Designed with a rounded ergonomic polypropylene housing, Clear-Therm 3™ represents our most cost-effective HMEF product.

Clear-Therm™ 3 and Clear-Therm™ Angled: HMEF for use in anaesthesia and intensive care with the option of an integral 90° elbow, reducing the need for an additional catheter mount or separate patient elbow.

Clear-Therm™ Midi: a low volume option for minimising dead space in anaesthesia.

Clear-Therm™ Mini and Micro: for paediatrics and neonates.

Heat and moisture exchanging filters (HMEFs)
