PROFESSIONAL PROFILE

Head Sound Engineer with over 13 years of experience in live event audio. Works across all types of events: government ceremonies, national galas, international music festivals, concerts and club nights. Sets up and operates full sound systems for large indoor and outdoor venues, mixes front of house and monitors, and coordinates audio for both live bands and broadcast productions. Based at Nova Event Solutions SRL since 2023.

WHAT I DO

- ▶ Set up and operate full PA systems for large venues and arenas
- ▶ Mix front of house sound for live concerts and shows
- ▶ Handle on-stage monitor sound for artists and bands
- ▶ Place and manage microphones for singers, instruments and speakers
- ▶ Install and test speaker systems before each event
- ▶ Run sound checks and coordinate with artists and their teams
- ▶ Set up audio for outdoor festivals and open-air stages
- ▶ Handle audio for speech events, conferences and ceremonies
- ▶ Work with digital and analogue mixing desks

WORK EXPERIENCE

Nova Event Solutions SRL
