Multiple Band Ligator Set

Multiband Ligators

Endoscopic banding has been demonstrated as an effective and simple treatment for internal hemorrhoids. Banding is readily performed in an ambulatory setting and can result in less pain and have a shorter recovery period than surgical hemorrhoidectomy.

The Micro-Tech Hemorrhoids Multiple Band Ligator Set is a cost-effective solution for the outpatient treatment of hemorrhoids during a routine colonoscopy.

KEY BENEFITS

EXCELLENT VISIBILITY

A clear ligating barrel with rear mounted bands optimizes the endoscopic view while maintaining suction.

BAND DESIGN

The square band design provides consistent shape and reliable retention. The set comes with four pre-loaded latex-free bands.

USER-FRIENDLY SYSTEM

The handle unit tie hole enables quick and easy loading of the pull wire. The alert band notifies the operator when only one band remains.

SPECIFICATION

Multiple band ligator set					
REF	Required Working Channel (mm)	Scope O.D. (mm)	Bands/Ligating Unit	Band Type	Packaging
MBLS-7F-NL	2.8	9.2-13.0	7pcs	Latex Free	1/Box
