

LETTER OF RECOMMENDATION

It is with pleasure that I write this letter of recommendation for **Training and Consultancy Center E-CIRCULAR**, with whom we had the opportunity to collaborate on a joint project in the field of **Circular Economy in the Textile and Apparel Industry (T&A)**.

Throughout the duration of the project, center e-Circular demonstrated exceptional professionalism, a strong sense of collaboration, and outstanding communication skills. Their team brought both technical expertise and strategic insight, particularly in areas related to the **Circular Economy** and **Extended Producer Responsibility (EPR)** - key pillars in the transition toward more sustainable industry practices.

The center e-Circular contributed valuable knowledge and practical solutions that supported the integration of circular principles into the T&A value chain.

A particularly valuable contribution from center e-Circular was their active involvement in the **design and preparation of the e-learning course tailored to the Textile & Apparel (T&A) sector**. Their experience in educational content development, combined with a strong grasp of sustainability trends and regulatory frameworks, helped shape a comprehensive and accessible training resource that supports capacity-building in the industry.

One of the most remarkable aspects of working with center e-Circular was their ability to foster a **positive and cooperative environment**. Their team proved to be highly responsive, open to feedback, and always willing to engage in constructive dialogue. This spirit of partnership allowed us to overcome challenges efficiently and achieve our shared objectives.

We especially appreciated their **commitment to sustainability, innovation, and knowledge-sharing** — values that align closely with both the evolving demands of the T&A industry and the broader goals of environmental responsibility.

I confidently recommend the center e-Circular as a reliable and forward-thinking partner in any collaborative endeavor. Their professionalism, technical expertise, and team-oriented approach make them a valuable asset to any project or organization.

Should you require any further information, do not hesitate to contact me.

Sincerely,

Chris KOELEMAN
