Maximum frames per second

### Market-leading book scanning with cutting-edge technology

The state-of-the-art IRIScan Desk 6 Business is the most powerful A3 document scanning solution in the world. Convert receipts, barcodes, business cards, books and magazines into digital image, text, audio and video files with the latest IRIS OCR software.

## AI-powered image processing

Innovative features include book curve image-flattening, fingerprint removal, and auto page detect, plus Text to Speech Technology so you can listen and read at the same time.

## Intelligent software suite

The IRIS productivity software suite includes Cardiris to convert business cards into outlook contacts, IRISmart File to automatically rename and file your documents, and Readiris PDF Reader.

## High-definition video recording/Automatic barcode extraction

Capture the smallest details, create web tutorials, record unboxing videos, and deliver distance learning sessions with an HD lens and built-in mic, plus compliance with Zoom, Teams, Skype, and Google. Track shipping notes, bills, and contracts with 1D or 2D barcode recognition and the latest integrated IRIS OCR engine.
