

VAIDIO – MILESTONE DESIGN

VAIDIO ON-PREMISE ARCHITECTURE

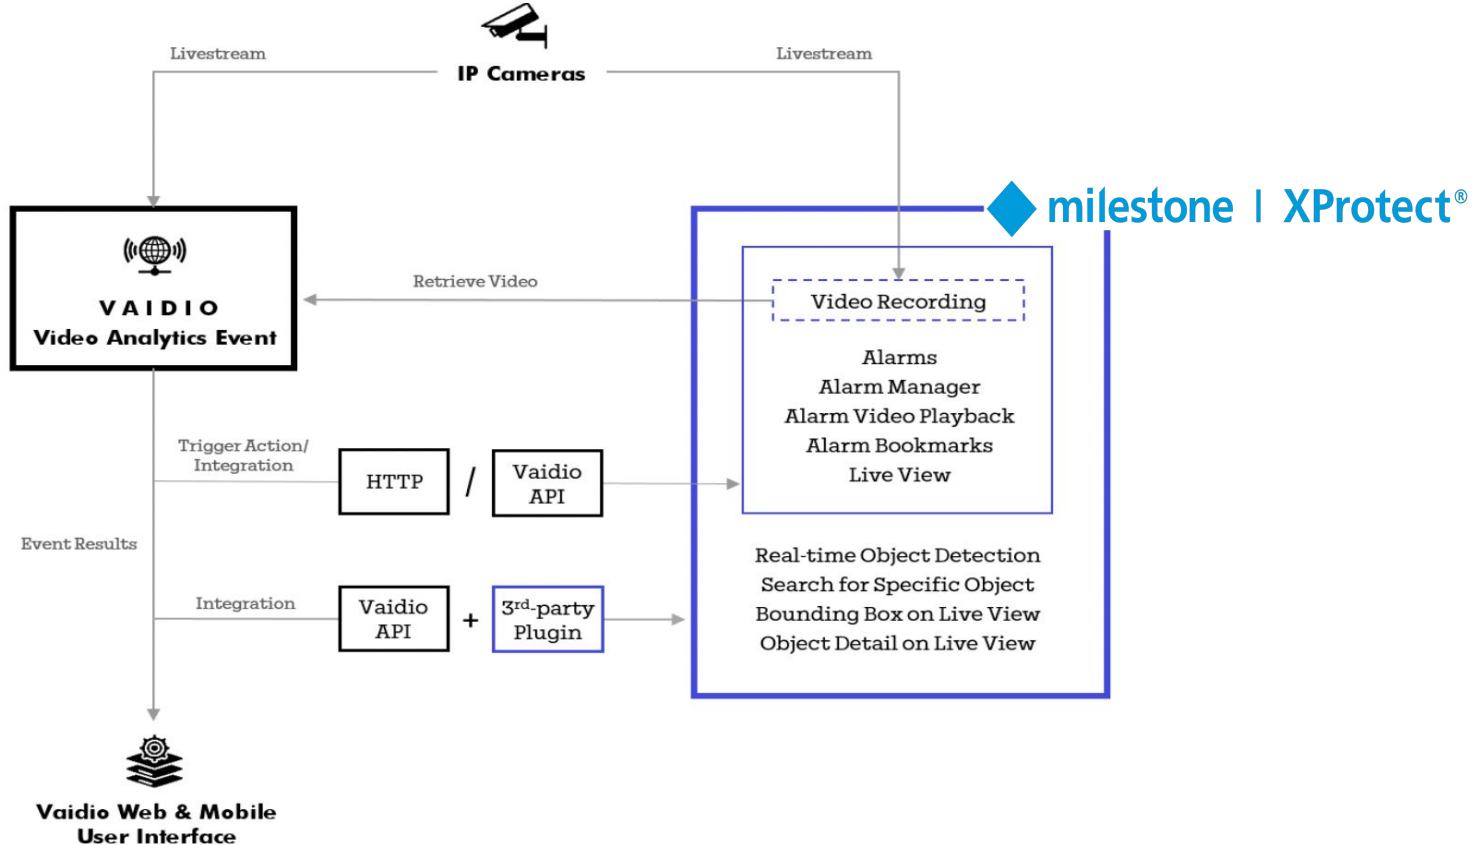

MILESTONE VMS INTEGRATION

Vaidio can send alerts via HTTP or alert trigger in Vaidio UI, perform object search and retrieve video directly from the VMS. The Vaidio-Milestone integration simplifies management, improves accuracy and efficacy, reduces overhead, and improves safety & security.

Here's an overview of some of the functions in the Milestone GUI:

- [Google Like Video Search for Vehicles](#)
- [Real Time Alerts](#)
