CURRICULUM VITAE (F3.11)

1. **Role proposed within the project: Test team lead, QA specialist**
2. **Name: Sergejs**
3. **Surname: Tammeoja**
4. **Date of birth: 1987**
5. **Marital Status: sensitive information**
6. **Education:**

Institution (from – to)	Degree and schooling level:
Transport and Telecommunication Institute, graduated in 2011-06	Bachelor of Computer Science

7. **Foreign languages:** to indicate the level of competence from 1 to 5 (1 – fluent; 2 – advanced; 3 – intermediate; 4 – elementary; 5 - beginning)

Language	Reading	Speaking	Writing
Russian	1	1	1
Latvian	2	2	2
English	2	2	2

8. **Member of professional bodies/associations:**
9. **Other abilities:** *(e.g. P.C., etc.)*

Areas of Expertise

Mgmt & Support, Internal systems
TERP

Mgmt & Support, Process & Quality mgmt
Internal auditor

SW Development, Methods

Continuous Delivery	Continuous Integration	Object Oriented Programming
Systems Programming	Waterfall	

SW Development, Processes

| Agile development | Database Design | Software Development process for testing |
| Sw configuration mgmt V-Model | Sw development processes | Sw implementation |

SW Development, Programming languages

C/C++ Windows	Delphi	Groovy
JavaScript	Pascal	Python
SQL	Swift	XML

SW Development, Testing

API Test Automation (LAS / third party)	Agile Testing	Black Box Testing
Defect Tracking	Functional testing	Integration testing
Manual Testing	Platform Testing	Requirements testing
Test Metrics	Test automation	Test design
Test mgmt	Test planning	Test preparation
Testing process	Testing tools	Usability testing
User Acceptance Testing	Validation testing	White Box Testing

SW Development, Tools

Conf mgmt	Conf mgmt Git	Conf mgmt_CVS
Conf mgmt_Subversion	Databases	Emulators
IDE_Quest Toad	Issue tracking	Issue tracking_Jira
MS Excel	MS Word	Modeling_MS Visio
Simulators	Testing TestLink	Version Control
GitHUB	JIRA	

Technologies & Platforms, Databases

| MS Access | MySQL | OpenLDAP |
| Oracle | PostgreSQL | |

Technologies & Platforms, Operating systems

| Linux_RedHat | Linux_Ubuntu | Operating systems knowledge |
| Unix | Virtualization | |

10. **Current professional position: Integration Testing Team Lead**

11. **Seniority at current work: Lead role**

12. **Relevant qualifications for the project:**

Core competences

• Linux_RedHat

• Black Box Testing

• Continuous Integration

- Sw development processes

- Software Development process for testing

13. Specific experience in projects (according to the criteria indicated in the Tender Document):

Project Name/project beneficiary	Main activities of the project	From – to (DD/MM/YYYY)	Responsibilities
Banks Processing Center	Implementation of Failover Solution for RTPS system	2017-10 - 2018-08	Main tasks in this project were: – Solution preparation – Testing documentation preparation (Test plan, test cases) – Testing – Customer trainings – Solution installation on customer env and validation (QA) – Support during UAT – Support during GO-Live Competencies used: Linux_RedHat
Banks Processing Center	Implementation of Switchover solution for RTPS system	2016-06 - 2017-09	– Solution preparation – Testing documentation preparation (Test plan, test cases) – Testing – Customer trainings – Solution installation on customer env and validation (QA) – Support during UAT – Support during GO-Live
Central Bank of Azerbaijan Republic	Real-time processing system and Interbank Clearing System	2015-04 - 2016-03	Performing Test Lead role in CBAR project. Main responsibilities:

	implementation and testing		– Coordination of testing team located in three different countries. – Test execution control. – Test scope definition – Review of test tasks – Test documentation preparation (test plan, partly test cases, test reports) – Requirements analysis for testing needs
OTP bank	Multi-card solution implementation and testing	2015-01 - 2015-03	Coordinating testing within project and organizing qualitative deliveries to customer. Project was split in 4 phases. Each phase was realized in very tight schedule. Our team performed functional testing of all features, as well as system and regression testing. These activities were performed for each phase of project
ChipCard	TSM IF development for integration with MeaWallet system		Main duties in project were: – planning – test scenario preparation – test environment preparation – testing coordination – manual test case execution – status reporting – control and coordinate testing

14. Professional experience

From - to	Location	Economic operator	Position	Description of main responsibilities
2014-08- till now	Latvia	Tieto Latvia	Integration Testing Team Lead	Participating in many different projects. Big experience in testing of Clearing systems, Payment systems. Mostly it related with payment card business. Testing of Real-Time Processing System which processes in real time financial messages from different sources (POS, ATM terminals, ecommerce).
