Ordering Information	5
Competitive Comparison	7

PRODUCT OVERVIEW

GUIDEZILLA II GUIDE EXTENSION CATHETER provides coaxial alignment for increased back-up support and facilitates easy delivery of ancillary devices. This is beneficial with unfavorable take-offs, transradial approach, anomalous arteries, and other situations with guide back out. GUIDEZILLA II Guide Extension Catheter creates a smooth pathway for balloon and / or stent delivery by providing greater flexibility and a smooth surface. This is important with complex lesions, calcium, tortuous vessels, and distal lesions.

GUIDEZILLA II Extension Guide Catheter has improved deliverability, durability, and a full size matrix.

Short Hypotube Transition

Optimized for reduced device interaction

Z-Glide™ Hydrophilic Coating

For improved deliverability

Radiopaque Helical Collar

Designed for improved strength and visibility

Expanded Size Matrix

6F, 7F, & 8F are 25 cm
6F Long is 40 cm

**Powerful Reach.
Predictable
Performance.**

*6F = 2 mm, 7F = 2.33 mm, 8F = 2.67 mm

FEATURES	GUIDEZILLA GUIDE EXTENSION CATHETER	GUIDEZILLA II GUIDE EXTENSION CATHETER	DESIGN GOAL
Sizing	6 F*	6F* 6F* long 7F* 8F*	Expanded Size Matrix
Guide Segment	25 cm	25 cm on 6F, 7F, 8F (40 cm on 6F Long)	40 cm 6F Long Designed for TRI
Working Length	145 cm	150 cm	Extra 5 cm of Proximal Hypotube Shaft
Collar	Stainless Steel	Platinum Iridium Helical Collar	Increased Visibility and Smooth Device Interaction
Coating	Bioslide™	Z-Glide™	New Hydrophilic Coating Aids Deliverability

Manufacturer	Boston Scientific
Will this product replace or supplement a current in-house product?	This product can replace or supplement existing guide extension catheters.
Is this item / technology on contract with GPOs and / or IDNs?	Please speak to your Boston Scientific sales representative for the contract status of specific GPOs and IDNs.
Ship unit	Single units
Minimum order quantity?	No
Lead time in working days?	1–2 days
What are the dimensions of the shipping carton container?	The carton for the single disposable is 28.57 cm x 24.76 cm x 1.27 cm.
What is the list price per each unit or unit of utilization?	Please speak to your Boston Scientific sales representative for the price per each unit.
Method of purchase	Please speak to your Boston Scientific sales representative regarding sales programs for this purchase.
Workstation storage considerations	Per the DFU, store in a cool, dry, dark place.
Is this a dated product?	Yes, with a 23-month shelf life.
What department(s) will use and/or be affected by this product?	Operating Room, Cardiology Suite, and Purchasing.
Will there be additional implementation costs, such as installation, cost of education, impact on equipment or additional space?	No, however a brief in-service by a Boston Scientific sales representative is suggested prior to use.
Will this product require evaluation by any of the following departments?	Epidemiology/Infection Control? No Safety and Security? No Pathology/Labs? No
Does this item and its packaging contain latex?	There is no detectable latex in this product.

BENCH TEST RESULTS

GUIDEZILLA II Guide Extension Catheter outperforms GuideLiner V3 in bench tests.[§]

	GUIDELINER V3	GUIDEZILLA II
Deliverability	Full Unit Pushability	34 % More Pushable*
	Coating Lubricity and Durability	96 % Less Frictional Force†
	Crossing Profile	0.001" (.025mm) Smaller 7F and 8F
Guide Back-out Support	Back-out Support	13 % Increased Back-Up Support‡
Radiopacity	Tip Radiopacity	Equivalent
	Collar Radiopacity	Platinum Iridium

§ Bench test performed by Boston Scientific, n = 8. Bench test results may not necessarily be indicative of clinical performance. Data on file.
* Full Unit Push Bench Test, GuideLiner V3 6F vs GUIDEZILLA 6F (n = 8).
† Lubricity and Durability of Coating Bench Test, GuideLiner V3 6F vs GUIDEZILLA II 6F Long (n = 8).
‡ Backout Support Bench Test, GuideLiner V3 6F vs GUIDEZILLA II 6F (n = 8), Data on file at Boston Scientific.

DIAMETER COMPARISON

GUIDEZILLA II Guide Extension Catheter has a larger inner diameter than GuideLiner V3*

- **Larger inner diameter** allows more room to deliver interventional devices.
- **Smaller outer diameter** takes up less room in the guide catheter.
