Letter of Recommendation

We are pleased to confirm that Esempla Systems LTD provided for our company the development of an innovative and secured payment system for electronic money – www.E-leu.md.

During the execution of the project, the company proved to be the right business partner offering optimized solutions in the process of software development, providing consultancy and support for the project team during the transition implementation.

A complex software solution, customized to our specific needs and specifications was developed and implemented in due time frame.

We are therefore confident to recommend Esempla Systems LTD as a reliable partner company with well-balanced skills, experience, highly qualified specialists.

Sincerely

Dumitru Svinarencu
