

Cod. Art. :
AP1160

WITHDRAW ARMCHAIR ON WHEELS WITH SYNCHRONIZED MOVEMENTS - POSITION TRENDELENBURG ANTI-SHOCK

The chair is made entirely of steel tube painted in epoxy powders at 250 ° C.

The backrest and the seat are made of beech wood multilayer, a high strength panel, consisting of several sheets and wood fibers, moisture-resistant.

Seat, back and leg supports are padded with polyurethane foam with different densities and covered with fire-retardant Tarpaulin in class 1 IM washed and disinfected.

The backrest is equipped with the rear push handle.

The movement of the backrest and the legrest is synchronized by means of a gas spring actuated by bilateral levers.

The armrests are padded and contoured for better containment, they can be oriented in any position, tilting to facilitate access to the chair, sliding and complete with locking device.

The base is complete with two wheels Ø 125 mm swivel or directional front and two swivel with brakes in the rear.

The chair is specifically used and certified for collection / transfusion being provided with the same TRENDELENBURG position or ANTI-SHOCK position with the following inclinations:

BACKREST from -5 ° to + 100 °

GAMBALE -90 ° to + 14 °

LOAD 150 KG

WEIGHT: 35 kg.
