

# APPENDIX 1 - TECHNICAL SPECIFICATIONS

<b>Offer Nr</b>	
<b>Model</b>	LF 12
<b>Offer Date</b>	18/03/2021
<b>Country</b>	Moldova
<b>Customer Name</b>	Chisinau Municipality
<b>Production Quantity</b>	100

<b>Payment Terms</b>	30 days after vehicle acceptance
<b>Delivery Terms</b>	With accordance to tender specification

## Additional Requests

- 4 surveillance cameras inside (one of which will supervise the driver and three will be installed in the passenger compartment of the bus) and 4 outside (between which two front-rear cameras and two right-left side cameras), the information on the 8 surveillance cameras will be stored on a HDD with a capacity of at least 1Tb
- endowment with audio-video information equipment for passengers, at least two monitors with the possibility of video mechanical, foldable hatch for the access of people with reduced mobility. The bus will be provided with a button to signal the intention to operate the ramp located both outside and inside and on board signaling for the driver.
- Inside the bus will be at least 3 buttons, located on the support bars in the direction of each door in order to signal the intention to get off the bus to the driver. The driver signaling will be visual as well as auditory.
- Possibility of connecting passenger counting equipment and GPS system.
- Passenger Seats - Anti-vandal, semi-rigid with anti-trauma handle.
- Exterior RW mirrors - With heating and electric drive, covered with screen against blinding light.
- Information System - Electronic informant (front, side, rear, passenger compartment) on board with the dissemination of information from the stick or analog device, inside informant with microphone, speakers, electronic control unit. The system must store up to 999 routes, the number of stations stored for each route not less than 999
- Spare wheel, jack, anti-skid support under wheels
- 1 liter of paint for each bus
- 3 bus diagnostic computer including the necessary cables and software for the entire lot of 100 units
- Warranty period - Minimum 48 months for all bus aggregates, mechanisms and components. Minimum 5 years for the bodys anti-corrosion warranty.
- parking sensors will be with reversing alarm
- Waterproof, made of non-slip fabric Grabiol or similar, resistant to fretting wear. The cover must also be laid under the seat fasteners.
- 1.4. In case of recognition of the claims, the Seller is obliged, within 10 days, to deliver additionally to the Buyer the undelivered quantity of goods, and in case of finding the improper quality - to replace or correct them in accordance with the requirements of the Contract.
- 1.2. Claims regarding the quality of the delivered goods are submitted to the Seller within 10 working days from the detection of quality deficiencies and must be confirmed by a certificate issued by a neutral and authorized
- 1.6. In case of deviation from the quality confirmed by the quality certificate drawn up by the neutral independent organization or authorized for this purpose, the expenses for parking or delay shall be borne by the guilty party.
