

The Blade to Fit The Job

Epredia Microtome and Cryostat Blades:

Obtaining high-quality sections and minimizing wasted tissue relies high-quality microtome and cryostat blades. Epredia™ blades offer consistency, durability, and performance with blade coatings and angles to match your application.

- Blades designed for various tissues
- High- and low-profile blades compatible with most manufacturers' microtomes and cryostats
- Steeper bevel angle profile facilitates fast ribboning
- Enhanced user safety with unique blade box for loading into Epredia E style microtome blade holders

The Ultra Blade Advantage:

Outstanding performance and longevity with the hardest of disposable blades available.

- Manufacturing process produces an edge twice as strong as traditional blades
- Hard PTFE coating provides durability and consistency from blade to blade
