

Compact™ paediatric circle breathing systems

Designed for economy, the Compact extendable anaesthetic breathing system is supplied in compressed form which increases the number of systems per box, for more cost effective storage and disposal. Providing significant space savings compared with other breathing systems, a standard box of Compact systems could provide a hospital with an extra three weeks supply.*

Paediatric breathing systems

👁 system illustrated

	Code	Description	Box Qty.
👁	2161000	15mm Compact, paediatric extendable breathing system with luer elbow, 1.5m	85
