

We, **AB MEDICA GROUP S.A.**, based in **Avda. Salvatella, 4. P.I Salvatella (ESP) España 08210 Barberà del Vallès. Barcelona (ESP)**, confirm the technical specification of our products:

| Lot nr. | Product name                                                        | Product code | Description                                                                                                                                                                                                                                                                                                             |
|---------|---------------------------------------------------------------------|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | ECG gel , 250 ml                                                    | 99,800,35    | 1. vial's volume 250 ml ( $\pm$ 10 ml) 2. one clear vial, 3.PH - 5.8 4. clear, colorless, odorless gel (odorless) 5.do not contain: formaldehyde, stabilizers, oily substances, salts, 6. without damage and corrosion to the ECG electrode, 7. water-soluble                                                           |
| 2       | Millimeter paper for ECG, heat-sensitive 110x10, type: folded       | 10,110,08    | Millimeter paper for ECG, heat-sensitive 110x10, type: folded, <b>ASPEL ASCARD-33 (red)</b>                                                                                                                                                                                                                             |
| 3       | Millimeter paper for ECG, heat-sensitive 110x10, type: roll         | 10,110,08    | Millimeter paper for ECG, heat-sensitive 110x10, type: roll, <b>ASPEL ASCARD-33 (red)</b>                                                                                                                                                                                                                               |
| 4       | Millimeter paper for ECG, heat sensitive, 110x140x140, type: folded | 29,110,06    | Millimeter paper for ECG, heat sensitive, 110x140x100 file, type: folded, <b>FAZZINI ECG 600A; FCS MEDICAL CONTROL VITALFIC E60; FUKUDA DENSHI FX7202 (red)</b>                                                                                                                                                         |
| 5       | Millimeter paper for ECG, heat sensitive, 110x140x140, type: roll   | 29,110,06    | Millimeter paper for ECG, heat sensitive, 110x140x100 file, type: roll, <b>FAZZINI ECG 600A; FCS MEDICAL CONTROL VITALFIC E60; FUKUDA DENSHI FX7202 (red)</b>                                                                                                                                                           |
| 6       | Millimeter paper for ECG, heat sensitive, 110x140x142, type: folded | 29,110,03    | Millimeter paper for ECG, heat sensitive, 110x140x150 file, type: folded, <b>NIHON KOHDEN CARDIOFAX ECG 1250 / 1950; CARDIOFAX GEM - 9010 / 9020 / 9022; CARDIOFAX S ECG 1250K</b>                                                                                                                                      |
| 7       | Millimeter paper for ECG, heat sensitive, 110x140x142, type: roll   | 29,110,03    | Millimeter paper for ECG, heat sensitive, 110x140x150 file, type: roll, <b>NIHON KOHDEN CARDIOFAX ECG 1250 / 1950; CARDIOFAX GEM - 9010 / 9020 / 9022; CARDIOFAX S ECG 1250K</b>                                                                                                                                        |
| 8       | Millimeter paper for ECG, heat sensitive, 110x20, type: folded      | 10,110,22    | Millimeter paper for ECG, heat sensitive, 110x20, type: folded, <b>CARDIOSWIFT K36 LCD; CONTEC MEDICAL ECG 600G; SOMO E3A; E6 (red)</b>                                                                                                                                                                                 |
| 9       | Millimeter paper for ECG, heat sensitive, 110x20, type: roll        | 10,110,22    | Millimeter paper for ECG, heat sensitive, 110x20, type: roll, <b>CARDIOSWIFT K36 LCD; CONTEC MEDICAL ECG 600G; SOMO E3A; E6 (red)</b>                                                                                                                                                                                   |
| 10      | Millimeter paper for ECG, heat sensitive, 110x25, type:folded       | 10,112,16    | Millimeter paper for ECG, heat sensitive, 112x25, type:folded, <b>CAREWELL ECG-1106 (red)</b>                                                                                                                                                                                                                           |
| 11      | Millimeter paper for ECG, heat sensitive, 110x25 type: roll         | 10,112,16    | Millimeter paper for ECG, heat sensitive, 112x25, type: roll, <b>CAREWELL ECG-1106 (red)</b>                                                                                                                                                                                                                            |
| 12      | Millimeter paper for ECG, heat sensitive, 120x20 type: roll         | 10,120,01    | Millimeter paper for ECG, heat sensitive, 120x30, type: roll, <b>CARDIORAPID K33 M; K36 M; DR.LEE ECG-310A; ELETTRONICA TRENTINA EXCEL-106; ERGOLINE AUTOSCRIPT 3/12; AUTOSCRIPT 6/12; ERGOSCRIPT 3006; ASTRON / MEGOS COMP 3x12b; COMP 3x12i; COMP 6x12; BOSCH-DIMEQ EKG 503V CARDIETTE EXCEL-103; EXCEL-106 (red)</b> |
