|           |      |           |  |                                                              | 8 |

Technical drawing of a rectangular plate. The overall length is 1600. The overall height is 450. The top flange has a thickness of 414. The bottom flange has a thickness of 36. The plate has a slightly curved top and bottom edges.

A detailed close-up of a Hettich door hinge and handle assembly. The hinge is mounted on a light-colored door, and the handle is a sleek, modern design. The Hettich logo is visible on the hinge plate.

Technical drawing of a rectangular plate. The drawing shows a top view and a side view. The top view is a rectangle with a width of 450 and a height of 1100. The side view is a rectangle with a height of 1050 and a width of 414. The thickness of the plate is indicated as 50. The drawing also shows a detail of the bottom edge with a width of 36.

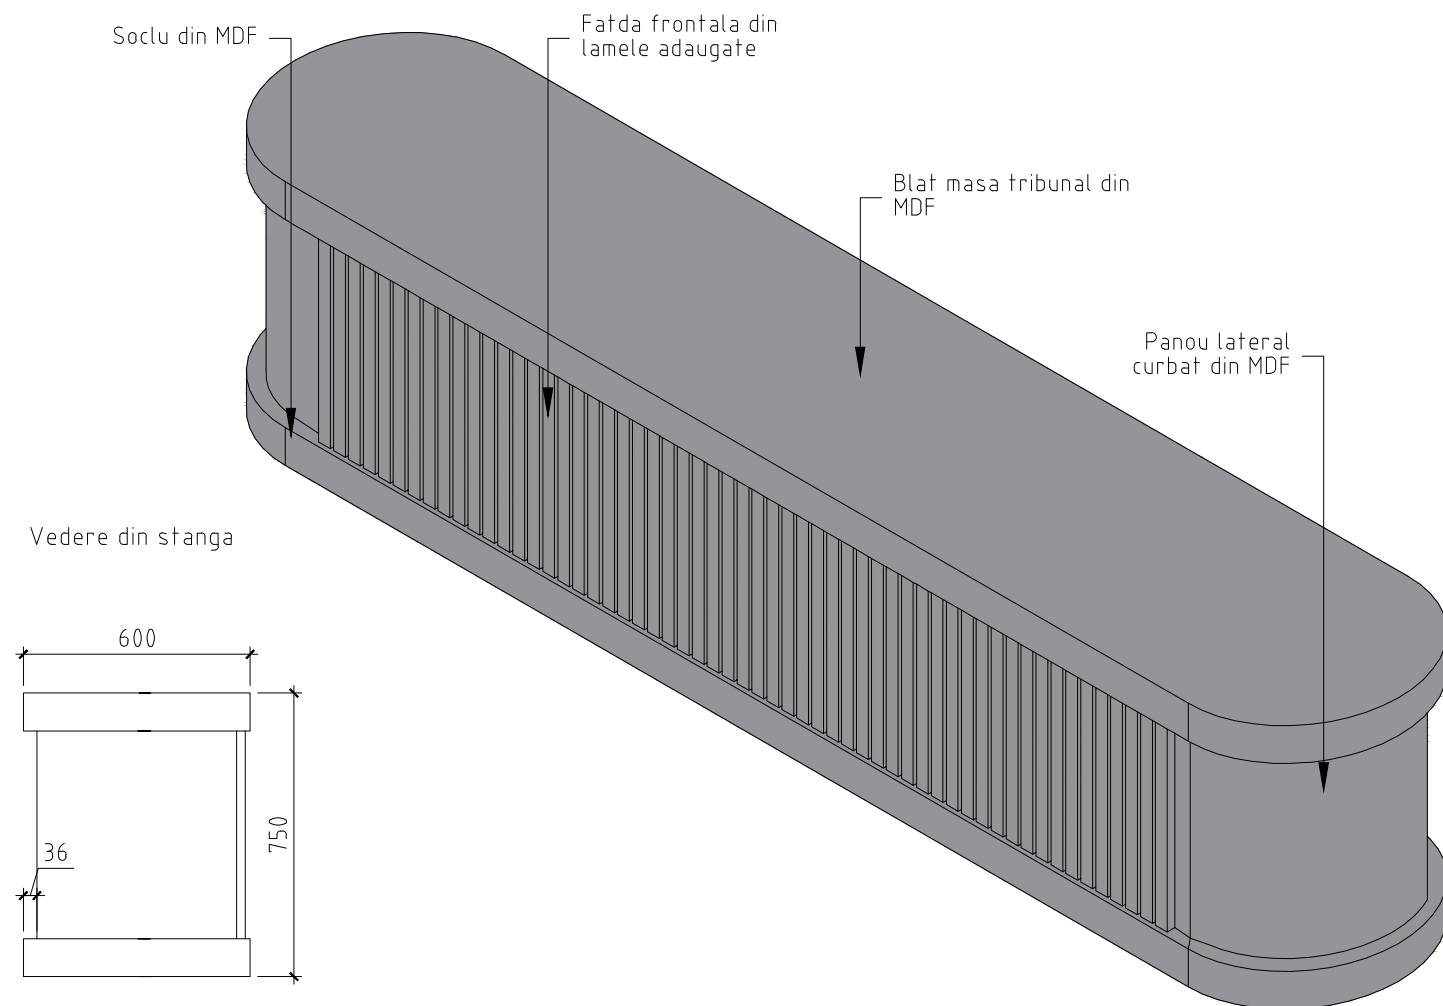

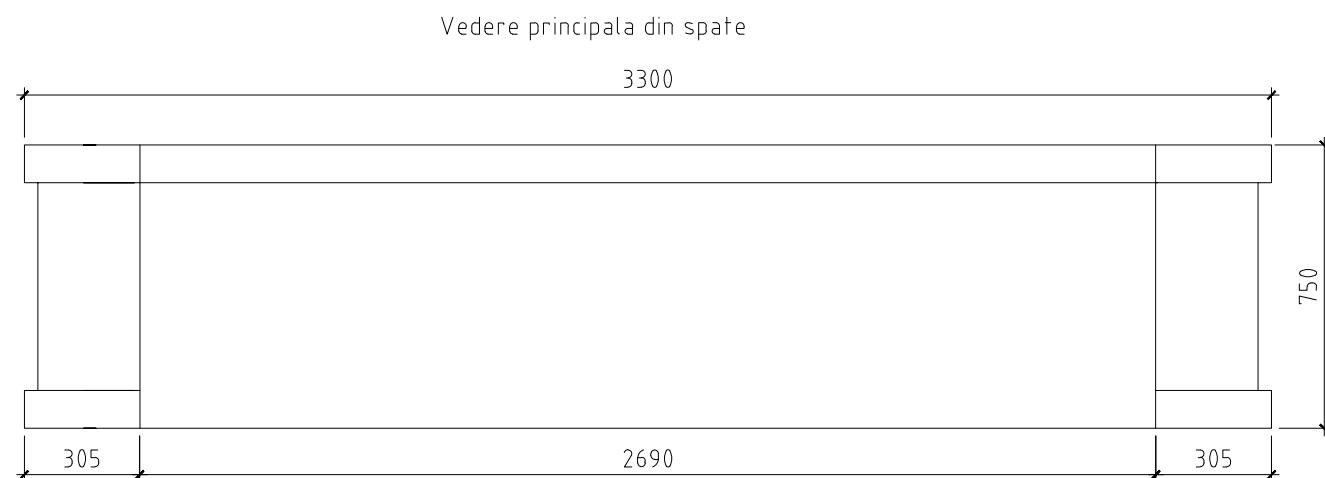

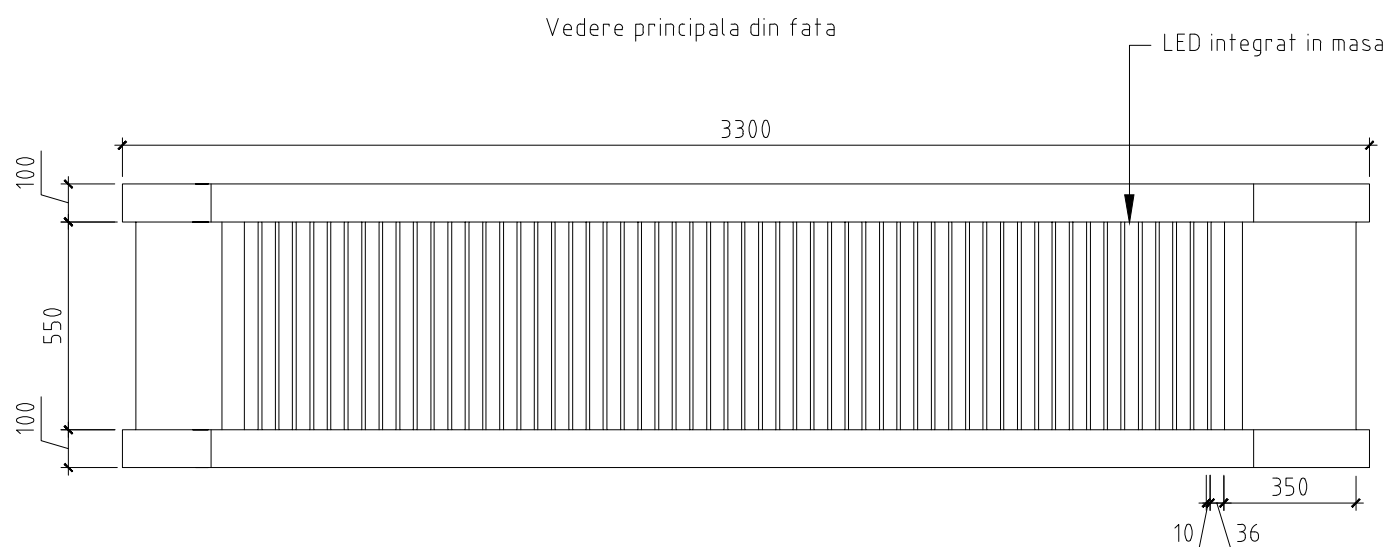

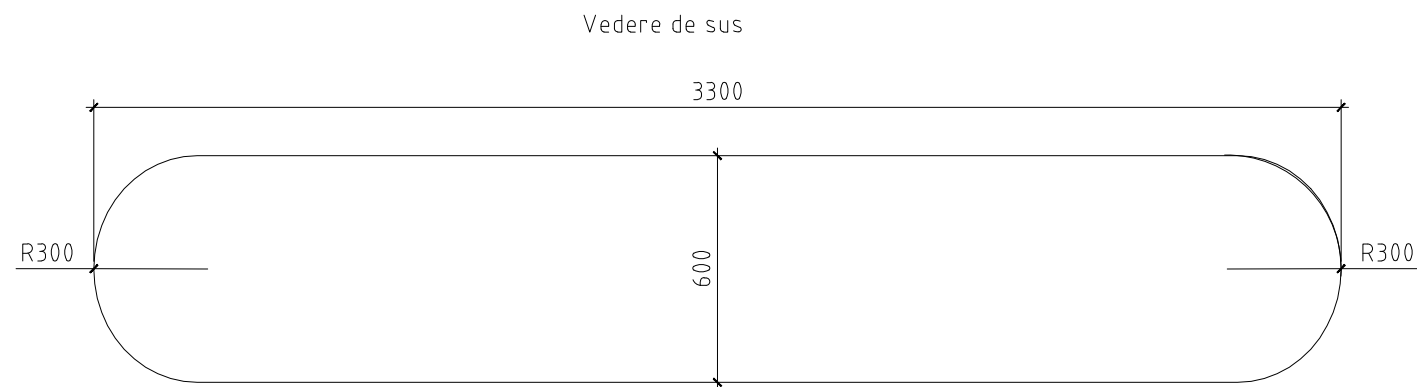

Technical drawing of a rectangular frame. The overall width is 1600, divided into two 800 segments. The overall height is 1050, with a 50 offset at the bottom left. The inner frame height is 1020, with an 80 offset at the top right. The frame consists of multiple vertical and horizontal lines, with two small circles indicating specific features in the center.

Vedere principală din spate

18 1564 18 18 278 18 350 18 500 50 1100

A 3D exploded view of a cabinet door assembly. The main component is a rectangular door with a vertical handle. The handle consists of a central rod with two spherical knobs. The door is shown in an exploded state, revealing its internal structure and the frame it fits into. Labels include 'Lamele' pointing to the top edge of the door, 'sys 110' pointing to the bottom edge of the door, and 'Lamele' pointing to the top edge of the frame. Arrows indicate the direction of assembly for the handle and the door into the frame.
