Consumables

All Slee consumables are subject to the highest quality requirements.

Our product range includes blades with plasma coating, blades with PTFE coating, tissue embedding paraffin, slides and coverslips as well as the CryoGlue embedding medium and other consumables.

High quality microtome blades

LPS, LPH, HPS, PTFE coated

The Slee blades for microtomes feature a special plasma technology, that considerably improves the sharpness as well as the durability of the blades. In addition, further blades with innovative PTFE coating are available. All Slee microtome blades are made of surgical steel.
