Hydrophilic Guide Wire

## EXPERIENCE THE LATEST IN HYDROPHILIC TECHNOLOGY

The Merit Laureate hydrophilic guide wire provides an optimum level of lubricity to cross the most difficult lesions and facilitates successful clinical outcomes in the most challenging procedures.

The resilient hydrated gel coating provides a constant fluid layer on the wire surface for optimum lubricity and long lasting durability.

Nitinol core wire and radiopaque jacket are designed to provide enhanced visibility.

Designed to provide true 1:1 torque response to facilitate navigation and rapid vessel selection.

#### MARKET LEADER

The market leader shows a slow torque response followed by rapid exaggerated movement.

#### MERIT LAUREATE

The Merit Laureate shows definitive turn for turn responsiveness (1:1 torque).

Comparative torque testing showed the Merit Laureate guide wire consistently met the 1:1 torque target.

\*Bench test results may not necessarily be indicative of clinical performance.

| Catalogue Number                | Configuration | Tip Shape | Diameter          | Length | Description |
