## TECHNICAL DATA SHEET

### UNIVERSAL TEST TUBES RACKS

In polypropylene, autoclavable. They can be used either dry or in water bath. The particular design permits an optimum fluids circulation to assure that all test tubes reach the same temperature. They can be frozen without any risk of distortion. They have an upper embossed alphanumeric grid to facilitate samples identification. They can be easily assembled and stacked when empty. Available in: white (03), blue (04), yellow (06) and red (10) colours.

Cod.	Dim. mm	Places	Ø Test tubes mm
10471	105 X 246 X 64	90	12 - 13
10472	105 X 246 X 72	60	16
10473	105 X 246 X 72	40	20
10474	125 X 295 X 85	40	25
10475	112 X 300 X 85	24	30
