Conclusion

A product **STERISEPT WIPES** (Batch No. 14300818R) was tested according to the EN 13697 standard at $20^{\circ}\text{C} \pm 1^{\circ}\text{C}$, with the contact time 3 min, under dirty conditions. The method was used for testing the product's efficacy against the microorganisms: *Staphylococcus aureus* ATCC 6538; *Pseudomonas aeruginosa* ATCC 9027; *Enterococcus hirae* ATCC 10541; *Escherichia coli* ATCC 8739 and *Candida albicans* ATCC 1023. Under dirty conditions (test regime) the tested product was active against all the testorganisms within the contact time tested.

Summary

The surviving microbial count showed at least 4lg reduction for bacteria and 3lg reduction for yeast, meaning that **STERISEPT WIPES** is bactericidal and yeasticidal under dirty conditions within 3 min.
