Company Profile

Ecan, We Can Do it!

Guangdong Ecan Medical Co., Ltd., being established in 2017, is located in Meidu Industrial Zone, Chengjiao Street, Conghua District, Guangzhou, China. We are a professional & High-Tech manufacturer and supplier being dedicated and specialized in the research & development, production and sales of a widely range of consumable medical devices. We have 5,000sqm+ 100,000-class cleaning room strictly according to GMP standard, being equipped with advanced and innovative production, processing and quality testing machines. We have established a complete quality management system in strict accordance with all requirements of the Chinese national medical device regulations and ISO 13485 standard, to ensure the stability, safety and reliability of all products we bring to our esteemed customers and end-users.

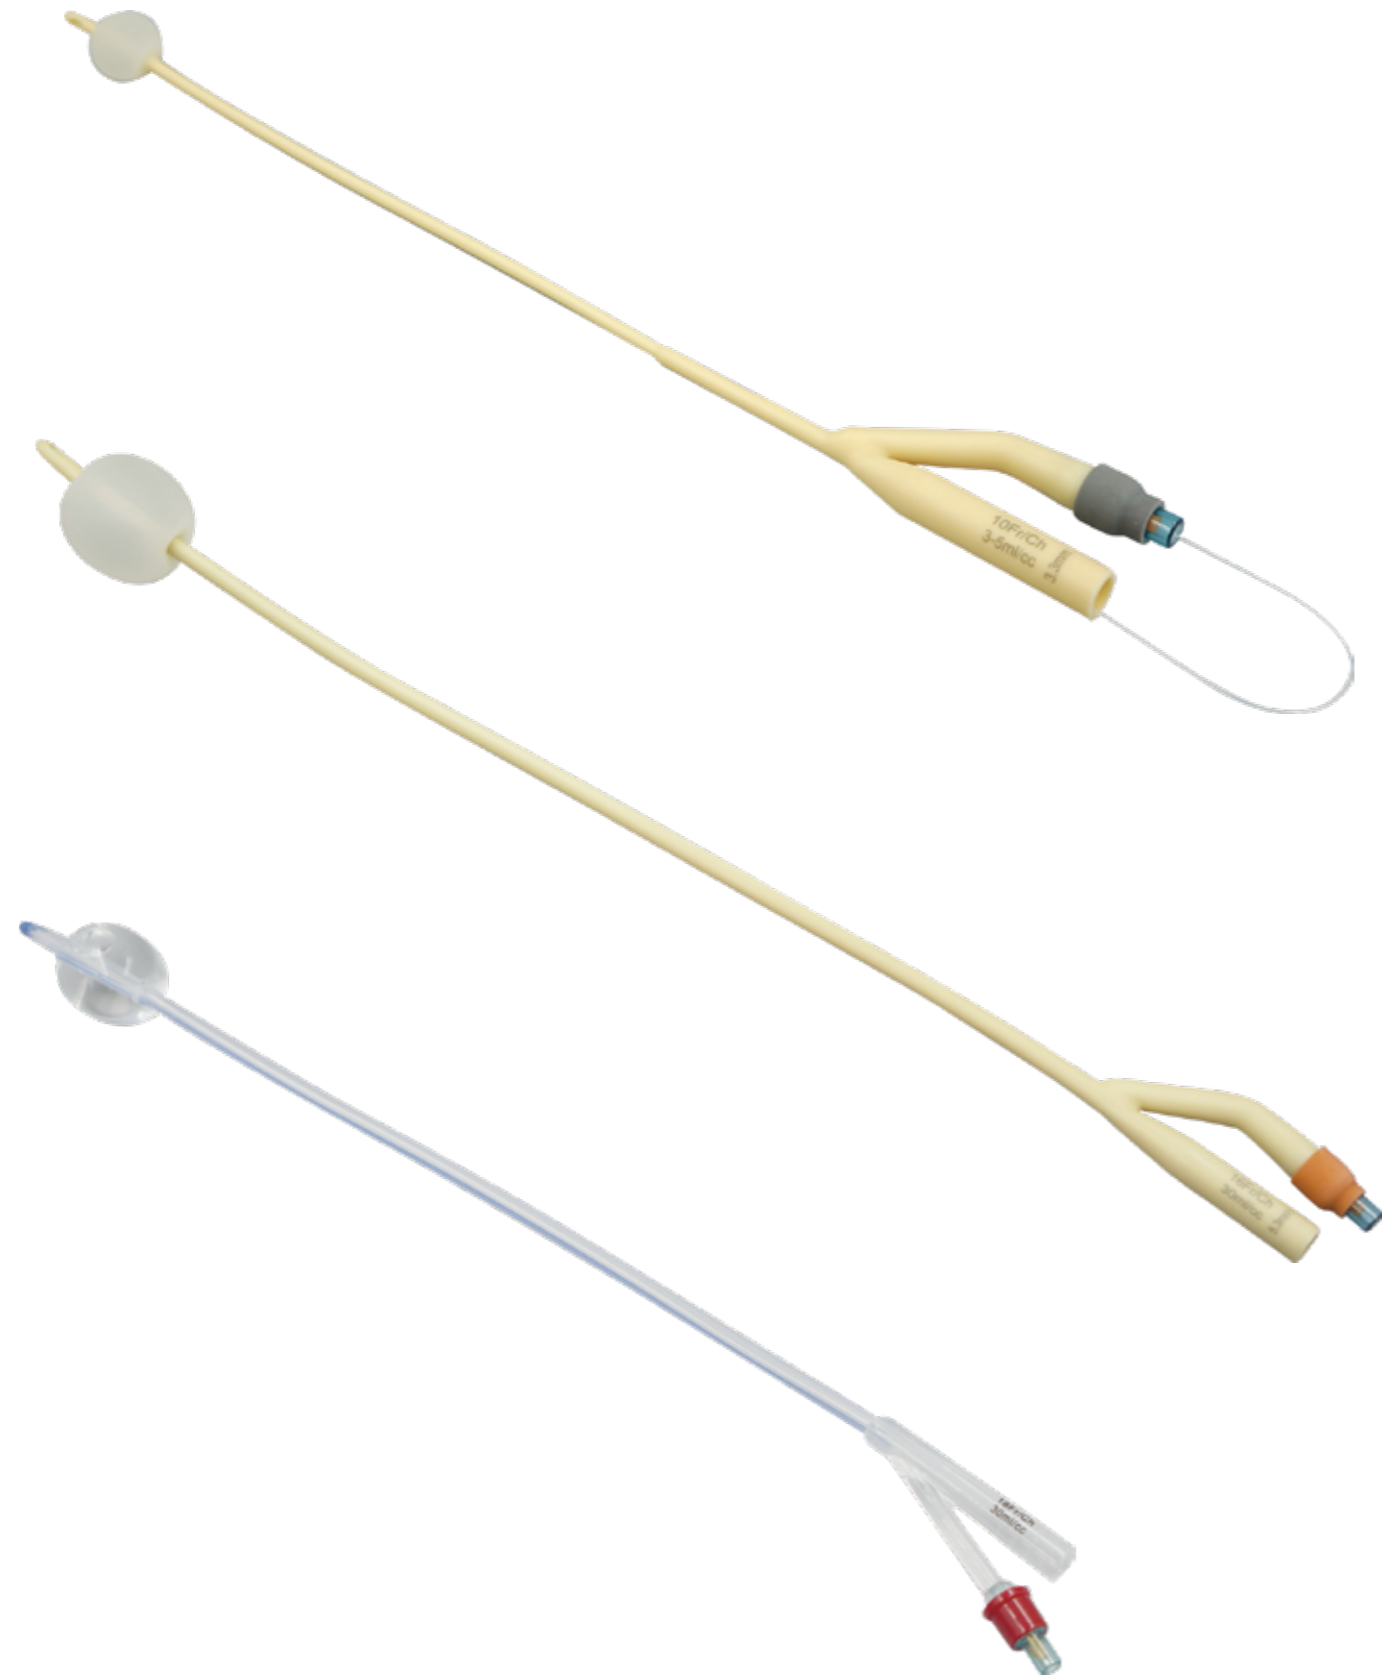

We have a full production line covering Urology, Anesthesiology, Respiratory and other general medical catheters widely used in hospitals. We also have patented products such as anti-negative pressure & bigger lumen foley catheter (with nylon integrated), etc.

We are practicing the philosophy 'Quality First, Innovation & Enterprising, Serving for All Human's Health', and enhancing our brand in both global market and domestic market through premium products and supreme service from our heart.

The branch company, Ecan Medical Co., Ltd. (Shanghai), established in March, 2020, is committed to do ECAN brand global marketing & promotion, and providing high-quality medical products to human beings all over the world. We strive to become a leader as one-stop solution and customized service provider under the ever-changing global medical environment.

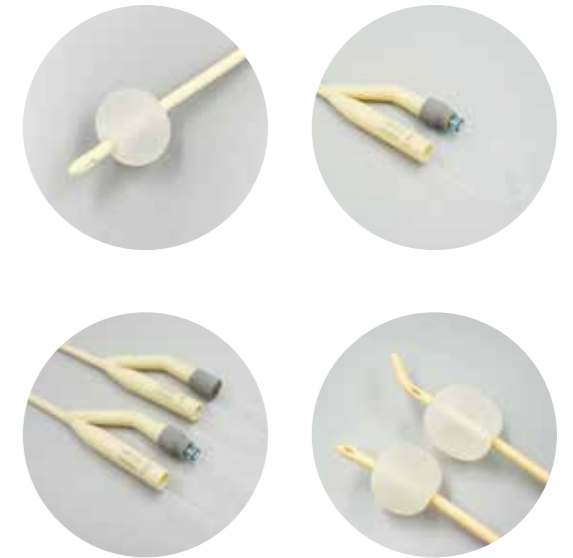

Urethral Catheter

Latex foley catheter

Features:

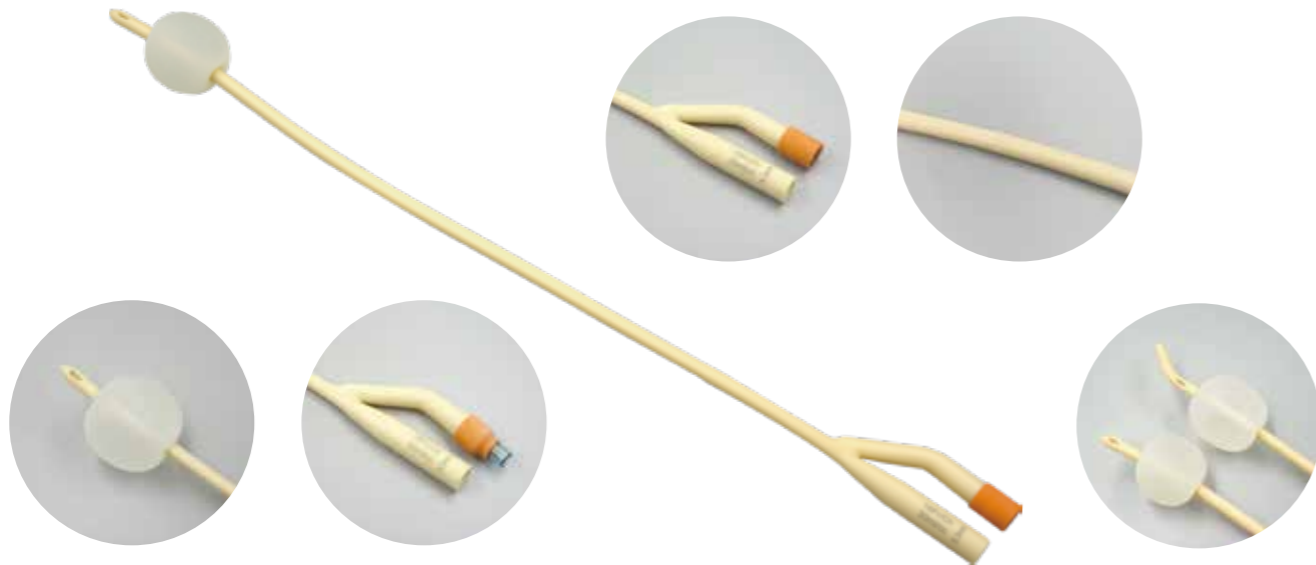

1. Made of imported medical grade natural latex
2. Coated by silicone for better biocompatibility
3. Color coding size identification and recognition
4. Available with hydrophilic coating
5. Available with soft rubber valve & hard plastic valve
6. Cylindrical and central positioned balloon
7. Auto-dipping line & automatic assembling line
8. Thicker designing for tube's backside
9. Duration in human body max 7 days
10. Sterilized by Ethylene Oxide (EO Gas)

Soft/rubber valve

• 2-way pediatric

EC010530P	EC010530HP	EC010530GP	30	30/30-50	Grey	400

Notes:

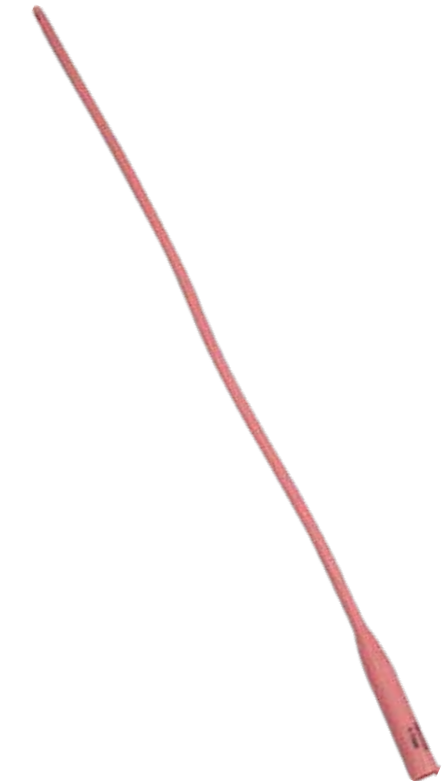

- Pre-lubricated coated layer is bound to the catheter surface. The pre-lubricated coated layer turns to an ultra-smooth surface after being treated by sterilized water. The coating layer ensures lubricated catheter slip down urethra with very lower friction than catheters lubricated by silicone oil or gel.
- The lubricated hydrophilic coating helps reduce irritation of the urethra mucosa and minimize encrustation.
- Better biocompatibility, efficient operation to insert catheters.
- The hydrophilic coated catheter brings patient more comfort.

Red latex urethral catheter

Features:

1. Made of medical grade red latex
2. One-way design for temporary urine drainage
3. Silicone coating for less irritation

Item No./Cat. No.	Size (Fr/CH)	Length (mm)
EC010606RC	6	270
EC010608RC	8	270
EC010610RC	10	270

EC010624RC	24	400
EC010626RC	26	400

Latex malecot catheter

Features:

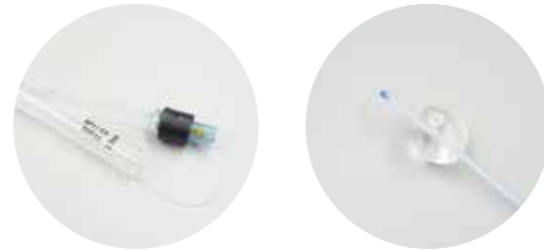

1. Made of medical grade siliconized latex
2. Be used for temporary drainage of bladder or kidney
3. With funnel end
4. Mushroom shaped tips for catheter retention
5. Special designed distal holes for better drainage of liquid or blood clots

Item No./Cat. No.	Size (Fr/CH)	Length (mm)

EC010740MC	40	400

Silicone foley catheter

Features:

1. Made of 100% silicone
2. Better biocompatibility and less irritation
3. Color coding size identification and recognition
4. X-ray detectable line integrated overall length and distal tip
5. Hard plastic valve only
6. Duration in human body max 28 days
7. Sterilized by Ethylene Oxide (EO Gas)

• 2-way pediatric

Silicone foley catheter with temperature sensor

Features:

- 1.Made of 100% silicone
- 2.Be designed for patient body temperature monitoring and recording before & during & after surgery
- 3.Available with long term placement
- 4.Temperature extension cable available for different indications

Haematuria latex foley catheter

Features:

1. Made of imported medical grade natural latex
2. Silicone coating or hydrophilic coating
3. Color coding size identification and recognition
4. Available with soft rubber valve & hard plastic valve
5. Thicker designing for tube's backside
6. Duration in human body max 7 days
7. Providing continuous irrigation
8. Reinforced design with nylon spiral integrated in catheter shaft to provide large flow rate and anti-collapsing or block when doing suction with stronger negative pressure for blood clot

Nelaton catheter

Features:

1. Made of medical grade PVC
2. Round distal tip for non-traumatic design
3. Heat melted lateral eyes available for smooth and painless insertion
4. Available with DEHP free type
5. Sterilized by Ethylene Oxide (EO gas)
6. Hydrophilic coating available for different options

Foley catheterization kit

Features:

1. Be designed to provide all accessories for urine drainage
2. For short or long period of time
3. Ethylene Oxide (EO) sterilized package
4. Available with different combinations of different types of urine drainage bag and foley catheters
 - Different options of foley catheter: PVC nelaton catheter, red latex urethral catheter, siliconized latex foley catheter, hydrophilic coated latex foley catheter, silicone foley catheter, silicone foley catheter with temperature sensor.
 - Different options of urine bag: economic urine bag, simple luxury urine bag, luxury urine bag, urine meter, urine leg bag)
5. Other accessories can be customized if needed

Contents:

1. Foley catheter (different options)
2. Urine bag (different options)
3. Plastic forceps
4. Cotton balls
5. Pre-filled sterilized 20ml syringe
6. Lubricant jelly
7. 40ml Test tube
8. Gauze pads
9. Fenestrated drape
10. Waterproof underpad
11. Gloves
12. Kidney basin
13. Povidone-iodine solution

Item No./Cat. No.	Size (Fr/CH)	Description
EC050116LE	16	Latex foley catheter+economic urine bag
EC050116LL	16	Latex foley catheter+luxury urine bag
EC050116LM	16	Latex foley catheter+urine meter
EC050116SE	16	Silicone foley catheter+economic urine bag
EC050116SL	16	Silicone foley catheter+luxury urine bag
EC050116SM	16	Silicone foley catheter+urine meter

Notes:

- Different sizes of foley catheter is optional
- Contents can be customized

Urine Drainage System

Economic urine bag

Features:

1. Made of medical-grade PVC
2. Step connector connected with catheter to do urine collection
3. With non-return design
4. Different tube thickness: 6mm, 6.5mm
5. Thickness 0.11mm, 0.12mm, 0.13mm for optional

Item No./Cat. No.	Outlet valve	Capacity (ml)	Tube length (cm)	Tube OD (mm)
EC060101WU	Without valve	2000	90	6/6.5
EC060102PU	Push-pull valve	2000	90	6/6.5
EC060103SU	Screw valve	2000	90	6/6.5
EC060104TU	T-valve (cross valve)	2000	90	6/6.5

Simple luxury urine bag

Features:

1. Made of medical-grade PVC
2. With needleless sampling port for safe urine sampling
3. With non-return valve to prevent urine back flow
4. Thicker smooth surface for kink-resistant design
5. Plastic hanger optional
6. Tube clip available for tube drainage stopping
7. 'Dog house' is optional if needed

Item No./Cat. No.	Outlet valve	Capacity (ml)	Tube length (cm)	Tube OD (mm)
EC060201SL	Push-pull valve	2000	90/120	9/9.5
EC060202SL	Screw valve	2000	90/120	9/9.5
EC060203SL	T-valve (cross valve)	2000	90/120	9/9.5

Luxury urine bag

Features:

1. Made of medical-grade PVC
2. With plastic hanger, drip chamber, air filter, non-return valve, tubing clamp and bed sheet clamp
3. With needleless sampling port
4. Robert clip available for tube drainage stopping
5. With 'dog house' to hide outlet valve

Item No./Cat. No.	Drip chamber	Capacity (ml)	Tube length (cm)	Tube OD (mm)
EC060301LU	3 parts	2000	90/120	9/9.5
EC060302LU	3 parts	4000	90/120	9/9.5
EC060303LU	3 parts	5000	90/120	9/9.5

Urine meter

Features:

1. Made of medical-grade PVC
2. With plastic hanger, drip chamber, air filter, non-return valve, tubing clamp and bed sheet clamp
3. With needleless sampling port
4. Robert clip available for tube drainage stopping
5. With 'dog house' to hide outlet valve
6. Type A chamber (Blow type) and Type B chamber (Injection type)

• Type A

Item No./Cat. No.	Bag capacity (ml)	Chamber capacity (ml)	Tube length (cm)	Tube OD (mm)
EC060401UM	2000	200	120	9/9.5
EC060402UM	2000	400	120	9/9.5
EC060403UM	2600	400	120	9/9.5
EC060404UM	2600	500	120	9/9.5

• Type B

Item No./Cat. No.	Bag capacity (ml)	Chamber capacity (ml)	Tube length (cm)	Tube OD (mm)
EC060405UM	2000	400	120	9/9.5
EC060406UM	2600	400	120	9/9.5
EC060407UM	2600	500	120	9/9.5
EC060408UM	2000	2 chambers (50+400)	120	9/9.5

Urine leg bag

Features:

1. Made of medical-grade PVC
2. With leg fasten straps (One pair)
3. Different outlet valves available

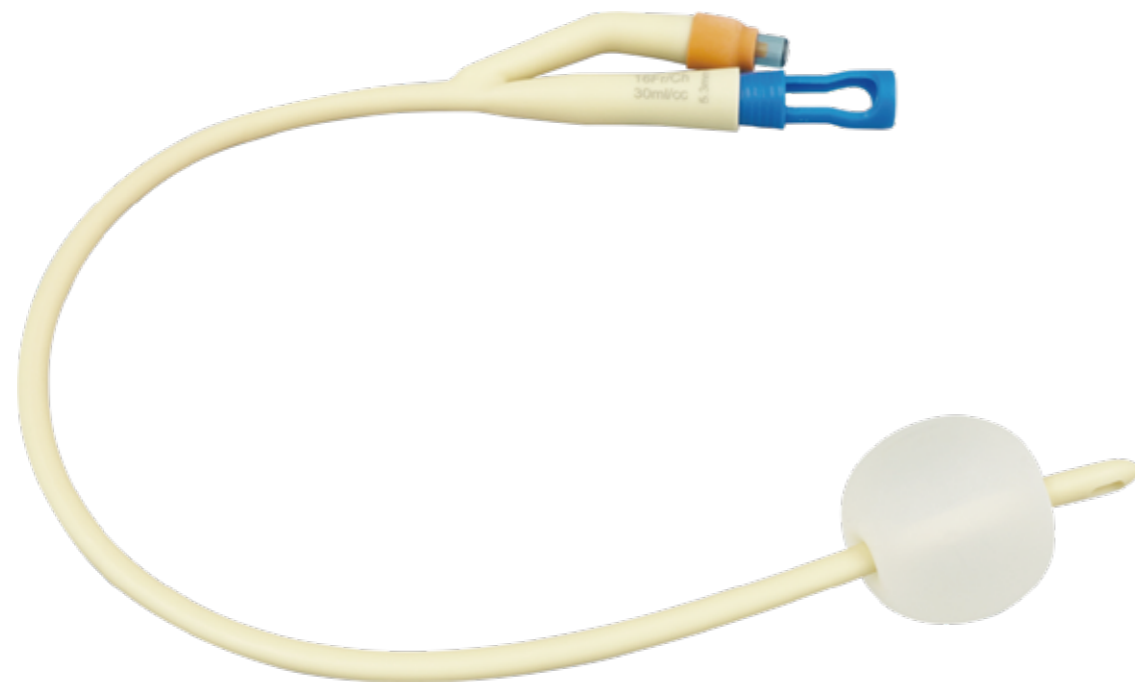

Item No./Cat. No.			Bag Capacity
Type A	Type B	Type C	ml
EC060501AU	EC060501B	EC060501C	500
EC060502AU	EC060502B	EC060502C	750
EC060503AU	EC060503B	EC060503C	1000

Catheter Spigot

Features:

1. Made of medical grade PP
2. Universal size (step type) designed for all sizes of catheters
3. Ergonomic flanged design assists withdrawal and maximize grip
4. Both sterile blister packing and bulk packing can be provided

Item No./Cat. No.	Description
EC060601SC	Catheter spigot

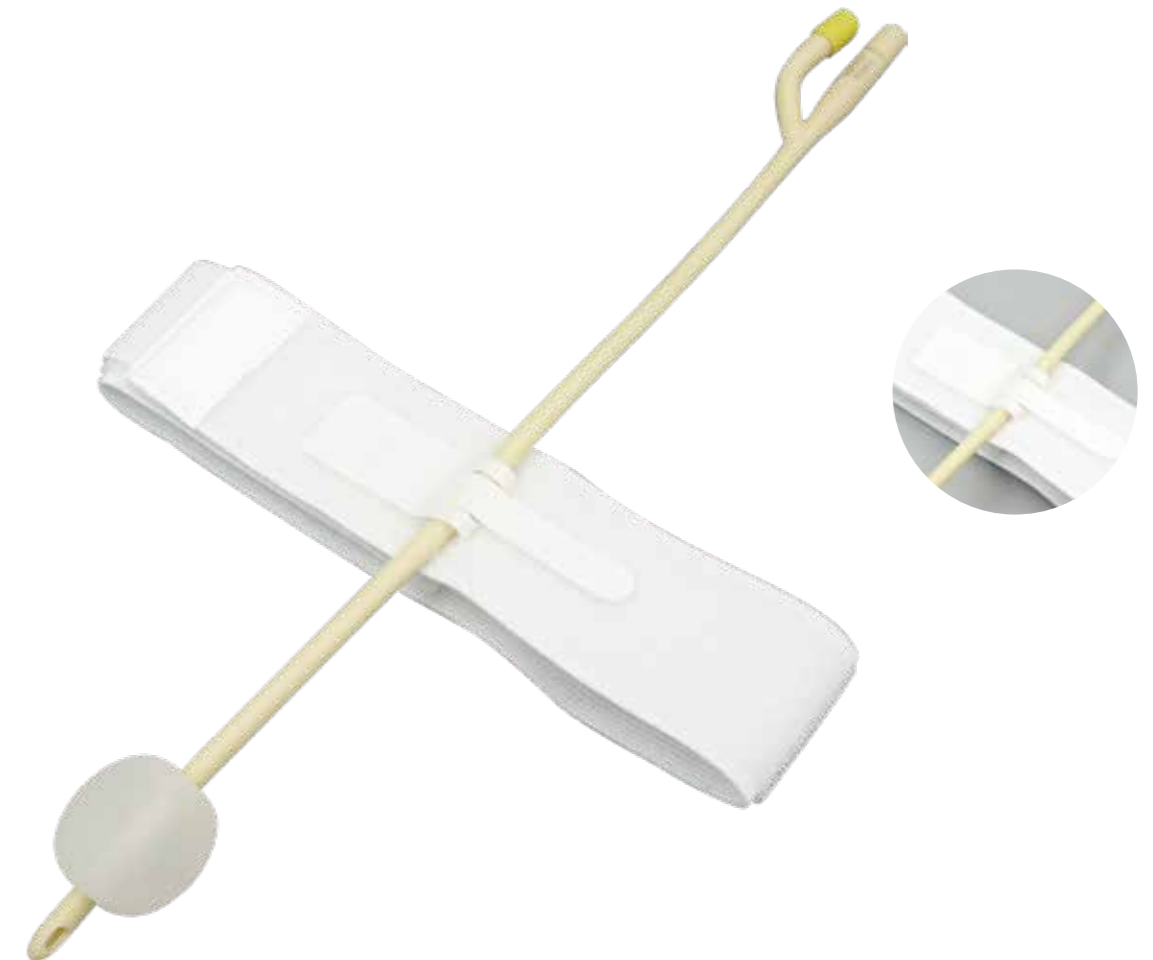

Foley Catheter Holder

Features:

1. Designed to fix foley catheter to patient's leg
2. Less irritation and hurt to patient, be made of comfortable material
3. Prevent moving or dislocation of foley catheter
4. Suitable for all sizes of foley catheters
5. With Velcro to fix tightly

Instruction for use:

- Position legband high with locking tabs toward the inside front of the length. Tight legband and secure with hook and loop tab. A proper fit allows two fingers to fit snugly under the band
- Place foley catheter over the middle of the locking tabs where the locking tabs are stitched to the legband. (See figure A)
- Take the narrow locking tab over the catheter and insert through the square cutout on the wider locking tab. Fasten to the legband.
- Take the wider locking tab and fasten to the legband in the opposite direction. (See figure B).

Item No./Cat. No.	Description
EC070101HF	Foley catheter holder

Endotracheal Tube

Standard endotracheal tube

Features:

1. Made of medical-grade PVC, DEHP free available
2. High volume low pressure cuff to seal the airway without trauma
3. Atraumatic soft rounded-bevel tip and Murphy eyes with less invasive
4. Oval cuff optional minimizes contacting and less trauma to patient airway
5. X-ray detectable line integrated whole tube enabling identification under X-ray
6. Universal connector suitable to all related equipment and devices
7. Pilot inflation valve with one-way passing design, anti air-leaking
8. Customized graduation on tube and pilot balloon available
9. Unit packing: Rectangular paper-film packing / Banana packing
10. Bigger size (10.5mm, 11.0mm, 11.5mm, 12.0mm available for veterinary use mainly)

Endotracheal tube with stylet

Features:

1. Same features with standard endotracheal tube
2. Stylet precurve tube providing convenient and quick insertion
3. DEHP free available
4. Unit packing: Rectangular paper-film packing / Banana packing
5. Bigger size (10.5mm, 11.0mm, 11.5mm, 12.0mm available for veterinary use mainly)

Endotracheal tube holder

Features:

1. Be suitable for all sizes of endotracheal tubes fixation
2. Bite block available to prevent patient biting and endotracheal tube kinking
3. Allow suction of oropharynx when endotracheal tube inserted

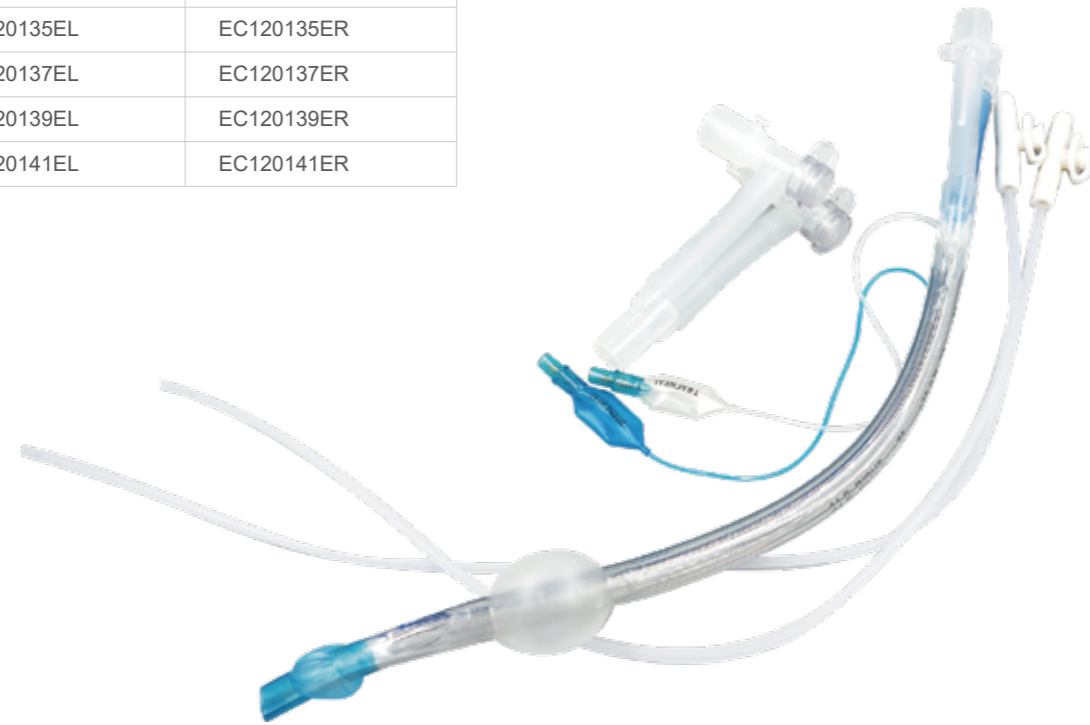

Item No./Cat. No.	Description
EC11080101	Endotracheal tube holder

Double Lumen Endobronchial Tube

Features:

1. Made of medical grade PVC
2. Both left-sided and right-sided available for different surgery's options
3. Color coding for both cuffs and lumen and pilot balloon for tracheal (white) and bronchial (blue)
4. Switch connector and two low friction suction catheters packed inside

Size	Left-sided	Right-sided

Tracheostomy Tube

Standard tracheostomy tube

Features:

1. Made of medical grade PVC
2. Be detectable being with full length X-ray detectable line
3. Universal connector for widely connection to ventilation equipment and device
4. Atraumatic smooth rounded tip of obturator with less trauma
5. Available with integrated suction lumen to decrease risk and rate ventilation-associated pneumonia (VAP)

Endobronchial Blocker Tube

Features:

1. It is invasive and short-term use
2. Easy operation for insertion
3. Applicable for one-lung surgery and ventilation
4. Low pressure cuff brings less trauma

Item No./Cat. No.	Size (Fr/CH)
EC120201EB	5
EC120202EB	7
EC120203EB	9

Reinforced tracheostomy tube

Features:

1. Made of medical grade PVC
2. Be detectable being with full length X-ray detectable line
3. Universal connector for widely connection to ventilation equipment and device
4. Atraumatic smooth rounded tip of obturator with less trauma
5. Integrated wire spiral ensures more flexibility and more resistance to kinking when tube heated during or after surgery
6. Available with integrated suction lumen to decrease risk and rate ventilation-associated pneumonia (VAP)

Tracheostomy tube holder

Features:

1. Made of latex-free cotton and foam for comfortable purpose
2. Velcro hooks provides different lengths to fix to patient's neck
3. Skin-friendly design
4. Be applicable with all sizes of tracheostomy tubes
5. For single patient use

Item No./Cat. No.	Size
EC13030101	Child
EC13030102	Adult

Intubating Stylet

Features:

1. Made of malleable aluminium coated with plastic sheath
2. Flexible and malleable character for assistance of tracheal tube intubation
3. Smooth polyethylene coated sheath leads to easy insertion and withdrawal
4. Length can be customized when needed

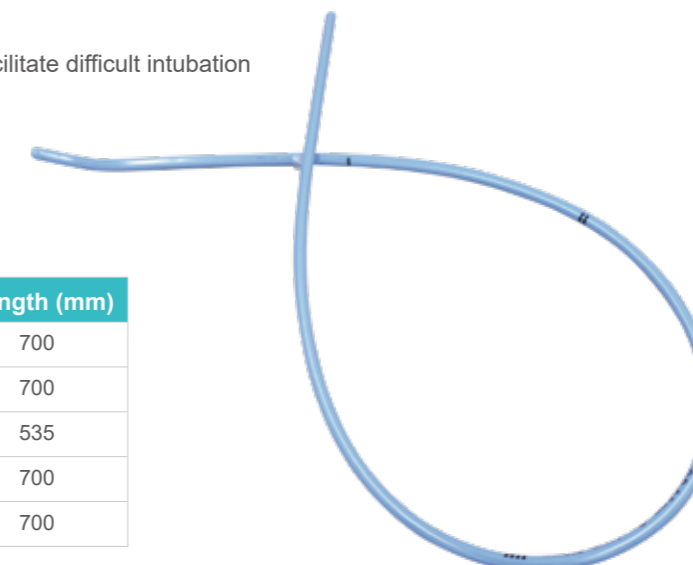

Item No./Cat. No.	Size (Fr/CH)	Applicable tracheal tube (mm)	Length (mm)
EC140106IS	6	<3.5	310
EC140110IS	10	4.0-5.0	390
EC140114IS	14	>5.5	390

Endotracheal Tube Introducer

Features:

1. Made of medical grade PVC
2. Be intended for use in combination with tracheal tube to facilitate difficult intubation
3. Assist tracheal tube exchanging
4. Hollow type designed for feeding when needed

Item No./Cat. No.	Size (Fr/CH)	Type	Length (mm)
EC150110BH	10	Hollow	700
EC150115BH	15	Hollow	700
EC150106BS	6	Solid	535
EC150110BS	10	Solid	700
EC150115BS	15	Solid	700

Laryngeal Mask Airway Device

Disposable PVC laryngeal mask

Features:

1. Made of medical grade PVC
2. For single use design, cannot be autoclavable
3. Offer low pressure seal around laryngeal inlet and permitting gentle positive pressure ventilation
4. Cause less pain and coughing than tracheal tube
5. Easier operation for insertion
6. Popular and widely used in daily case surgery
7. Reinforced type with stainless wire spiral integrated for more flexible and anti-kinking purpose

Disposable silicone laryngeal mask

Features:

1. Made of medical grade silicone
2. For single use design, cannot be autoclavable
3. Offer low pressure seal around laryngeal inlet and permitting gentle positive pressure ventilation
4. Cause less pain and coughing than tracheal tube
5. Easier operation for insertion
6. Popular and widely used in daily case surgery
7. Reinforced type with stainless wire spiral integrated for more flexible and anti-kinking purpose

Reusable silicone laryngeal mask

Features:

1. Made of medical grade silicone
2. Can be utilized and sterilized 40 times for reusable purpose
3. Offer low pressure seal around laryngeal inlet and permitting gentle positive pressure ventilation
4. Cause less pain and coughing than tracheal tube
5. Easier operation for insertion
6. Popular and widely used in daily case surgery
7. Reinforced type with stainless wire spiral integrated for more flexible and anti-kinking purpose

Oxygen Mask (Medium Oxygen Concentration Mask)

Features:

1. Made of medical grade PVC
2. Both transparent color and green color available
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different options
5. Medium oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensures oxygen delivery when tube kinked
8. Designed for oxygen supply and exhaled CO2 rate sampling simultaneously

Item No./Cat. No.	Type	Size	Specification
EC21010101	Pediatric standard	S	With oxygen tubing
EC21010102	Pediatric elongated	M	With oxygen tubing
EC21010103	Adult standard	L	With oxygen tubing
EC21010104	Adult elongated	XL	With oxygen tubing
EC21020101	Pediatric standard	S	Without tubing
EC21020102	Pediatric elongated	M	Without tubing
EC21020103	Adult standard	L	Without tubing
EC21020104	Adult elongated	XL	Without tubing
EC21030101	Pediatric standard	S	With tubing & with CO2 sampling line
EC21030102	Pediatric elongated	M	With tubing & with CO2 sampling line
EC21030103	Adult standard	L	With tubing & with CO2 sampling line
EC21030104	Adult elongated	XL	With tubing & with CO2 sampling line

Nebulizer Mask

Features:

1. Made of medical grade PVC
2. Both transparent color and green color available
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different options
5. Medium oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensures oxygen delivery when tube kinked
8. Different nebulizer jars optional with volume 6ml and volume 8ml mainly

Item No./Cat. No.	Type	Size	Specification
EC22010101	Pediatric standard	S	With oxygen tubing
EC22010102	Pediatric elongated	M	With oxygen tubing
EC22010103	Adult standard	L	With oxygen tubing
EC22010104	Adult elongated	XL	With oxygen tubing
EC22020101	Pediatric standard	S	Without tubing
EC22020102	Pediatric elongated	M	Without tubing
EC22020103	Adult standard	L	Without tubing
EC22020104	Adult elongated	XL	Without tubing

Non-Rebreathing Mask (High Oxygen Concentration Mask)

Features:

1. Made of medical grade PVC
2. Both transparent color and green color available
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different options
5. High oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensures oxygen delivery when tube kinked
8. Different volumes available for oxygen reservoir bag included

Item No./Cat. No.	Type	Size	Specification
EC23010101	Pediatric standard	S	With oxygen tubing
EC23010102	Pediatric elongated	M	With oxygen tubing
EC23010103	Adult standard	L	With oxygen tubing
EC23010104	Adult elongated	XL	With oxygen tubing

Multi-vent Mask

Features:

1. Oxygen concentration rate adjustable to meet different patient's requirements
2. Locking ring secures flow setting
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different options
5. High oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensures oxygen delivery when tube kinked

Multi-vent mask

Item No./Cat. No.	Type	Size	Specification
EC24010101	Pediatric standard	S	With oxygen tubing
EC24010102	Pediatric elongated	M	With oxygen tubing
EC24010103	Adult standard	L	With oxygen tubing
EC24010104	Adult elongated	XL	With oxygen tubing

Adjustable venturi mask

Item No./Cat. No.	Type	Size	Specification
EC24020101	Pediatric standard	S	With oxygen tubing
EC24020102	Pediatric elongated	M	With oxygen tubing
EC24020103	Adult standard	L	With oxygen tubing
EC24020104	Adult elongated	XL	With oxygen tubing

Nebulizer Kit

Features:

1. Be with oxygen tubing, nebulizer jar, T-piece and mouth-piece
2. 15cm corrugated tubing is optional
3. Nebulizer 6ml, 8ml, 20ml available

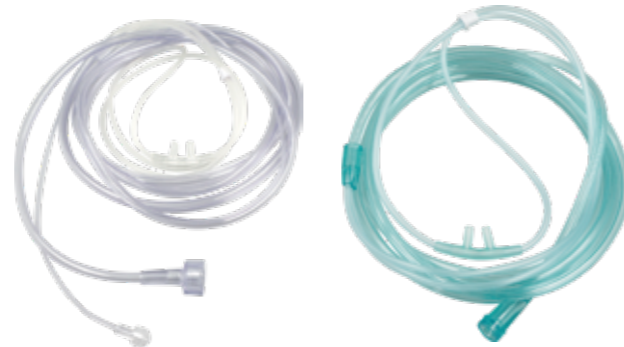

Item No./Cat. No.	Size
EC25010101	With nebulizer 6ml
EC25010102	With nebulizer 8ml
EC25010103	With nebulizer 20ml

Nasal Oxygen Cannula

Features:

1. Made of medical grade PVC, DEHP available
2. Available with different length for different patient's requirements
3. Different nose tips available
4. Soft curved nose tip makes patient more comfortable
5. Luer slip connector and luer lock connector both available
6. Star lumen tubing ensures oxygen delivery when tube kinked

Item No./Cat. No.	Size	Length

Oxygen Tubing

Features:

1. Made of medical grade PVC, DEHP available
2. Available with different lengths for different patient's requirements
3. Luer slip connector and luer lock connector both available
4. Star lumen tubing ensures oxygen delivery when tube kinked

Item No./Cat. No.	Connector	Length (Fr)
EC27010101	Standard luer slip type	7
EC27010102	Standard luer slip type	14
EC27010103	Standard luer slip type	25
EC27010104	Standard luer slip type	40
EC27020101	Universal luer lock type	7
EC27020102	Universal luer lock type	14
EC27020103	Universal luer lock type	25
EC27020104	Universal luer lock type	40

Guedel Airway

Features:

1. Made of medical grade PE
2. Color coding for size identification
3. Smooth surface design and atraumatic tip enables patient comfort and safety
4. Both blister packing and polybag packing available

Item No./Cat. No.	Size (mm)	Type	Color coding
EC28010101	40	000	Pink
EC28010102	50	00	Dark blue

EC29010113	9.5	White transparent/blue/green

Yankauer Suction Set

Features:

1. Made of light blue K-resin material for viewing when doing suction
2. With vent (vacuum control design) and without vent both available
3. Three different tips available, crown tip, round tip and flat tip
4. With step connector secures strong connection with suction connecting tube
5. Different special blue connectors available for suction connecting tube
6. Different length of tubing available

Yankauer handle

Item No./Cat. No.	Specification	Type of tip
EC31010101	Without vent	Plain tip
EC31010102	With vent	Plain tip

Latex Suction Catheter

Features:

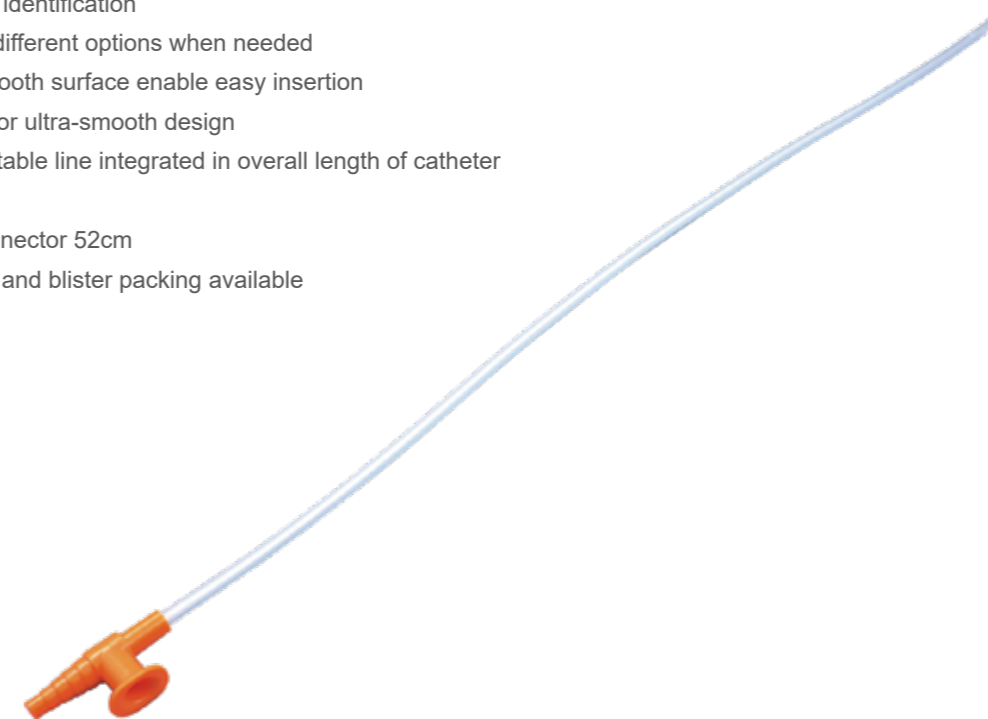

1. Made of medical natural latex
2. Tubing surface can be printed by unremovable graduation when needed
3. Both opposite eyes and asymmetrical eyes available

Item No./Cat. No.	Size (Fr/CH)	Eyes
EC32010101	8	With 2 opposite eyes
EC32010102	10	With 2 opposite eyes
EC32010103	12	With 2 opposite eyes
EC32010104	14	With 2 opposite eyes
EC32010105	16	With 2 opposite eyes
EC32010106	18	With 2 opposite eyes
EC32010107	20	With 2 opposite eyes
EC32010201	8	With 2 asymmetrical eyes
EC32010202	10	With 2 asymmetrical eyes
EC32010203	12	With 2 asymmetrical eyes
EC32010204	14	With 2 asymmetrical eyes
EC32010205	16	With 2 asymmetrical eyes
EC32010206	18	With 2 asymmetrical eyes
EC32010207	20	With 2 asymmetrical eyes

Suction Catheter

Features:

1. Made of medical grade PVC, DEHP free available
2. Color coded connector for identification
3. 5 different connectors for different options when needed
4. Soft distal tip and ultra-smooth surface enable easy insertion
5. Ribbed surface available for ultra-smooth design
6. Available with X-ray detectable line integrated in overall length of catheter
7. Elephant foot tip available
8. Usual length including connector 52cm
9. Both polybag unit packing and blister packing available

Item No./Cat. No.					Size	Color code

Feeding Tube

Features:

1. Made of medical grade PVC, DEHP free available
2. Color coded connector for identification
3. Soft distal tip and ultra-smooth surface enable easy insertion
4. Available with X-ray detectable line integrated in overall tube
5. Usual length including connector 50cm
6. Both polybag unit packing and blister packing available
7. 1cm interval graduation available if needed

Item No./Cat. No.	Size (Fr/CH)	Length (cm)	Color code

Silicone Stomach Tube

Features:

1. Made of 100% medical grade silicone
2. X-ray detectable line throughout overall length
3. Available with different lengths
4. Transparent connector with cap

Item No./Cat. No.	Size (Fr/CH)	Length (cm)
EC36010108	8	75, 90, 105, 120, 125 available
EC36010110	10	75, 90, 105, 120, 125 available
EC36010112	12	75, 90, 105, 120, 125 available
EC36010114	14	75, 90, 105, 120, 125 available
EC36010116	16	75, 90, 105, 120, 125 available

EC36010120	20	75, 90, 105, 120, 125 available

PVC Stomach Tube (Levin Tube)

Features:

1. Made of medical grade PVC, DEHP free available
2. X-ray detectable line throughout overall length
3. Open distal tip and closed distal tip both available
4. Available with different lengths
5. Polybag unit packing and blister packing both available

Item No./Cat. No.	Size (Fr/CH)	Length (cm)	Color code
EC35010106	6	75, 90, 105, 120, 125 available	Light green

EC35010110	10	75, 90, 105, 120, 125 available	Black
EC35010112	12	75, 90, 105, 120, 125 available	White
EC35010114	14	75, 90, 105, 120, 125 available	Green
EC35010116	16	75, 90, 105, 120, 125 available	Orange
EC35010118	18	75, 90, 105, 120, 125 available	Red
EC35010120	20	75, 90, 105, 120, 125 available	Yellow

Ryles Tube (Gastro-duodenal Tube)

Features:

1. Made of medical grade PVC
2. X-ray detectable line throughout overall length
3. Weighted tip with blue material or metal balls inside distal tip

Item No./Cat. No.		Size	Color coding
Plastic material end	Metal balls end	Fr/CH	
EC37010106	EC37010206	6	Light green

Closed Suction Catheter

Features:

1. Made of medical grade PVC, DEHP free available
2. With 1 drug injection port and with 1 flushing port
3. With transparent and ultra-soft sleeves for comfort and visualization when do suction
4. With safety button for open-closed switch
5. Color coding for identification

Item No./Cat. No.			Size	Color coding

KN95

Features:

1. Flat foldable shape with ear strap with retaining clip
2. White color or other customized colors available
3. Be in compliance with GB2626 standard
4. Materials: 4 layers or 5 layers (Details: 5 layers including layer 1: 50gsm non-woven fabric, layer 2 & 3: 25gsm+25gsm melt-blown fabric, layer 4: 50gsm hot air cotton, layer 5: 30gsm non-woven fabric)
5. Be able to do customized logo or shape design
6. For daily life personal protection
7. Both adult size and kid size available
8. With breathing valve model optional

Item No./Cat. No.	BFE (Bacteria Filtration Efficiency) %
EC41010101	≥90%

3-Ply Non-Woven Face Mask

Features:

1. Size: 17.5*9.5cm
2. With earloop type or with tie type both available
3. Available with different colors: Blue, White, Black, etc
4. With three layers, outer layer: layer 1: 25gsm non-woven fabric, layer 2: 25gsm melt-blown fabric, layer 3: 25gsm non-woven fabric
5. With aluminium nose clip
6. There are 4 types: non-medical type be in compliance with GB/T 32610-2016, medical type (Type I, Type II, Type IIR) in compliance with EN14683:2019+AC:2019

Item No./Cat. No.	Item name	BFE (%)	Test Standard requirement	Size(cm2)
EC41020101	3-ply face mask (non-medical)	≥90%	GB/T 32610-2016	≥17.5*9.5
EC41020102	3-ply medical face mask	≥95%	EN14683:2019+AC:2019	
EC41020103	3-ply medical face mask	≥98%	EN14683:2019+AC:2019	
EC41020104	3-ply surgical face mask	≥98%	EN14683:2019+AC:2019
