# THORACENTESIS

Kits for pleural puncture in case of:

- Pneumothorax
- Pleurodesis
- Aspiration of any effusions (i.e. ascites)

They consist of a puncture cannula with catheter (over the needle).

Besides the straight version, the combined models with self-locking-seal and sideport, are particularly well suited for pleurodesis applications. Special possibility for infusion of drugs with subsequent optional suction. Reliable handling by stopcock and a flexible silicon tube. All models have a lateral eye on the distal end of the catheter.

The models with Veress-Needle offers an additional protection against injuries.

| REF                   | DESCRIPTION  |
|-----------------------|--|
| <b>Box: 20 pieces</b> |  |
| 503 021               | Thoracentesis (14 G – 10 cm) straight version  |
| 503 020               | Thoracentesis (17 G – 3.5 cm) for pediatrics with side port  |
| 503 019               | Thoracentesis (14 G – 8.5 cm) for adults with side port  |
| 503 119               | Thoracentesis-Ascites-Puncture Kit consisting of <ul style="list-style-type: none"> <li>• Thoracentesis for adults with sideport (14 G – 8.5 cm)</li> <li>• Syringe 50-60 ml LL</li> <li>• Collecting bag 2.0 ltr. LL with 90 cm tube</li> </ul>                               |
| 010 050               | Veress-Needle (2.1 x 120 mm) with stopcock   |
| 503 061               | Thoracentesis Kit with Veress-Needle (2.1 x 120 mm) and <ul style="list-style-type: none"> <li>• Collecting bag 2.0 ltr. LL with 90 cm tube</li> <li>• Stopcock</li> <li>• Syringe 50-60 ml LL</li> <li>• 75 cm extension line</li> </ul>                                      |
| 503 060               | Thoracentesis Kit with Veress-Needle (2.1 x 120 mm) and <ul style="list-style-type: none"> <li>• Collecting bag 2.0 ltr. LL with 90 cm tube</li> <li>• Stopcock</li> <li>• Syringe 50-60 ml LL</li> <li>• 75 cm extension line</li> </ul>                                      |
| 503 025               | Pleural-Puncture-Kit consisting of <ul style="list-style-type: none"> <li>• Thoracentesis (14 G – 8 cm) with puncture needle, 2-way-stopcock and syringe (5 ml)</li> </ul>   |
| <b>Box: 10 pieces</b> |  |
| 503 022               | Pleural-Puncture-Kit consisting of <ul style="list-style-type: none"> <li>• Thoracentesis (14 G – 10 cm), straight version</li> <li>• Collecting bag 2.0 ltr. LL with 90 cm tube</li> <li>• Stopcock</li> <li>• Syringe 50-60 ml LL</li> <li>• 75 cm extension line</li> </ul> |

## Accessories

intra special catheters offers suitable accessories for all thoracic catheters, such as Heimlich-type drainage valves PNEUMOVENT® (with luer-lock connections or also tube connections), various variable adaptors (with or without stopcock), a special fixation plate to adapt three-way stopcocks, as well as suction tubes with silicone adaptors or Heidelberger extension-lines, ...

| REF                   | DESCRIPTION  |
|-----------------------|--|
| <b>Box: 20 pieces</b> |  |
| 504 001               | Pneumovent® with positive LL-adaptor and tube connection     |
| 504 002               | Pneumovent® with tube connection at both ends                |
| 503 010               | Connection tube to connect the thin drains to bigger systems |
| 503 016               | Skin fixation plate  |
| 503 050               | Suction tube 50 cm, positive LL/silicone adaptor             |
| 503 180               | Suction tube 180 cm, positive LL/silicone adaptor            |
| 010 002               | Collecting bag 2.0 ltr. LL with 90 cm tube                   |
| <b>Box: 50 pieces</b> |  |
| 011 000               | Tubing adaptor   |
| 011 001               | Tubing adaptor with stopcock for NEO-PNEUMOCATH® (10 F)      |

All collecting bags with back valve and bottom valve.
