

灭菌指示胶带 Sterilization Indicator Tape

产品描述 Products description

灭菌指示胶带专用于粘贴在需灭菌的物品包外，用于固定物品包和标识该物品包是否经过灭菌处理，以防止与未灭菌处理的物品包混淆。指示胶带粘性佳，但易揭除，能粘于各种包裹材料，可起到很好固定封包作用。皱纹纸背衬，能膨胀延伸，在灭菌时，不易松解断裂；背衬上涂有防水层，遇水时染料不易受损，并可书写记录，灭菌后颜色不易褪去。

The indicator tape is specially attached to the package to be sterilized, used to fix the package and identify whether the package has been sterilized or not, so as to prevent mixing with the package that has not been sterilized.

Tapes has good viscosity, but it is easy to remove. It can stick to various wrapping materials and can play a good role in fixing the package. Wrinkled paper backing, which can expand, is not easy to loosen and break during sterilization; The backing is coated with a waterproof layer, so that the dye is not easy to be damaged when it meets water, and records can be written, and the color is not easy to fade after sterilization.

常用规格 Regular Size

Code	Type	Size (MM)	Packing
SIT-001	STEAM	12mmx50m	76rolls/ctn
SIT-002		19mmx50m	50rolls/ctn
SIT-003		25mmx50m	36rolls/ctn
EIT-001	EO	12mmx50m	76rolls/ctn
EIT-002		19mmx50m	50rolls/ctn
EIT-003		25mmx50m	36rolls/ctn
PIT-001	PLASMA	12mmx50m	76rolls/ctn
PIT-002		19mmx50m	50rolls/ctn
PIT-003		25mmx50m	36rolls/ctn
