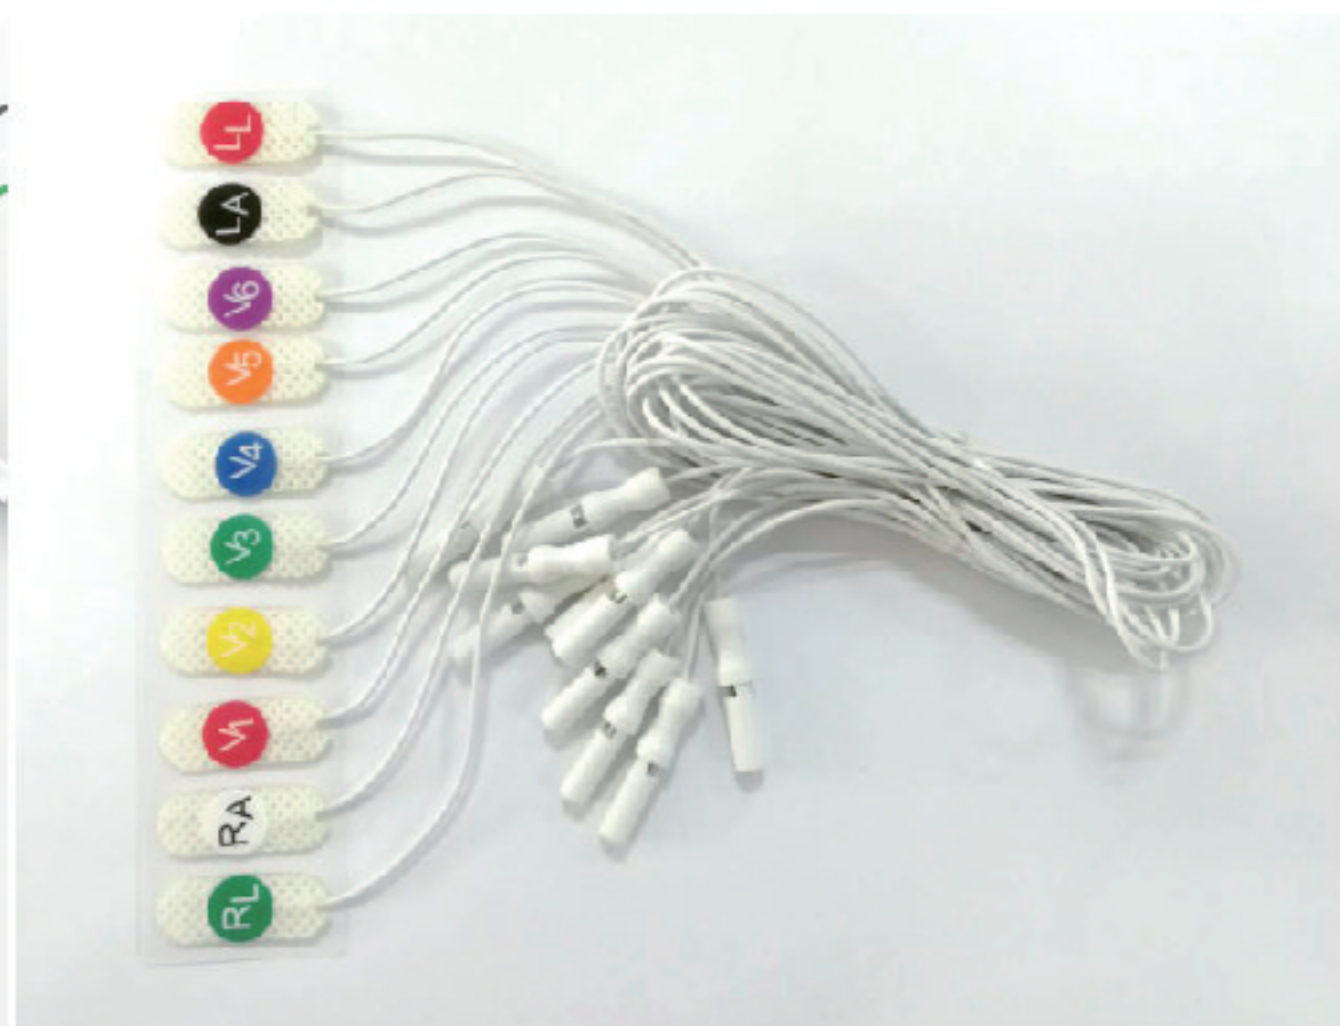

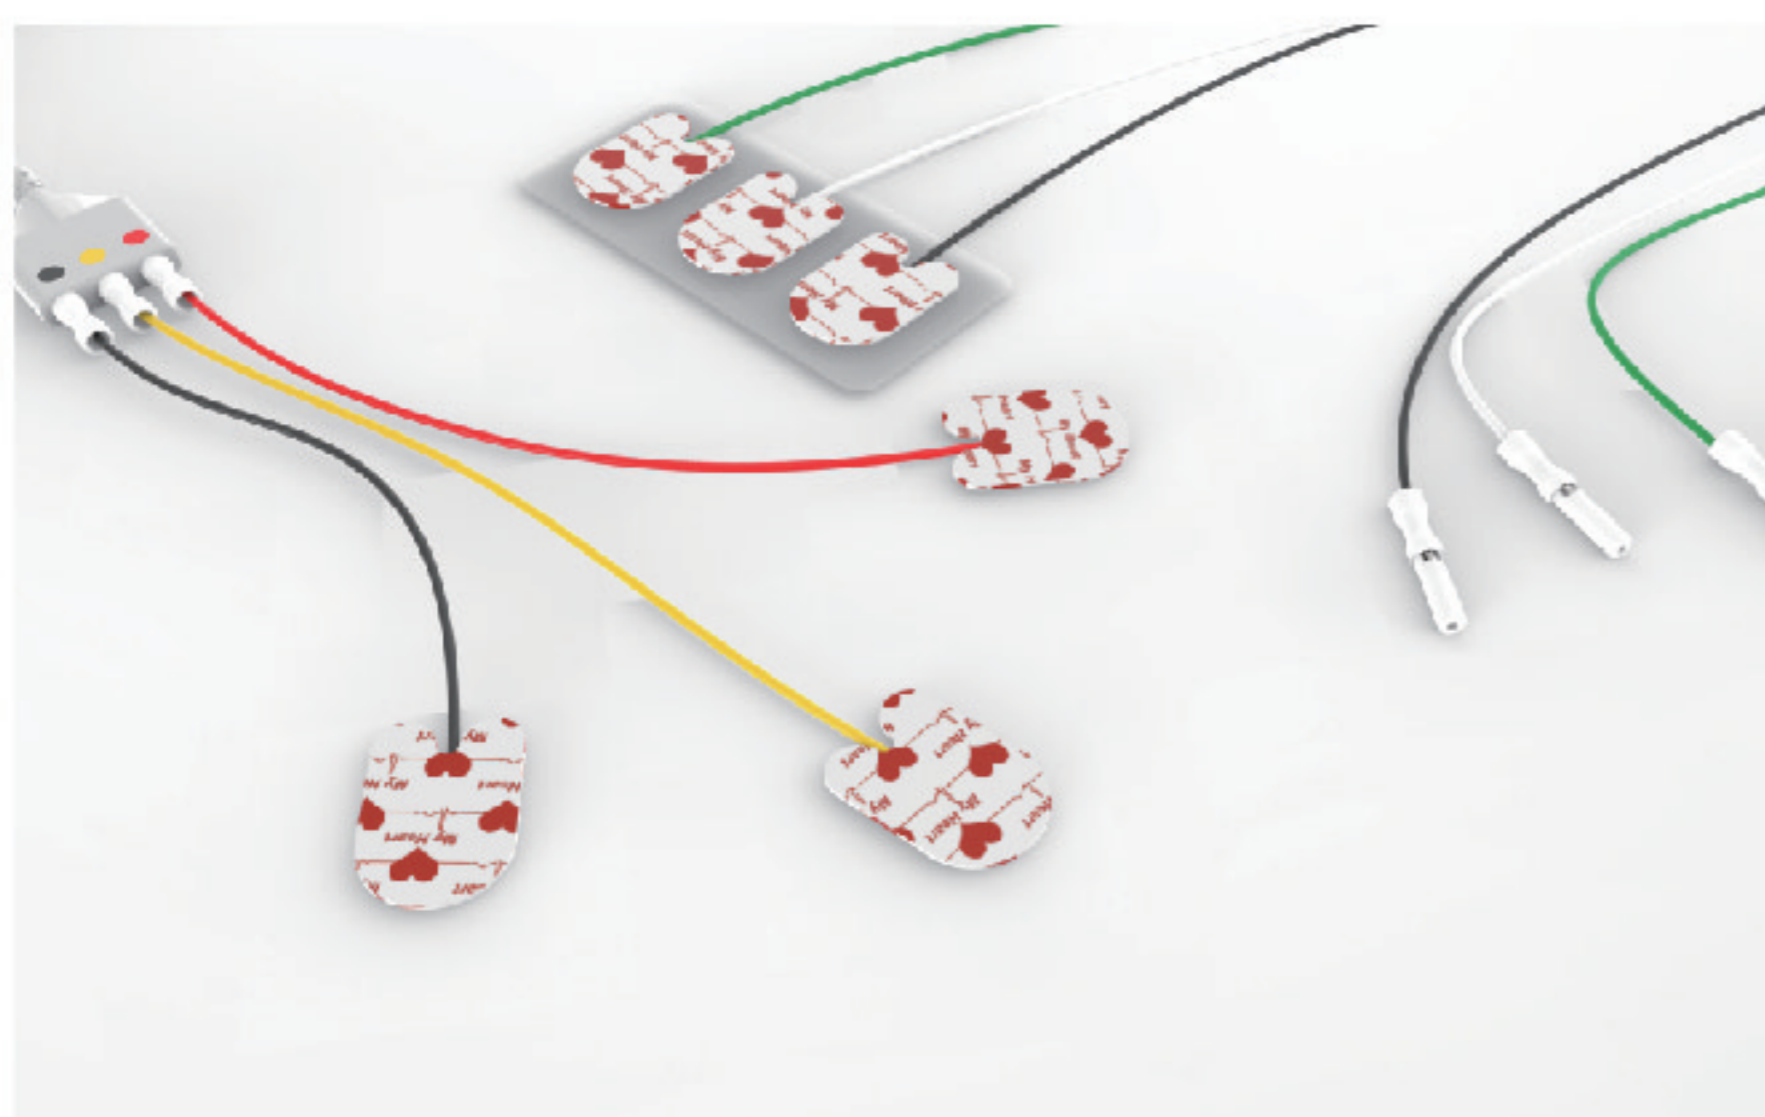

S	402.5×320
M	412.5×320
L	422.5×320

AED PADS

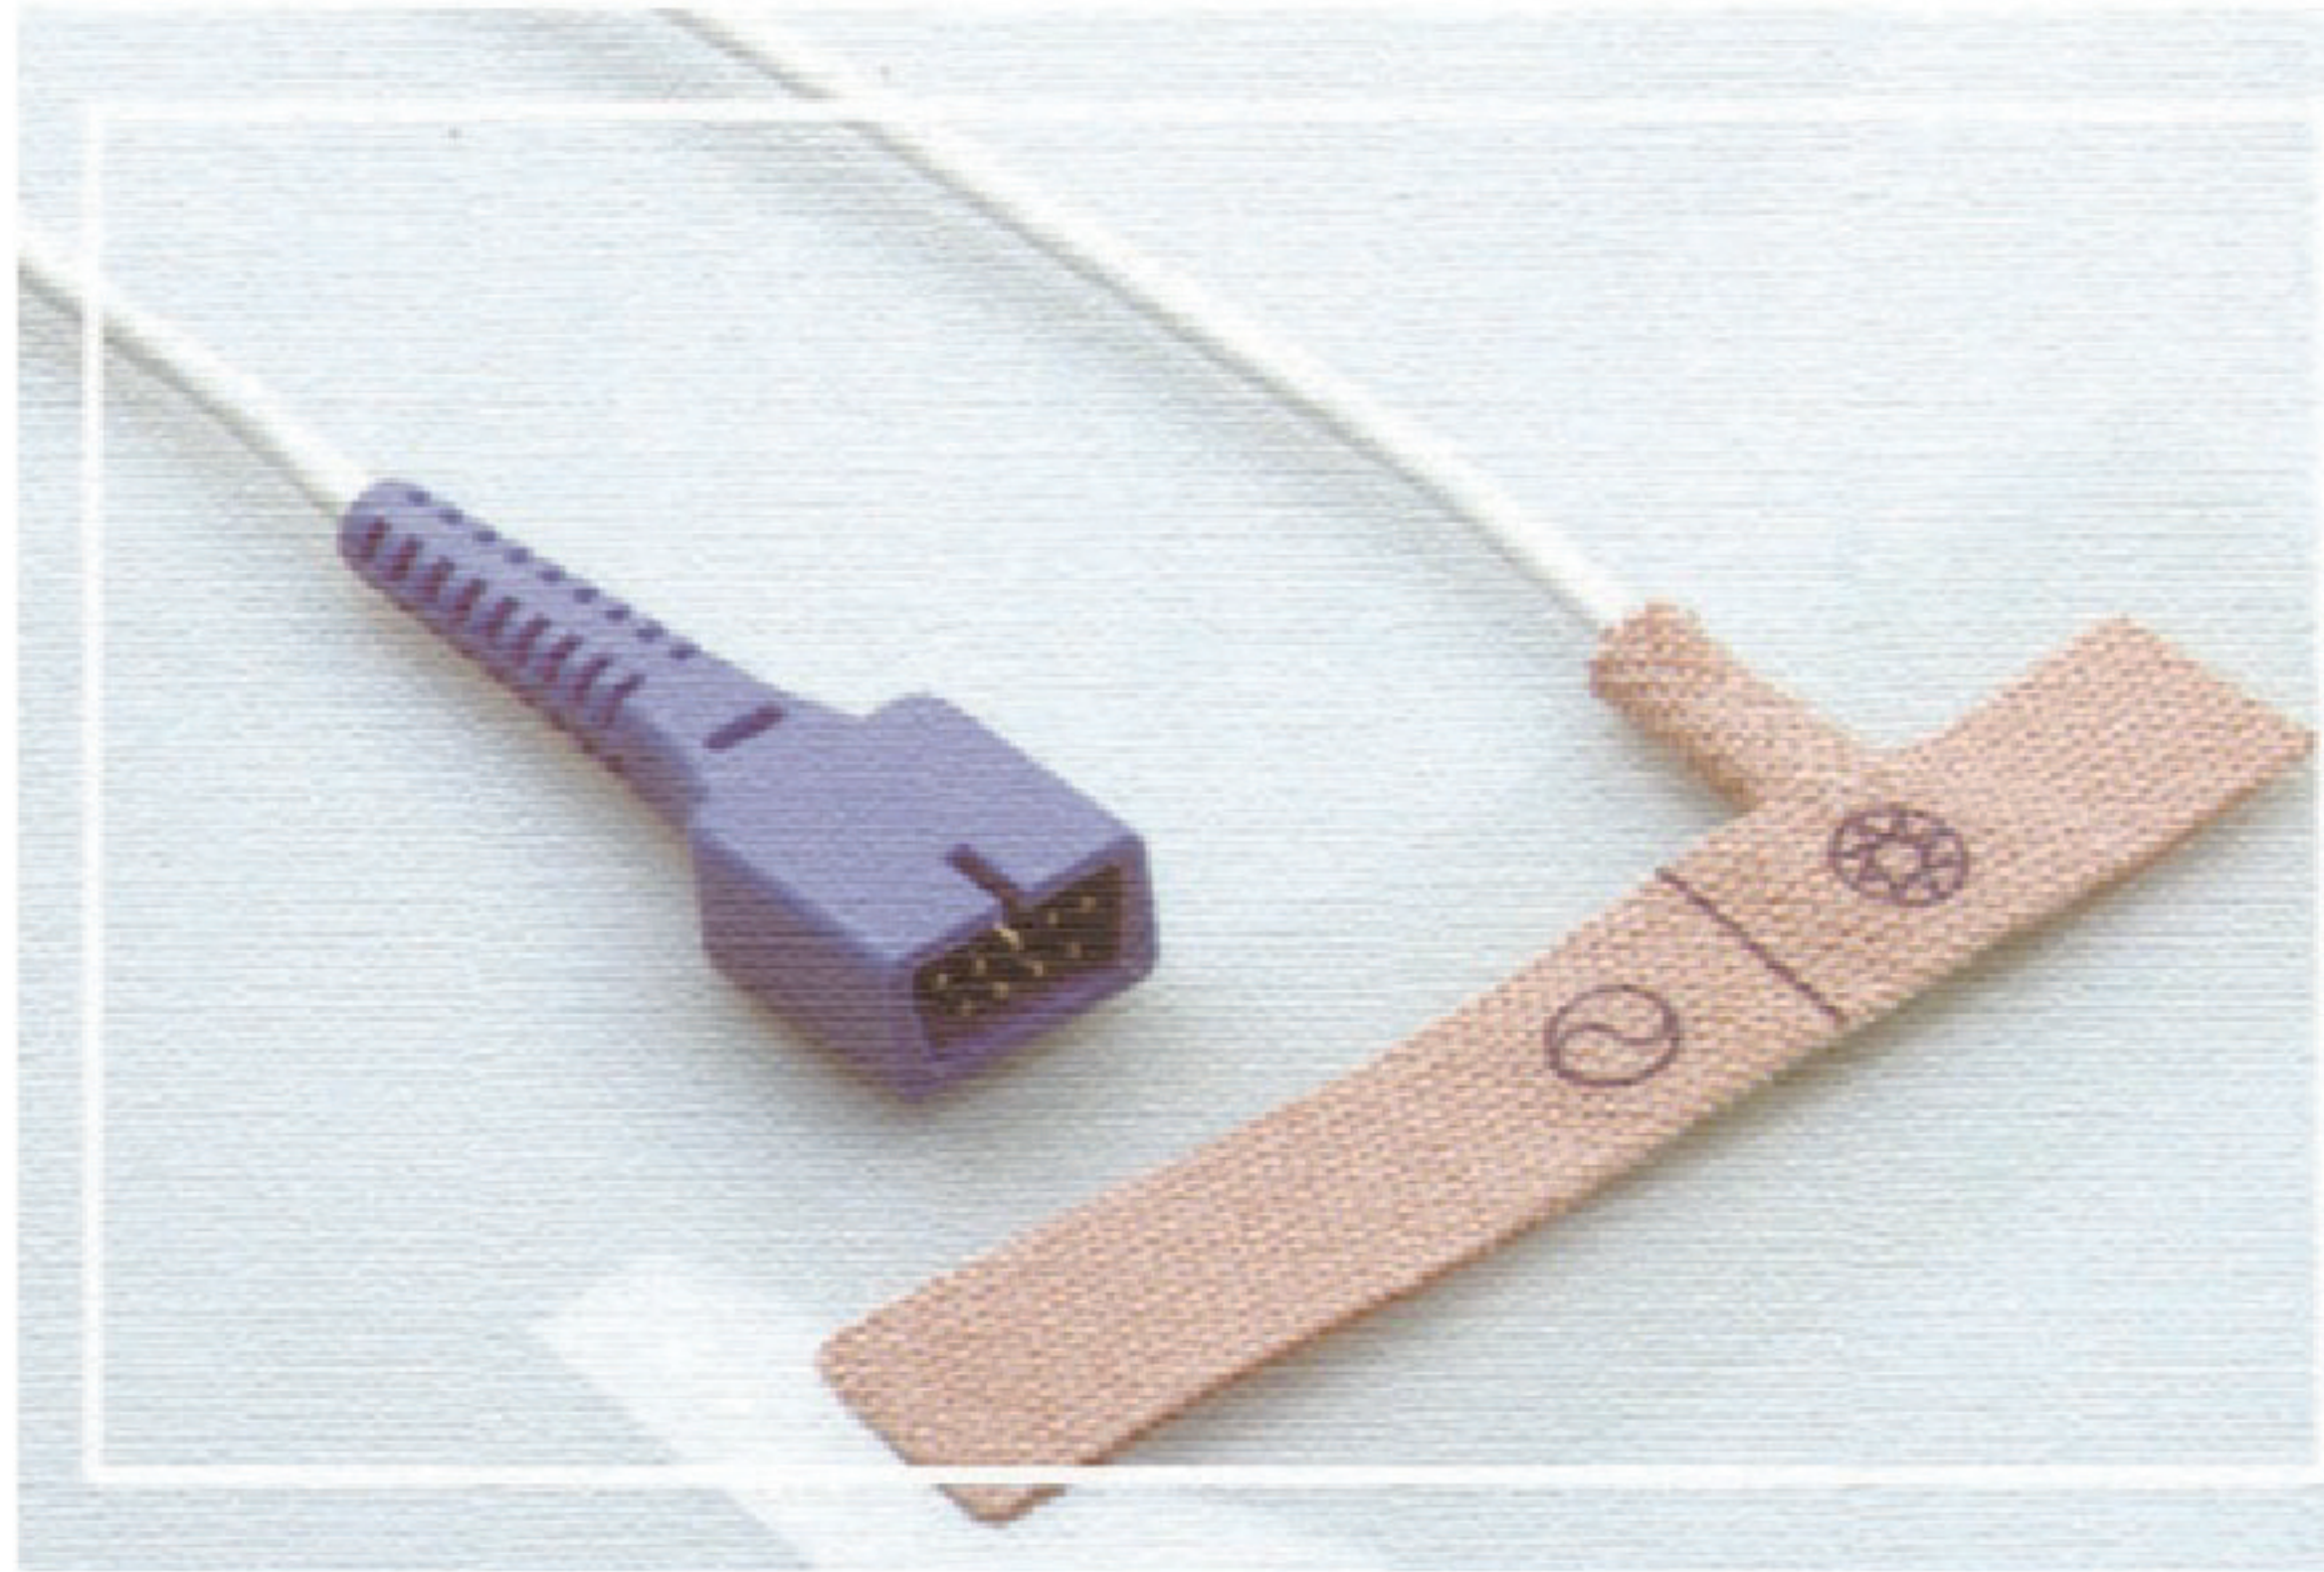

Disposable EMG Electrodes

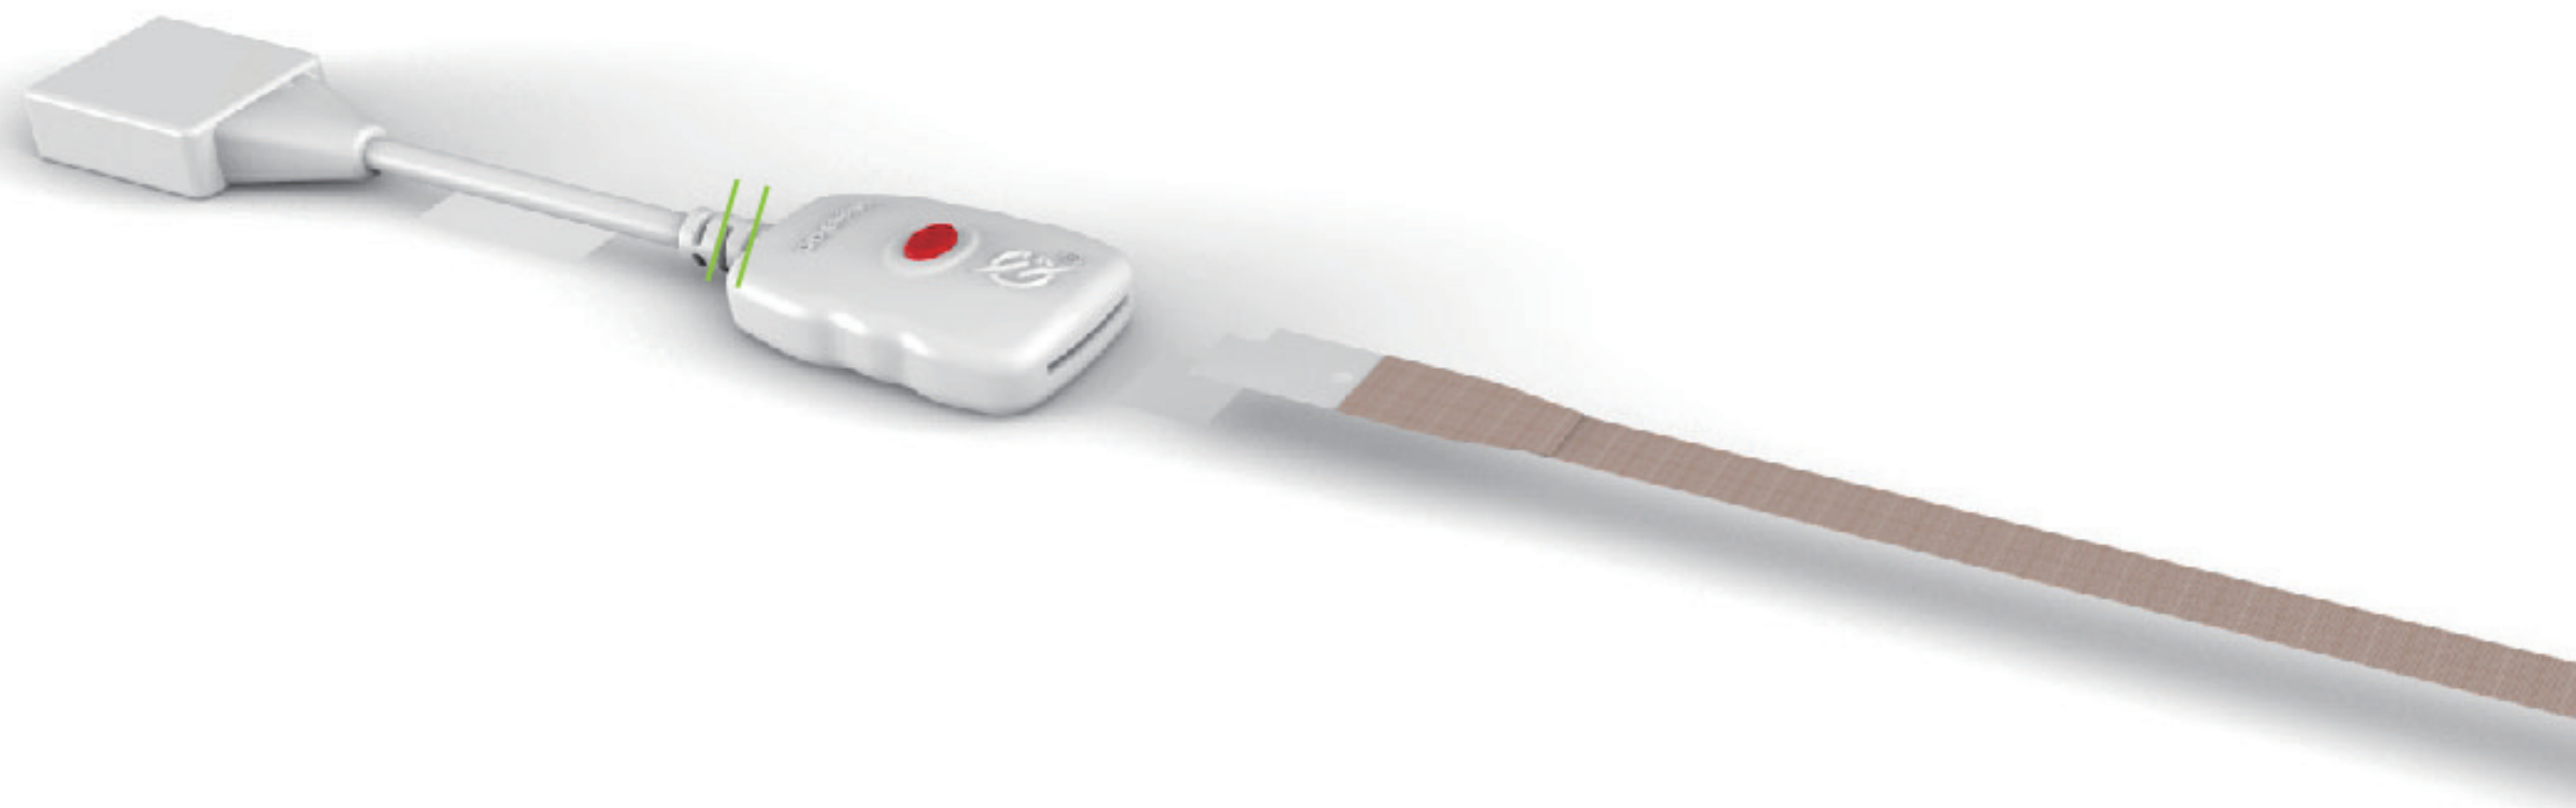

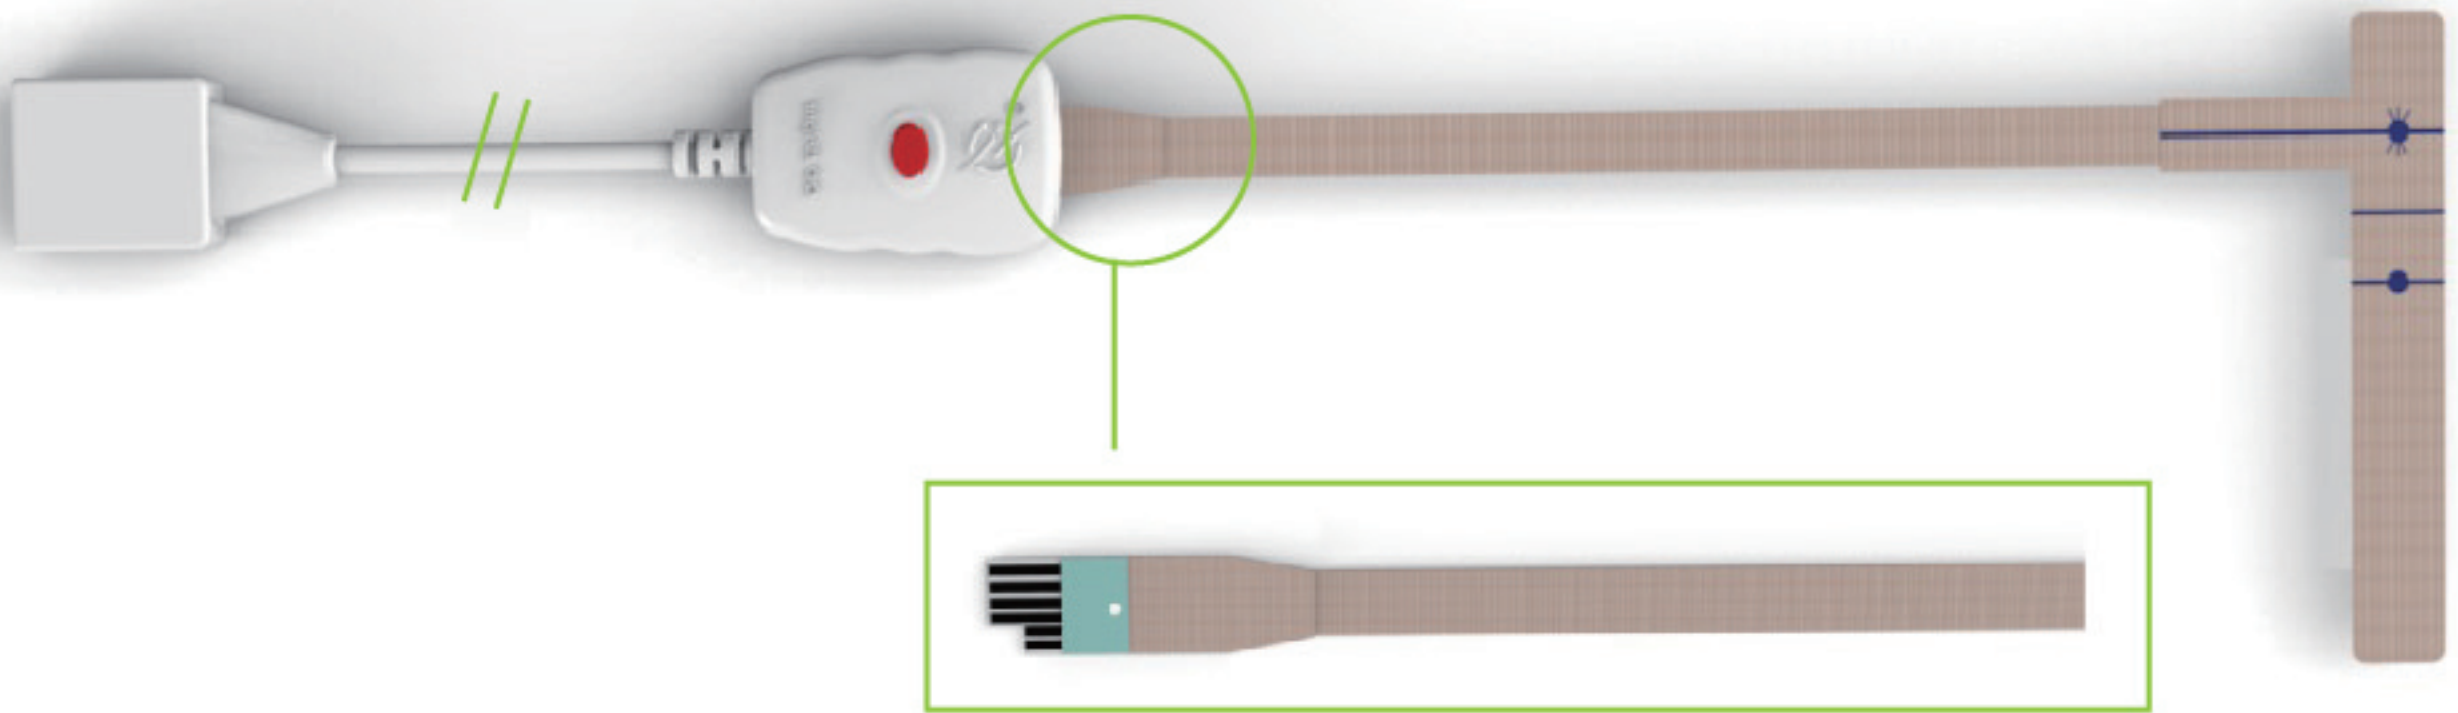

Disposable Oximetry Sensor

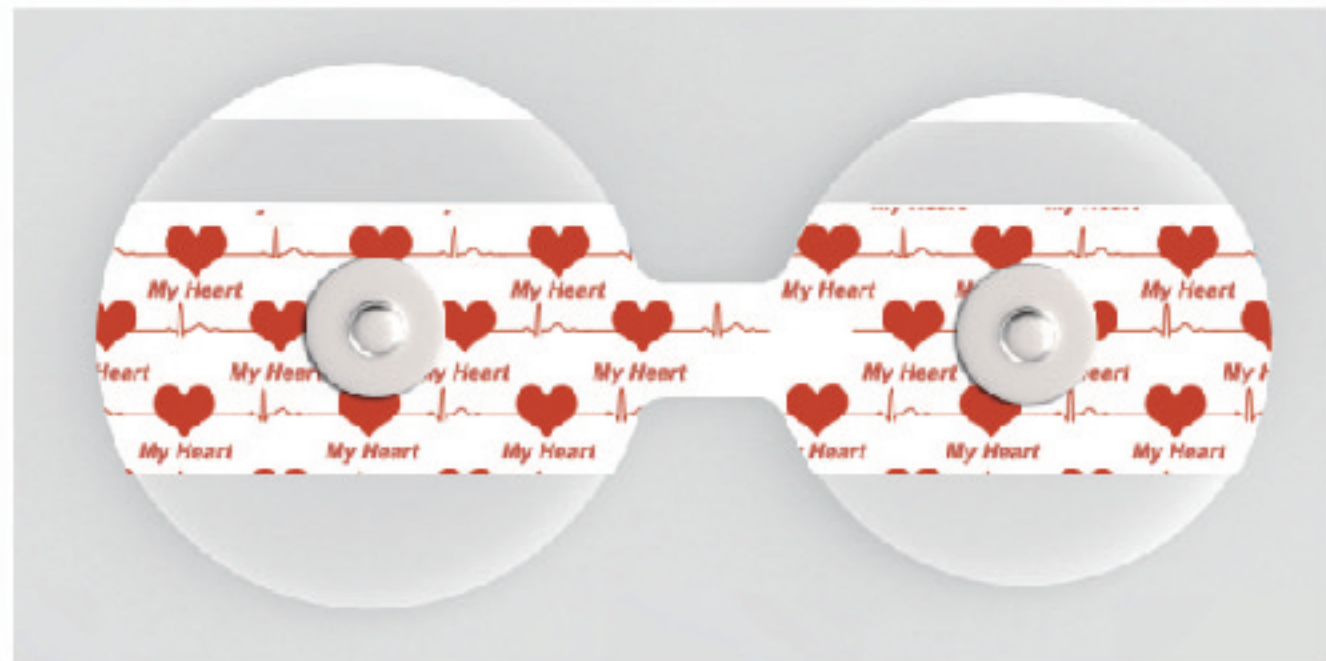

Patent NO.: ZL201420747188.1

Our Design and Technology

We can design, manufacture special electrodes according to customer's specific requirements. These electrodes can be used in holter/ICG/body composition monitoring application...etc

Connector
