Start up and stand out

THE ONLY PC THAT SENSES YOUR PRESENCE

Introducing ExpressSign-in, with a sensor that detects your presence and automatically wakes your system. Coupled with the IR camera and Windows Hello, instantly log in to your system without lifting a finger. It also detects when you walk away and locks, so your data stays safer.

UNPARALLELED PRODUCTIVITY

Experience faster mobile broadband speeds with our Cat 16 Gigabit LTE option to keep you connected around the globe. The latest 8^{th} Generation Intel® up to i7 4-Core™ vPro™ Processors increase productivity, manageability, and security for your business. With up to 26-hour battery life**, Dell's innovative Super Low Power Panel and ExpressCharge, you can charge faster and stay charged over multiple work days. And intelligent thermal responsiveness adjusts to the way you work, keeping your system cooler on your lap.

STUNNINGLY SMALL DESIGN

With the world's smallest commercial 14" 2-in-1*, stay fully productive on an expansive screen. The innovative drop-hinge design allows for a more seamless viewing experience with a 4-sided narrow border FHD display. Weighing less than 3lbs, this ultra portable 2-in-1 is crafted from machined aluminum with diamond cut edges.

INTELLIGENT MANAGEMENT

Dell provides the ultimate convenience of managing Windows 10 endpoints from one console with Dell Client Command Suite and VMware® Workspace ONE™ integration. Offering many ways to seamlessly sign on, SafelD protects end user credentials with optional fingerprint reader on the power button and the FIPS 201 Smart Card Reader, delivering fast, multi-factor authentication you've come to expect from the world's most secure PC portfolio. Dell unique vPro extensions can remotely manage and run diagnostics on a fleet of devices, whether they are powered on or off.

Built for business

Dell Technologies Unified Workspace

Dell Technologies Unified Workspace is the most comprehensive solution to deploy, secure, manage and support virtually all devices from the cloud. We designed this revolutionary solution with intelligence and automation providing visibility across the entire endpoint environment. We help save time, improve user experience, optimize resources and strengthen security.

Our modern deployment solution, ProDeploy in the Unified Workspace allows you to revolutionize the way deployment gets done. By spending just one hour for set up, IT can then hand deployment to Dell and have preconfigured systems shipped directly to the end users - wherever they are.

Dell Endpoint Security for the Unified Workspace helps manage growing cyber risks while embracing workforce transformation. With Dell SafeGuard and Response powered by Secureworks, gain actionable insight to help quickly and efficiently prevent, detect and respond to cyber-attacks-keeping your environment free from harm.

We integrated our hardware management solution Dell Client Command Suite with VMware Workspace ONE, allowing you to take advantage of unified endpoint management (UEM) and manage the firmware, operating system and applications for all devices from the Workspace ONE console. UEM simplifies the management of the entire environment saving IT time from having to work between separate consoles for PCs and phones.

ProSupport Plus continues to be the only predictive and proactive support in the market. When compared to key competitors, ProSupport Plus with SupportAssist reduced time to resolve a failed hard drive with up to 11x faster time to resolution.
