

257 Kaleya Road, Roma, Lusaka, Zambia

24th August 2017

To Whom It May Concern:

Please accept this letter as confirmation that the company Mediapark developed a Self-Care application and web portal for Afrimax group in Zambia, Uganda, Cameroon and Ghana.

The initial development was completed within 3 months ensuring its availability at the launch of Vodafone Zambia in June 2016.

The application and web-portal was subsequently deployed in a similar form in Vodafone Cameroon and Vodafone Uganda. Media were also able to adapt the look and feel to fit with the brand guidelines of the forth Afrimax operation Busy Ghana

In each of these four markets the application was the first of its kind. The application is stable, has a modern design, is user friendly and has the necessary functionality for a next generation data-centric mobile operator.

I would recommend Mediapark to any company looking to purchase a mobile self-care application and web-portal

Sincerely,

A handwritten signature in black ink, appearing to read "Russell Saunders", is written over a horizontal line. The signature is stylized and somewhat cursive.

Russell Saunders
