

Venous Return Cannula

The Kewei Single stage Venous Cannulas are designed for optimal drainage. Their bodies are made as wire reinforced to resist kink. The tip types are available in plastic straight, plastic bent and metal bent. The construction allows for higher flow rates with minimal pressure differential.

The Application of Venous Return Cannula

Ordering Information

ORDER NO.	MODEL	ID(mm)	OD(mm)	LENGTH(mm)	CONNECTOR PORT(inch)	
VC-PSR-12	Fr12	3.3	4.0	380	1/4	Plastic Straight Tip Reinforced
VC-PSR-14	Fr14	4.0	4.7	380	1/4
