

## OPERATING MANUAL ELECTROSURGICAL UNIT

**BOWA**  
**ARC**  
**400**

## The BOWA COMFORT SYSTEM

Our **COMFORT SYSTEM** relies on state-of-the-art **RFID technology** and thus sets the standard for electrosurgical accessories.

**The COMFORT SYSTEM is the first system worldwide for process safety and optimisation in the operating theatre** – for all electrosurgical areas of application. COMFORT instruments are automatically recognised by the Plug'n Cut COMFORT function of the generators when they are plugged in. The specific instrument settings are preselected and operations can be carried out immediately.

The COMFORT SYSTEM counts and documents the number of remaining uses of the instrument and shows this figure on the display. This is the basis for achieving sophisticated instrument and quality management free from error.

## Bipolar cable, Storz resectoscope, COMFORT, 4.5 m

Monopolar and bipolar cables for resectoscopes and hysteroscopes

Scope of delivery

Incl. instructions for use

Product number: 352-145

Unit: 1 piece

Mono-/bipolar: Bipolar

Instrument type: Karl Storz

Device connection: 3 pin BOWA MEDICAL COMFORT
