

# WEGO Blood Bags

## OUR COMMITMENT

The Weigao Group was established in 1988, and has since become a top medical supplies manufacturer in China with a workforce of over 10000; principally involved in the research and development ("R&D"), production and sales of branded disposable medical devices.

The Blood bag is one of Weigao Group's most experienced production lines, which has been manufactured since its foundation in 1992. Weigao Group has since introduced certified blood bags, production and quality control to market complete with CE marks, ISO9001, ISO13485 and GMP certificates.

All manufacturing processes are quality controlled and maintained to the highest standards; Weigao's production process includes the use of imported high quality welding equipment from the Netherlands and extrusion equipment from Italy. Blood management systems include all solutions such as CPDA-1, CPD+SAGM allowing platelet storage times of 3-5 days.

Wego is committed to delivering a quality service and supply for blood transfusion and blood storage products. The responsible management of blood and its components are important issues in blood transfusion and storage. Wego works with the co-operation of blood banks and donation centres in order to ensure the continued delivery of new and fresh blood to where ever it is needed; with Wego's advanced safe blood management system, more lives are saved every day.

## SINGLE BLOOD BAG

Single bag is used for collection of whole blood with anticoagulant CPDA-1 solutions USP.

This single system with a primary bag containing anti-coagulant CPDA-1 (citrate-phosphate-Dextrose-Adenine) which preserves red blood cells up to 35 days at 2°C-6°C.

## QUALITY FEATURES

1. 16G sharp pointed Japanese needle that is siliconised with ultra-thin wall. 17G needle is also available.
2. Excellent break-off needle cover makes the needle non-reusable.
3. Provided with standard donor tubing and code number on the tube surface.
4. Tamper proof, safe and easy-to-open Port covers are provided to avoid contamination.
5. Rounded shape of the bag minimizes loss of blood components during Transfer and Transfusion.
6. Convenient hanger slits and holes are provided for use during Blood Collection and Blood Transfusion. This also allows easy suspension of bag in a vertical position.
7. Particle-free and high quality transparent Medical grade PVC sheet is provided for accurate and easy blood monitoring during Collection, Transfer and Transfusion.

## AVAILABLE OPTIONS

1. Blood bag types available : CPDA -1 / CPD / SAGM.
2. With Safety Needle Shield.
3. With Sampling bag and Vacuum Blood Collection Tube Holder.
4. High quality film suitable for extended storage of viable platelets for approximately 5 days.
5. Blood bag with leukoreduction filter.
6. Transfer empty bag is also available from 150ml to 2000ml for separating blood components from whole blood.
