Xerox® AltaLink® C8030/C8035/C8045/C8055/C8070 Color Multifunction Printer

Xerox® AltaLink devices provide new levels of capability and connectivity for mid-size and large workgroups and busy offices. With AltaLink, your extended workforce has instant and secure access to the documents, data and workflows it needs to work faster and more efficiently — from every location and with any device.

SMART AND PRODUCTIVE

From its tablet-like user interface to its right-out-of-the-box mobile-friendly connectivity options, the Xerox® AltaLink C8000 Series is the color multifunction device today's workers have been waiting for.

Easy to manage as a standalone device or as part of an entire fleet, it's designed to enable fast multitasking and collaboration. Create customized 1-Touch Apps to automate multi-step workflows. Simply tap your new app to quickly perform the job you configured. And save time by scanning to multiple destinations, including a USB drive, network location and SMB share location, all in one operation.

With the touch of a button, you can go to our Xerox App Gallery and download simple, yet powerful, serverless apps to your AltaLink® device to increase user productivity and shorten everyday tasks.

Built-in mobile connectivity, including Xerox® @printbyXerox App, Google Cloud Print™, Xerox® Print Service Plug-in for Android™, Airprint®, Mopria® and optional Wi-Fi Direct® provides the time-saving convenience your workforce wants and needs.

POWERFUL AND SCALABLE

Provide interactive training and support right from your desktop with our remote control panel. Enable serverless fleet management with Fleet Orchestrator. Configure a single device once, then let the Fleet Orchestrator deploy and manage configurations automatically and share automated workflows across devices.

Fewer maintenance hassles, less IT support, high-capacity paper trays and the ability to print on varying paper sizes add up to increased uptime and greater productivity. Scanning, printing and faxing can be done simultaneously, allowing for multitasking during peak periods — and your choice of finishing options means you can configure your AltaLink device for any work environment and any document type, including booklets, brochures and pamphlets.

BUILT-IN SECURITY

Enjoy comprehensive security through our strategic approach to preventing intrusions and keeping documents and data safe. Our partnerships with McAfee® and Cisco® proactively address risks at the individual device, fleet and network level.

By interacting with the market-leading McAfee® DXL and Cisco® pxGrid platforms, Xerox® AltaLink devices employ an orchestrated response that neutralizes threats at their source the moment they occur.

Multiple layers of security include data encryption, disk overwrite and industry certifications. The innovative Configuration Watchdog ensures your AltaLink devices remain configured in accordance with your security policies.

COLOR WHERE IT COUNTS

With high resolution output of 1200 x 2400 dpi, photo-quality color images and crisp text will give your documents clarity and impact. You can also upgrade your AltaLink C8000 Series with the Xerox® EX-c C8000 Print Server Powered by Fiery®, enabling office users to quickly, efficiently and cost effectively print professional-looking documents.
