(166) Le tableau des dimensions sous cette présentation simplifiée, sert uniquement à référencer les numéros des pièces de rechange qui figurent dans ce catalogue. Les amortisseurs ne doivent en aucun cas être choisis uniquement en fonction des dimensions, car même en présence des mêmes dimensions extérieures, des forces d'amortissement complètement différentes peuvent être générées. Les amortisseurs avec les mêmes dimensions extérieures mais de forces d'amortissement différentes, risquent de perturber gravement la sécurité du véhicule !

Nella colonna "Rif." è riportata solo una parte dei numeri OE. L'elenco completo di tutti i numeri di riscontro si trova in appendice.

(166) La tabella delle misure in questa rappresentazione semplificata serve esclusivamente come riferimento dei codici dei pezzi di ricambio che sono contenuti in questo catalogo.

Gli ammortizzatori non potranno mai essere scelti esclusivamente in base alle dimensioni esterne, poiché anche in caso di medesime misure la potenza dell'ammortizzatore può essere completamente differente. Ammortizzatori aventi stesse dimensioni esterne e potenze differenti possono mettere in serio pericolo la sicurezza del veicolo!

In de kolom "Ref." is alleen een deel van de OE-nummers vermeld. De volledige lijst van alle vergelijkingsnummers vindt u in de bijlage.

(166) De maattabel in deze vereenvoudigde weergave is uitsluitend bedoeld als referentie voor onderdeelnummers die in deze catalogus staan. De schokdempers mogen in geen geval uitsluitend op grond van de afmetingen worden geselecteerd, omdat ook bij gelijke buitenmaten geheel verschillende dempingskrachten kunnen worden gegenereerd. Schokdempers met gelijke buitenmaten, maar met verschillende dempingskrachten, kunnen de veiligheid van het voertuig aanzienlijk nadelig beïnvloeden!

(166) Den förenklade måttabellen är endast till som referens för reservdelsnummer som finns i den här katalogen. Stötdämparna får inte väljas enbart efter måtten, eftersom helt olika dämpkrafter kan skapas trots lika utvändiga mått. Stötdämpare med lika utvändiga mått men olika dämpkrafter kan i hög grad påverka fordonets säkerhet negativt!

(165) Huomautus: Tuotteemme ovat vain varaosia mainittuihin alkuperäisvaraosanumeroihin. Sarakkeessa "Ref." on mainittu vain osa alkuperäisvaraosnumeroista. Listan kaikista vertailunumeroista löydät liitteestä.

(166) Mittataulukot on tässä yksinkertaistetussa esityksessä tarkoitettu ainoastaan tässä luettelossa olevien varaosanumeroiden vertailuun. Iskunvaimentimia ei missään tapauksessa saa valita ainoastaan niiden mittojen perusteella, koska vaikka ulkomitat ovat samat, voivat ne saada aikaan täysin erilaisia vaimennuksia. Ulkomitoiltaan samanlaiset iskunvaimentimet, joiden vaimennusvoima on kuitenkin erilainen, voivat vaarantaa vakavasti ajoneuvon turvallisuuden!

(166) Таблица размеров в этом схематичном представлении служит исключительно для соотнесения с номерами запасных частей, содержащихся в этом каталоге. Амортизаторы ни в коем случае не следует выбирать лишь по размерам, так как даже при одинаковых габаритах могут возникать абсолютно разные демпфирующие усилия. Амортизаторы с одинаковыми габаритными размерами, но отличающиеся по величине демпфирующего усилия, могут значительно снизить уровень безопасности автомобиля!

(166) Ezen az egyszerűsített ábrázoláson lévő mértéktáblázat kizárólag hivatkozásul szolgál a jelen katalógusban található pótalkatrészsorszámokhoz. A lengéscsillapítókat semmi esetre sem szabad kizárólag a méretek alapján kiválasztani, mivel azonos méretek esetén teljesen eltérő csillapítóerők is keletkezhetnek. A gépjármű biztonságát jelentősen veszélyeztetheti az azonos külső méretekkel, de különböző csillapítóerőkkel rendelkező lengéscsillapítók alkalmazása!

În coloana "Ref." este prezentată numai o parte a numerelor OE. Lista completă a tuturor numerelor comparative este prezentată în anexă.

(166) În această reprezentare simplificată, tabelul cu dimensiuni servește exclusiv ca referință pentru numerele pieselor de schimb cuprinse în acest catalog. Amortizoarele nu trebuie în niciun caz alese exclusiv pe baza dimensiunilor, deoarece chiar în condițiile acelorași dimensiuni exterioare pot fi generate forțe de amortizare complet diferite. Amortizoarele cu aceleași dimensiuni exterioare dar forțe de amortizare diferite pot afecta în mod considerabil siguranța vehiculului!

(166) Tablica s mjerama u ovom pojednostavljenom prikazu služi isključivo kao referenca za brojeve rezervnih dijelova sadržanih u ovom katalogu. Amortizeri se nikako ne smiju odabirati isključivo na temelju dimenzija, jer se i u slučaju potpuno jednakih vanjskih dimenzija mogu stvarati potpuno različite sile prigušivanja. Amortizeri jednakih vanjskih dimenzija, no različitih sila prigušivanja mogu znatno ugroziti sigurnost vozila!

(166) Ο πίνακας διαστάσεων σε αυτήν την απλοποιημένη παρουσίαση χρησιμεύει αποκλειστικά ως πηγή αναφοράς για αριθμούς ανταλλακτικών που περιλαμβάνονται σε αυτόν τον κατάλογο. Οι αποσβεστήρες δεν επιτρέπεται να επιλέγονται βάσει των διαστάσεων, διότι ακόμα και αν έχουν τις σωστές εξωτερικές διαστάσεις, μπορεί να διαφέρουν πολύ οι δυνάμεις απόσβεσης. Οι αποσβεστήρες με τις ίδιες διαστάσεις αλλά με διαφορετικές δυνάμεις απόσβεσης, μπορεί να μειώσουν σε μεγάλο βαθμό την ασφάλεια του οχήματος!

# Maßtabelle für Stoßdämpfer

## Measure table for shock absorbers

Die Maßtabelle in dieser vereinfachten Darstellung dient ausschließlich zur Referenzierung für Ersatzteilnummern, welche in diesem Katalog enthalten sind. Die Stoßdämpfer dürfen keinesfalls ausschließlich aufgrund der Abmessungen ausgewählt werden, da auch bei gleichen Außenmaßen völlig unterschiedliche Dämpfungskräfte erzeugt werden können. Stoßdämpfer mit gleichen Außenmaßen aber unterschiedlichen Dämpfungskräften können die Sicherheit des Fahrzeugs erheblich beeinträchtigen!

The dimension table in this simplified illustration serves only to provide a reference for spare part numbers that are contained in this catalog. Under no circumstances may the shock absorbers be selected based solely upon the dimensions as it is also possible for completely different damping forces to be created even if the exterior dimensions are the same. Shock absorbers with the same exterior dimensions but different damping forces can significantly impair the safety of the vehicle. [Translations No. 166]
