

Snap Cap Microcentrifuge Tubes

BOENMED manufactures MICROCENTRIFUGE TUBES. The Microcentrifuge Tubes are manufactured from high-clarity polypropylene. They are designed for secure and efficient sample storage and centrifugation.

The tubes feature a snap cap or a safe-lock cap that ensures a strong seal and eliminates leakage and evaporation.

The design of the cap facilitates operation and helps prevent contamination.

Capable of withstanding boiling temperatures up to 121 °C and freezing down to -80 °C.

Clear graduations and frosted marking area.

Cat. No.	Description	Qty/Case(Pcs)
660201	Microcentrifuge tube, 0.2ml, Domed shaped cap, Snap cap, Conical bottom, 1000pcs/bag, non sterile	50000
660202	Microcentrifuge tube, 0.2ml, Flat-top, Snap cap, Conical bottom, 1000pcs/bag, non sterile	50000
660203	Microcentrifuge tube, 0.5ml, Flat-top, Snap cap, Conical bottom, 1000pcs/bag, non sterile	30000
660204	Microcentrifuge tube, 1.5ml, Flat-top, Snap cap, Conical bottom, 500pcs/bag, non sterile	12000
660205	Microcentrifuge tube, 1.5ml, Flat-top, Safe-lock cap, Conical bottom, 500pcs/bag, non sterile	12000
660206	Microcentrifuge tube, 1.5ml, Flat-top, Snap cap, Without gear, Conical bottom, 500pcs/bag, non sterile	12000
660207	Microcentrifuge tube, 2ml, Flat-top, Snap cap, Round bottom, 500pcs/bag, non sterile	12000
660208	Microcentrifuge tube, Brown Color, 2ml, Flat-top, Snap cap, Round bottom, 500pcs/bag, non sterile	12000
660209	Microcentrifuge tube, Brown Color, 1.5ml, Flat-top, Snap cap, Comical bottom, 500pcs/bag, non sterile	12000
