

Chişinău, May 2022

attn: Mr Mihai Gutu
CEO, PowerIT

Reference Letter

Dear Mr. Gutu,

With this letter I would like to thank you and your team for your excellent performance in developing the web-platform for the "E-platform for trainings and services" for the Association of Local Governments of Moldova (CALM) which was commissioned by us in the scope of the "Ma Implic" project. The project is financially supported by the Swiss Development Cooperation (SDC).

We were extremely happy with the professionalism and the client-orientation which your team has demonstrated in this project. Your team's ability to listen to the client's needs and to pace, deliver and explain your work were essential to get the result which all parties are happy with. Whilst many IT companies can deliver a good product from the coding and design perspective, not many are able to do this also according to the expected schedule, and in a way which adapts to the client's needs along the implementation-way. Thank you very much and congratulations for having made available to us a team of good technical specialists *and* competent project managers!

We will be happy to working with you again and can confidently recommend your company to other prospective clients!

We wish you success and many more happy customers in your future work. It is a big pleasure to see such excellent business practice 'Made in Moldova'.

kind regards,

Matthias Morgner
Team Leader
