

**SPECIFICATII TEHNICE LOTUL NR 17 – Microscop de laborator binocular cu 3 obiective**

Nr. d/o	CERINȚE TEHNICE - Specificarea tehnică deplină solicitată, Standarde de referință	DA/NU	OBSERVATII – Specificatia tehnica a produsului ofertat
17	<b>Microscop de laborator binocular cu 3 obiective</b>		<b>Leica DM 500</b>
	<b>Parametrul - specificatia</b>		
	An producere: 2021	Da	Declaratie atasata
	Stand destinat studiilor în laboratorul clinic.	Da	Echipament de laborator : Certificat de conformitate Pag 1 Ref 1, <b>Brosura DM 500 pag 6,10, 11 Ref 1</b>
	Tip iluminare: LED, Koehler	Da	Sistem de iluminare tip LED, <b>Brosura DM 500, Pag 4 Ref 3.</b> Kohler Superior, condensorul Abbe este precentrat -prefocusat fiind eliminata necesitatea ajustarii Kohler. Este gata de lucru fara ajustari gresite. <b>Brosura DM 500, Pag 4 Ref 3.</b>
	Masă specimen: ceramică sau cu acoperire ceramică, pentru operare cu mâna dreaptă cu acționare coaxială pentru deplasarea pe X și Y.	Da	Masa specimen rezistenta la zgarieturi pentru operare mana dreapta (RH-Right Handle) cu acționare coaxială pentru deplasarea pe X și Y. <b>Brosura DM 500, Pag 9, 10 Ref 4</b>
	Fixator de probe (lamele) universal pentru un singur specimen, detașabil	Da	Fixator de probe universal pentru un singur specimen <b>Brosura DM 500, Pag 10 Ref 5</b>
	Manete focusare și poziționare masă specimete plasate echidistant de utilizator, amplasate în partea inferioară a microscopului.	Da	Manete focusare si pozitionare masa plasate echidistant de utilizator, plasate in partea inferioar a microscopului. <b>Brosura DM 500, Pag 6, 8 Ref 6</b>

Focusare fină( $\leq 2 \mu\text{m}$ ) și grosieră	Da	Superior Sistem de autoajustare a mecanismului de focusare fină <b>Brosura DM 500, Pag 10 Ref 7 Focusare grosiere(macroviza) Brosura DM 500 pag 8 Ref 6</b>
Sistem optic: infinit, cu corecție de culoare	Da	Sistem optic infinit, cu corectie de culoare <b>Brosura DM 500 , PAG 18 Ref 8</b>
Tehnici de contrast: Brightfield, Darkfield(optiune), Phase contrast(optiune), Polarized light(optiune)	Da	Tehnici de contrast: Brightfield, Darkfield(optiune), Phase contrast(optiune), Polarized light(optiune) <b>Brosura DM 500, Pag 4 Ref 9</b>
Tub binocular: cu unghi de înclinare $30^\circ$ sau ajustabil, rotire $360^\circ$ , cu ajustarea distanței interpupilare în diapazonul minim 52-75 mm, tip Siedentopf;	Da	Tub binocular: cu unghi de înclinare $30^\circ$ sau ajustabil, rotire $360^\circ$ , cu ajustarea distanței interpupilare în diapazonul minim 52-75 mm, tip Siedentopf, binocularare in forma de V; <b>Brosura DM 500, Pag 8,9, 10 Ref 10</b>
Ocular: 10x/20 – 2 buc.(cel puțin unul cu focusare)	Da	Cap binocular cu oculare presetate pentru evitarea erorilor incorecte a dioptriilor, oculare 10x/20 set cu pointer <b>Brosura DM 500, Pag 4 10 Ref 11 Draft configurator DZ 2042 Pag 1 Ref 11</b>
Turelă rotativă: pentru $\geq 4$ obiective	Da	Turela rotativa cu 4 pozitii: <b>Draft configurator DZ 2042 Pag 1 Ref 12</b>
Obiective Plan Achromat, din sticlă: 4x, 40x, 100x/1.25 Ulei	Da	Obiective Plan Achromat, din sticlă: 4x, 40x, 100x/1.25 Ulei <b>Draft configurator DZ 204 Pag 1 Ref 13</b>
Condensor tip Abbe prefocusat și precentrat, NA 0.9/1.25 ulei, codificat prin culori sau cu indicarea tipului de obiectiv, cu fantă pentru slider de contrast	Da	Condensor tip Abbe prefocusat și precentrat, NA 0.9/1.25 ulei, codificat prin culori sau cu indicarea tipului de obiectiv, cu fantă pentru slider de contrast <b>Brosura DM 500, Pag 4,10 Ref 14</b>
Unitatea de alimentare încorporată	Da	Unitatea de alimentare încorporată <b>Draft configurator DZ 2042 Pag 1 Ref 15</b>
Accesorii: Ulei de imersie – o sticlă, husă - 1 buc.	Da	Accesorii: Ulei de imersie – o sticlă, husă - 1 buc. <b>Draft configurator DZ 2042 Pag 1 Ref 16</b>
Cerințe de certificare: Certificat CE sau declarație de conformitate CE cu anexele corespunzătoare pentru produsele oferite, valabil, copie confirmată prin semnatura și stampila participantului.	Da	Vezi declaratia atasata
Declarație de la Ofertant – confirmată prin semnatura și	Da	Vezi declaratia atasata

ștampila, în care să certifice termenul de garanție pentru echipament și accesorii nu mai mic de 36 luni din momentul instalării/darii în exploatare a bunului.		
Instalare, darea în exploatare de către participantul câștigător-obligatoriu	Da	<a href="#">Vezi declaratia atasata</a>
Ghid rapid al utilizatorului (max. 4 pagini A4), în limba de stat-obligatoriu.	Da	<a href="#">Vezi QuickStartGuide</a>

From Eye to Insight

Educational Compound Microscopes

## A NEW GENERATION'S CHOICE OF INNOVATIVE EDUCATIONAL MICROSCOPES

Leica DM500 & DM750

# MADE FOR FUTURE NOBEL PRIZE WINNERS

## Science Teaching Revitalized

The more time the instructor has to teach, the more students can learn. The Leica DM500 and Leica DM750 microscopes were specifically developed to revitalize science teaching and to achieve the goal of more hands-on time for Life Science courses. With many student-friendly features and high-quality construction, the Leica DM500 and Leica DM750 invigorate science learning and teach the next generation of scientists effectively and efficiently.

### SUPERB OPTICS

- › Based on the same optical platform as Leica Microsystems' research microscope line, students enjoy outstanding optical performance with full access to virtually all accessories from Leica's microscope product line.
- › NEW! 100× dry (no oil needed) objective provides very high resolution (N.A. 0.8) while eliminating the need for oil.

### EZLITE™

- › LED illumination provides cool, white light with a lifetime of over 20 years average use. There is no need to change lamps during lab time, and this saves the expense of replacement lamps as well.
- › The cost-savings pays for several microscopes over their lifetimes.

### SAFETSTAGE™

- › Microscope stage maintains its dimension, which eliminates the chance of injury from contact with a conventional stage rack.
- › Rounded edges are easy on the skin.

### EZSTORE™

- › Integrated vertical handle provides easy carrying and lifting when storing on high shelves; undercut on front of stand works in combination with the handle for safer, two-handed carrying.
- › Integrated cord wrap eliminates damage to microscope components from improper cord wrapping; vertical cord insertion prevents the cord from pulling partially out of the stand while in storage or in use.
- › The unique shape of the microscope stand protects controls from damage when microscopes are stored side-by-side.

### EZGUIDE™

- › Student friendly slide holder helps prevent slide chipping

### USB POWER CONNECTOR

- › Providing power to the Leica USB cameras is extremely easy. Simply connect the camera via the provided USB cable to the 5 V/1.5 A USB power connector on the rear of the Leica DM500 and Leica DM750 stand. This saves the cost of an external power supply for the camera plus reduces the complexity at the workstation.

### AGTREAT™

- › The possible contamination with germs from surfaces is of great concern, especially in educational environments. Leica Microsystems has integrated an additive to the material of all microscope touchpoints to inhibit the growth of bacteria. This helps prevent the spread of disease via the microscope surfaces and leads to a healthier laboratory environment.

# LEICA DM500 – SCIENCE TEACHING MADE EASY

The Leica DM500 is ideal for entry level Life Science courses. The microscope's stand provides "plug and play" capability. All students need to do is turn the power on, place the specimen slide on the stage, focus, and enjoy the view!

Ref 6

Ref 14

**READY TO WORK**

Ref 3

- Pre-centered, pre-focused Abbe condenser eliminates the need for adjustments

**EZTUBE™**

Ref 11

- Eyepieces integrated with the eyetubes prevents loss
- Preset diopter adjustments eliminates the risk of incorrectly setting the diopters
- Other viewing tubes are also available

**SAFER ROTATION**

- Captive thumbscrew for safer rotation of the EZTube™

Ref 9

**ALL IN ONE**

- Abbe Condenser with slot for phase contrast and darkfield sliders, including a 4 position phase slider, which offers brightfield and phase capabilities all in one slider

**PERFECT LIGHT Ref 3**

- LED illumination designed to provide even lighting across the full field of view without adjustments

# LEICA DM750 – SCIENCE TEACHING FOR A NEW GENERATION

The Leica DM750 is designed specifically for the versatile needs of advanced Life Science courses and for professional training such as medical, veterinary, and dental schools.

## VERSATILE

- › Standard condenser for magnifications 4x – 100x
- › Phase turret condenser for brightfield and phase contrast
- › Flip top condenser for low magnifications
- › The Leica DM750 is available with a 4 position or 5 position nosepiece

## WEAR RESISTANT

- › Special stage finish offers additional protection from friction damage

## ENERGY SAVING

- › Time delay shutoff saves energy by automatically turning off the illumination after 2 hours of no use

## A+ FOCUS, CONTRAST & ILLUMINATION

- › Weighted focus knobs provide inertia and extremely accurate focus capability
- › Koehler field diaphragm available as an option for optimum illumination and contrast

## SHARED VIEWING MADE EASY

- › Variety of viewing tubes provides free rotation while securely fixed to the stand
- › Standard viewing tubes with eyepiece locking screws prevent loss of eyepieces

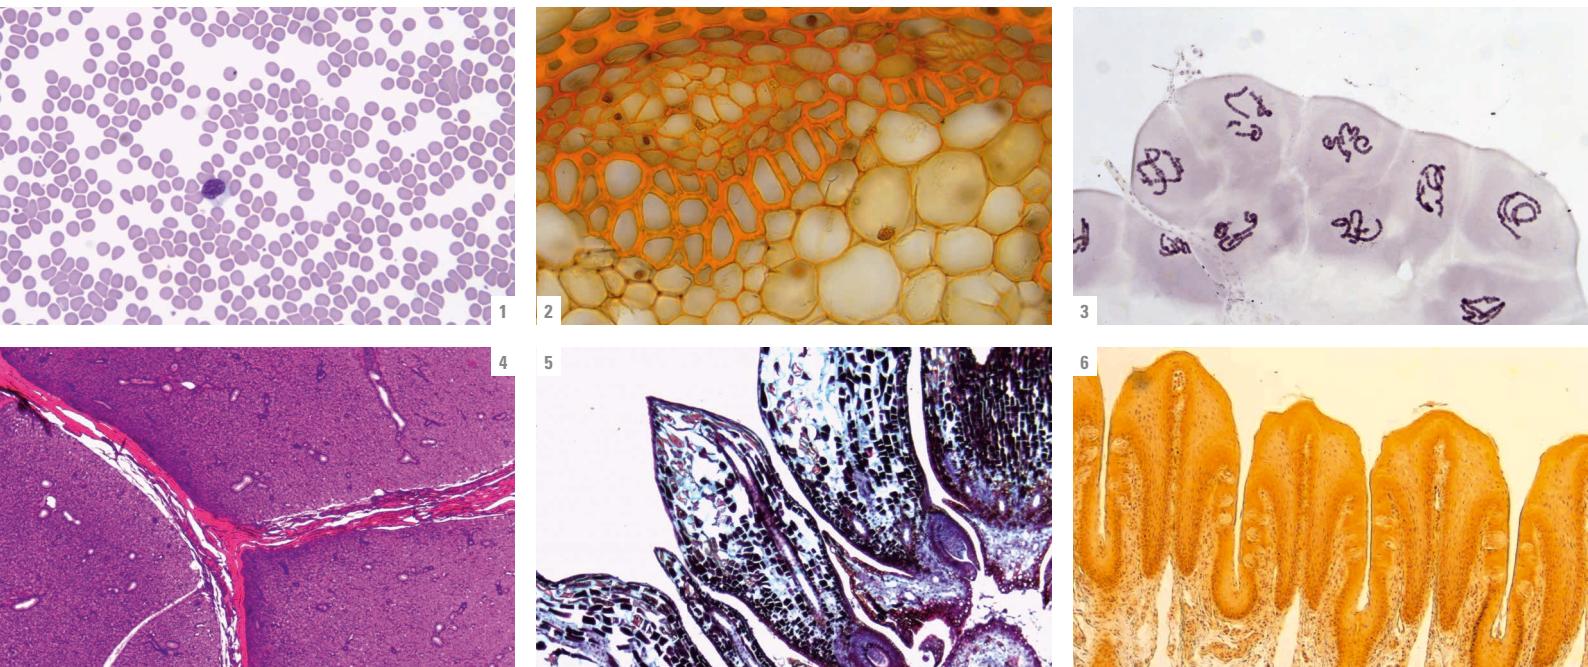

# GO WIRELESS!

Ref 1

The ability to share, capture, and archive images is an important part of the microscopy laboratory. The Leica DM500 and Leica DM750 are compatible with the full range of Leica Microsystems imaging solutions, allowing you to select the camera which best suits the demands of your classroom. Keep students on topic and maximize learning time with the NEW Leica ICC50 W/ E High Definition Wireless camera module.

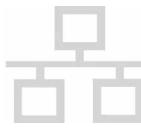

## THE ICC50 W/ E CAMERA MODULE – INTEGRATED & MODULAR

- › In Ethernet mode, the connection to the camera is provided through your own network, allowing a maximum number of users to connect to the camera. To use this to full extent, all devices have to be on to same network as the microscope.
- › In USB mode you can connect your PC directly via USB cable to the camera, which is helpful when you aim for fastest live images e.g. of moving samples.
- › Computer users can use the Leica Imaging software to connect to the camera and work with the images. For PC use Leica Application Suite software, and use Leica Acquire for MAC.
- › Use lots of options with Leica AirLab App: It enables camera setup, annotations, measuring, image capture, and sharing to email, photo folders, or other social media connections.
- › Leica AirLab App is available free of charge for Android and iOS devices.
- › Stay flexible if there is no PC or mobile device around: Just capture images directly onto a memory card.
- › Fine-tune camera settings conveniently, capture images onto the SD card, and view the SD card gallery – all possible with the remote.
- › Project your images: Use the HDMI port for screen projections or output to HD screens.
- › You don't need any extra power cables: The camera is powered directly from the microscope stand with a USB cable.

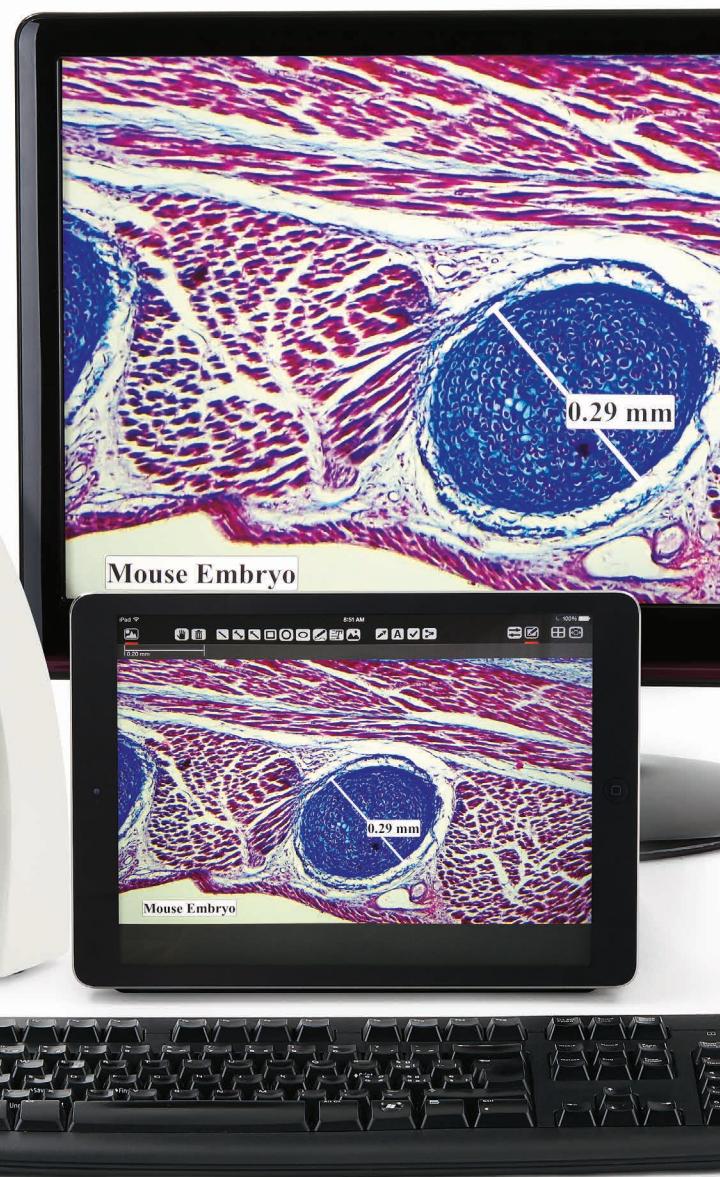

Students can connect to the Leica ICC50 W either through its own **internal Wi-Fi signal** using Wi-Fi mode or through the facilities' network using Ethernet mode.

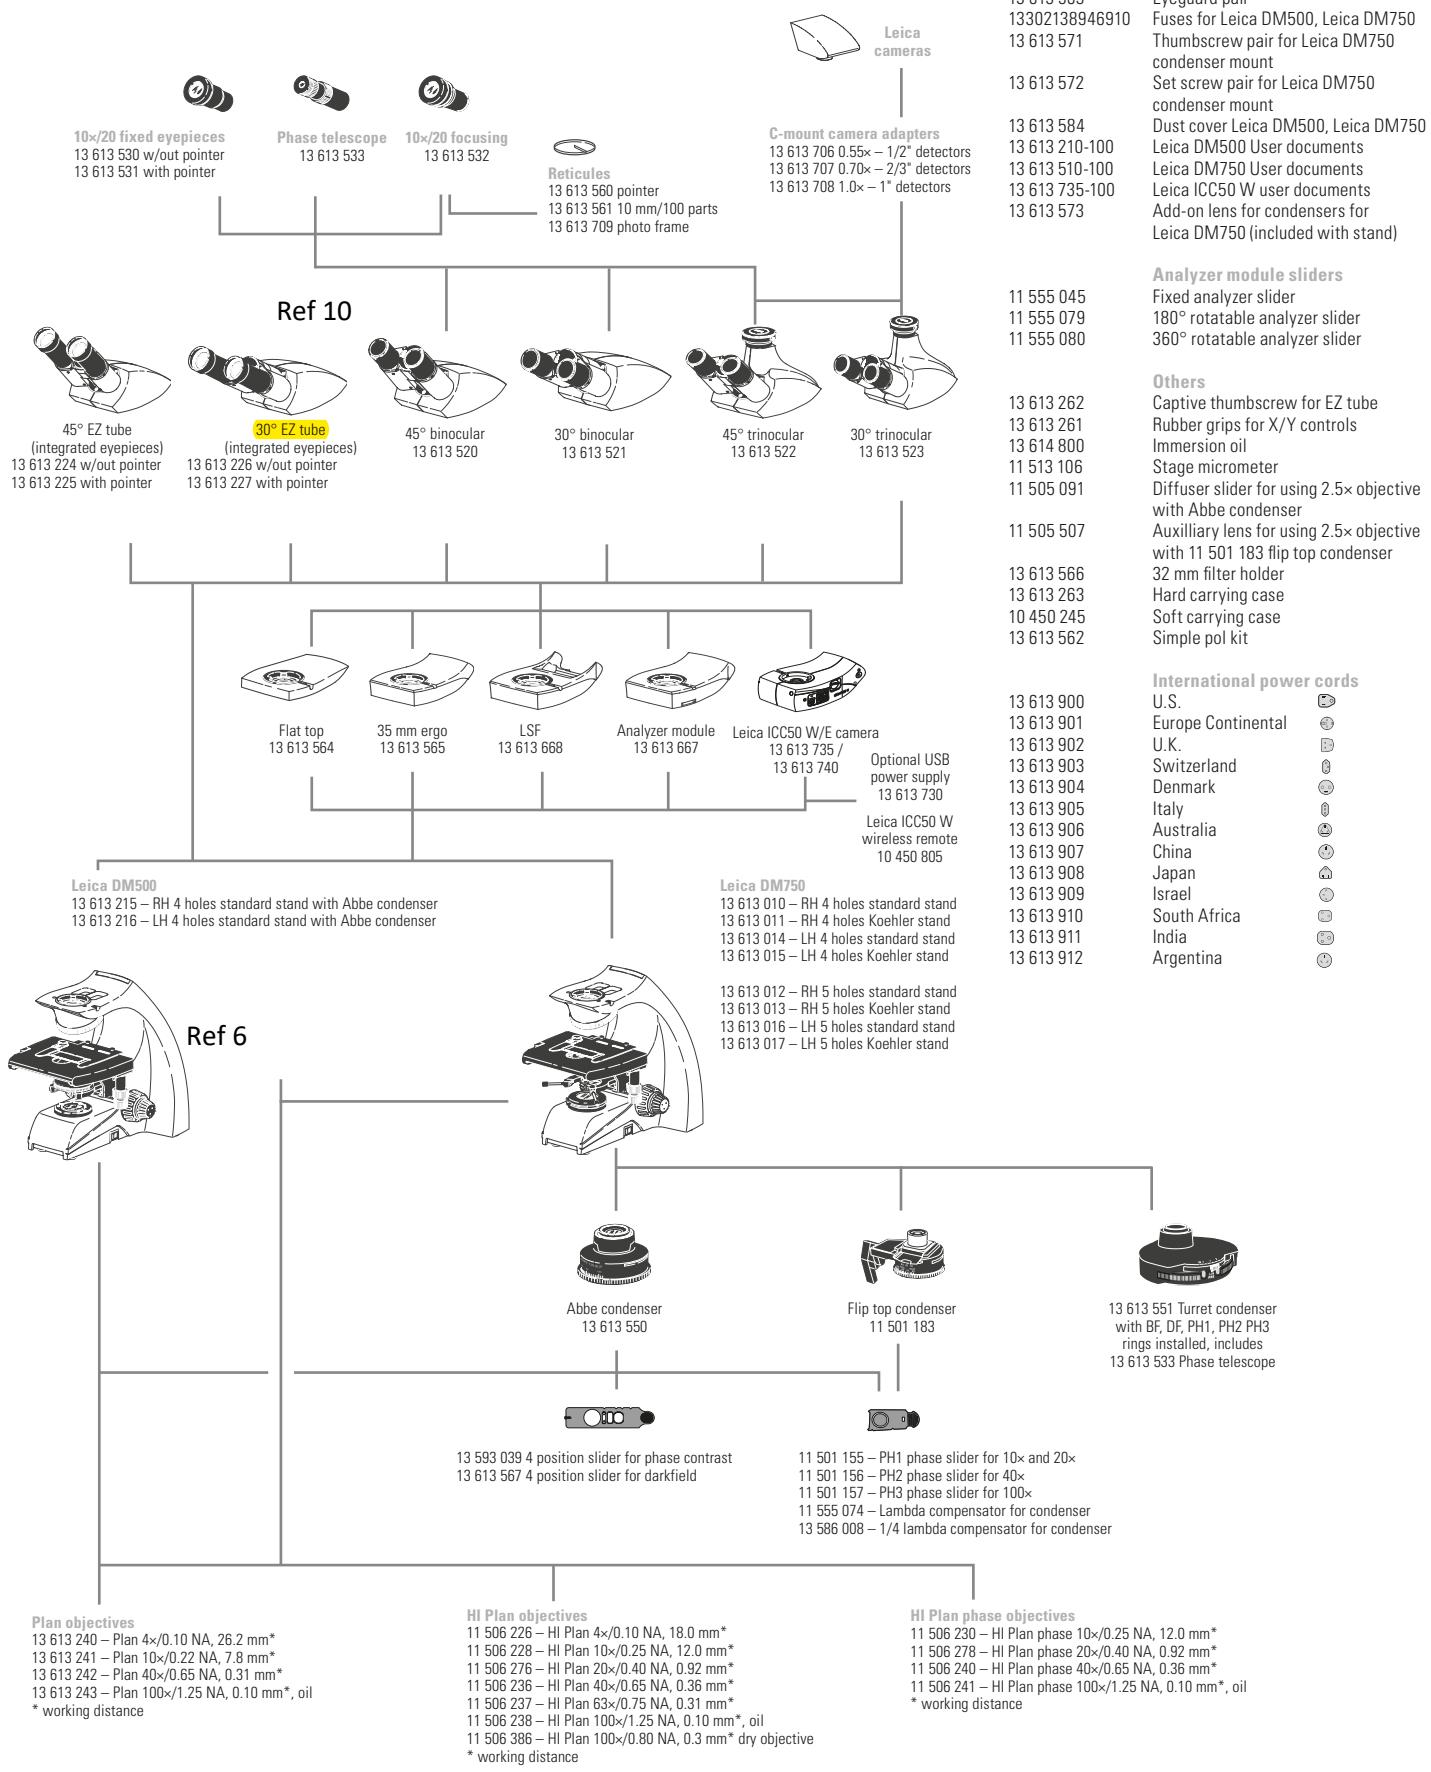

The ICC50 E **exclusively** uses your facilities' **network (WLAN or LAN)** to allow students to connect to the camera. This is an ideal solution if you don't want to add additional Wi-Fi access points to your network.

- 
- › All packaging is completely recyclable
  - › No lead content in any of the glass components
  - › LED illumination consumes approximately 80 % less energy than standard halogen illumination
  - › The time delay shut-off feature found on the Leica DM750 ensures no energy is wasted
  - › Constantly optimizing our logistics chain keeps the CO<sub>2</sub> footprint as low as possible
  - › AgTreat™ helps prevent the spread of disease via microscope surfaces and leads to a healthier laboratory environment
  - › All products have been tested by independent safety laboratories and carry the cULus and CE mark to indicate their design for safety
  - › All products are RoHs compliant, which means all electrical components meet restrictions on the use of hazardous substances
  - › Interactive tour of the Leica DM500 and Leica DM750
  - › Leica E-Series stereomicroscopes for low magnification inspection, dissecting, and image capture
  - › Leica DM750 P Polarizing Microscope for Earth and Materials Science education
  - › Leica DM750 M Microscope for Metallography
  - › Selection of higher level microscopes for research
  - › A selection of instructional booklets, which are free of charge
