

# 2022

## UX/UI, Graphic Design, Identity

We present the Deeplace company's design portfolio for 2022.

We have included unique and interesting projects developed by our UX/UI design team in this document. In 2022, we worked in various fields, including the banking sector.

We always strive to create convenient and intuitive interfaces for our clients. In addition, we have our own corporate style that distinguishes our work in the graphic design market. In our portfolio, you can see the projects we have created for our clients this year.

We aim to create innovative and high-quality design that helps our clients solve their business tasks and succeed among competitors.

# Bank card design

---

An interesting project for creating bank card design was based on developing a unique design that will stand out among other cards on the market. The foundation of our design is based on real paintings created by our illustrators.

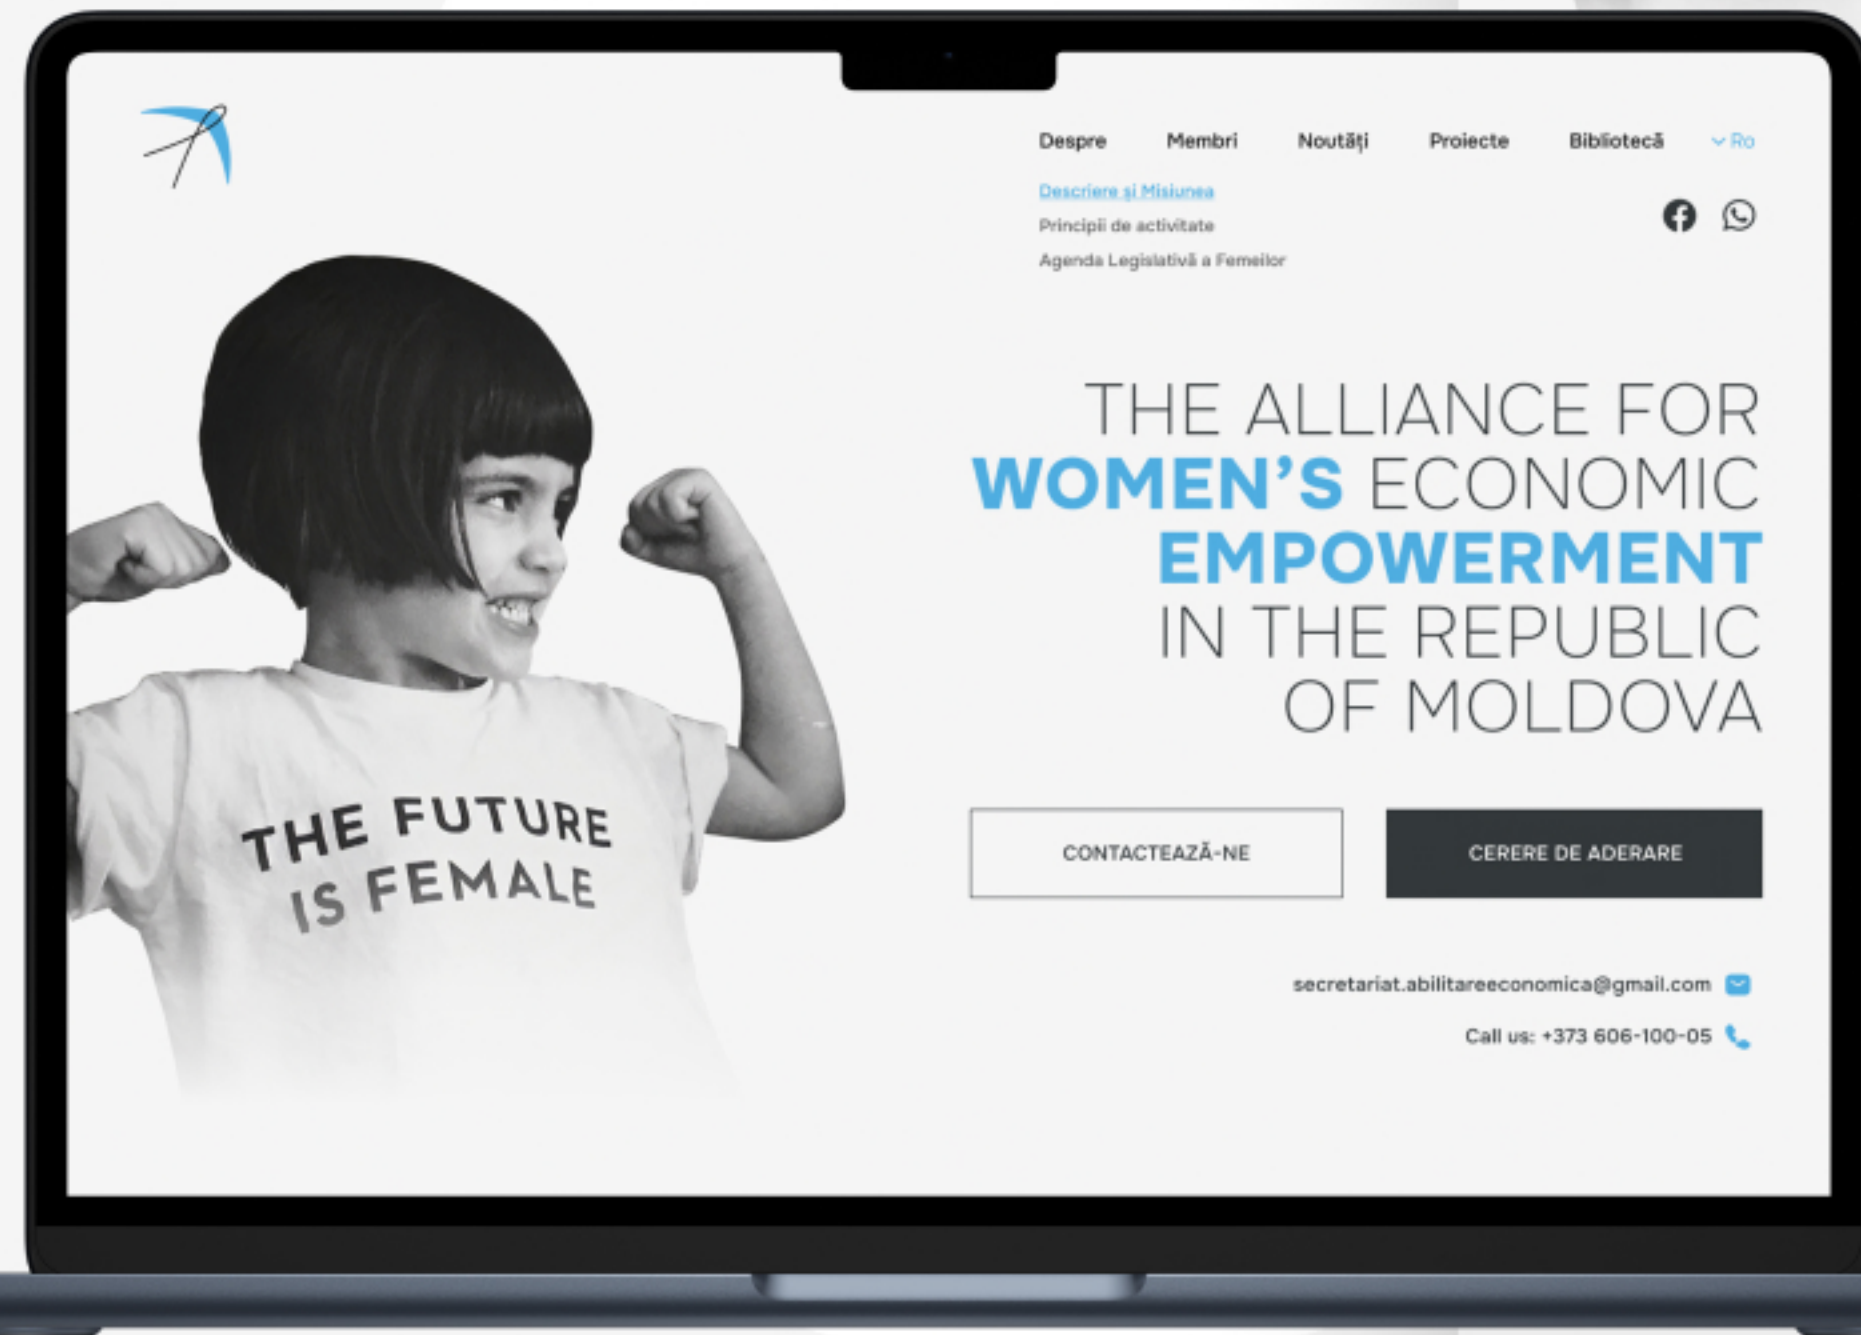

We want the cards to not only serve their functional purpose, but also become true works of art that delight the eye and evoke positive emotions in people. We are confident that this approach has allowed us to create a unique and exclusive design that attracts customers' attention and stands out from the competition.

# Procredit Bank

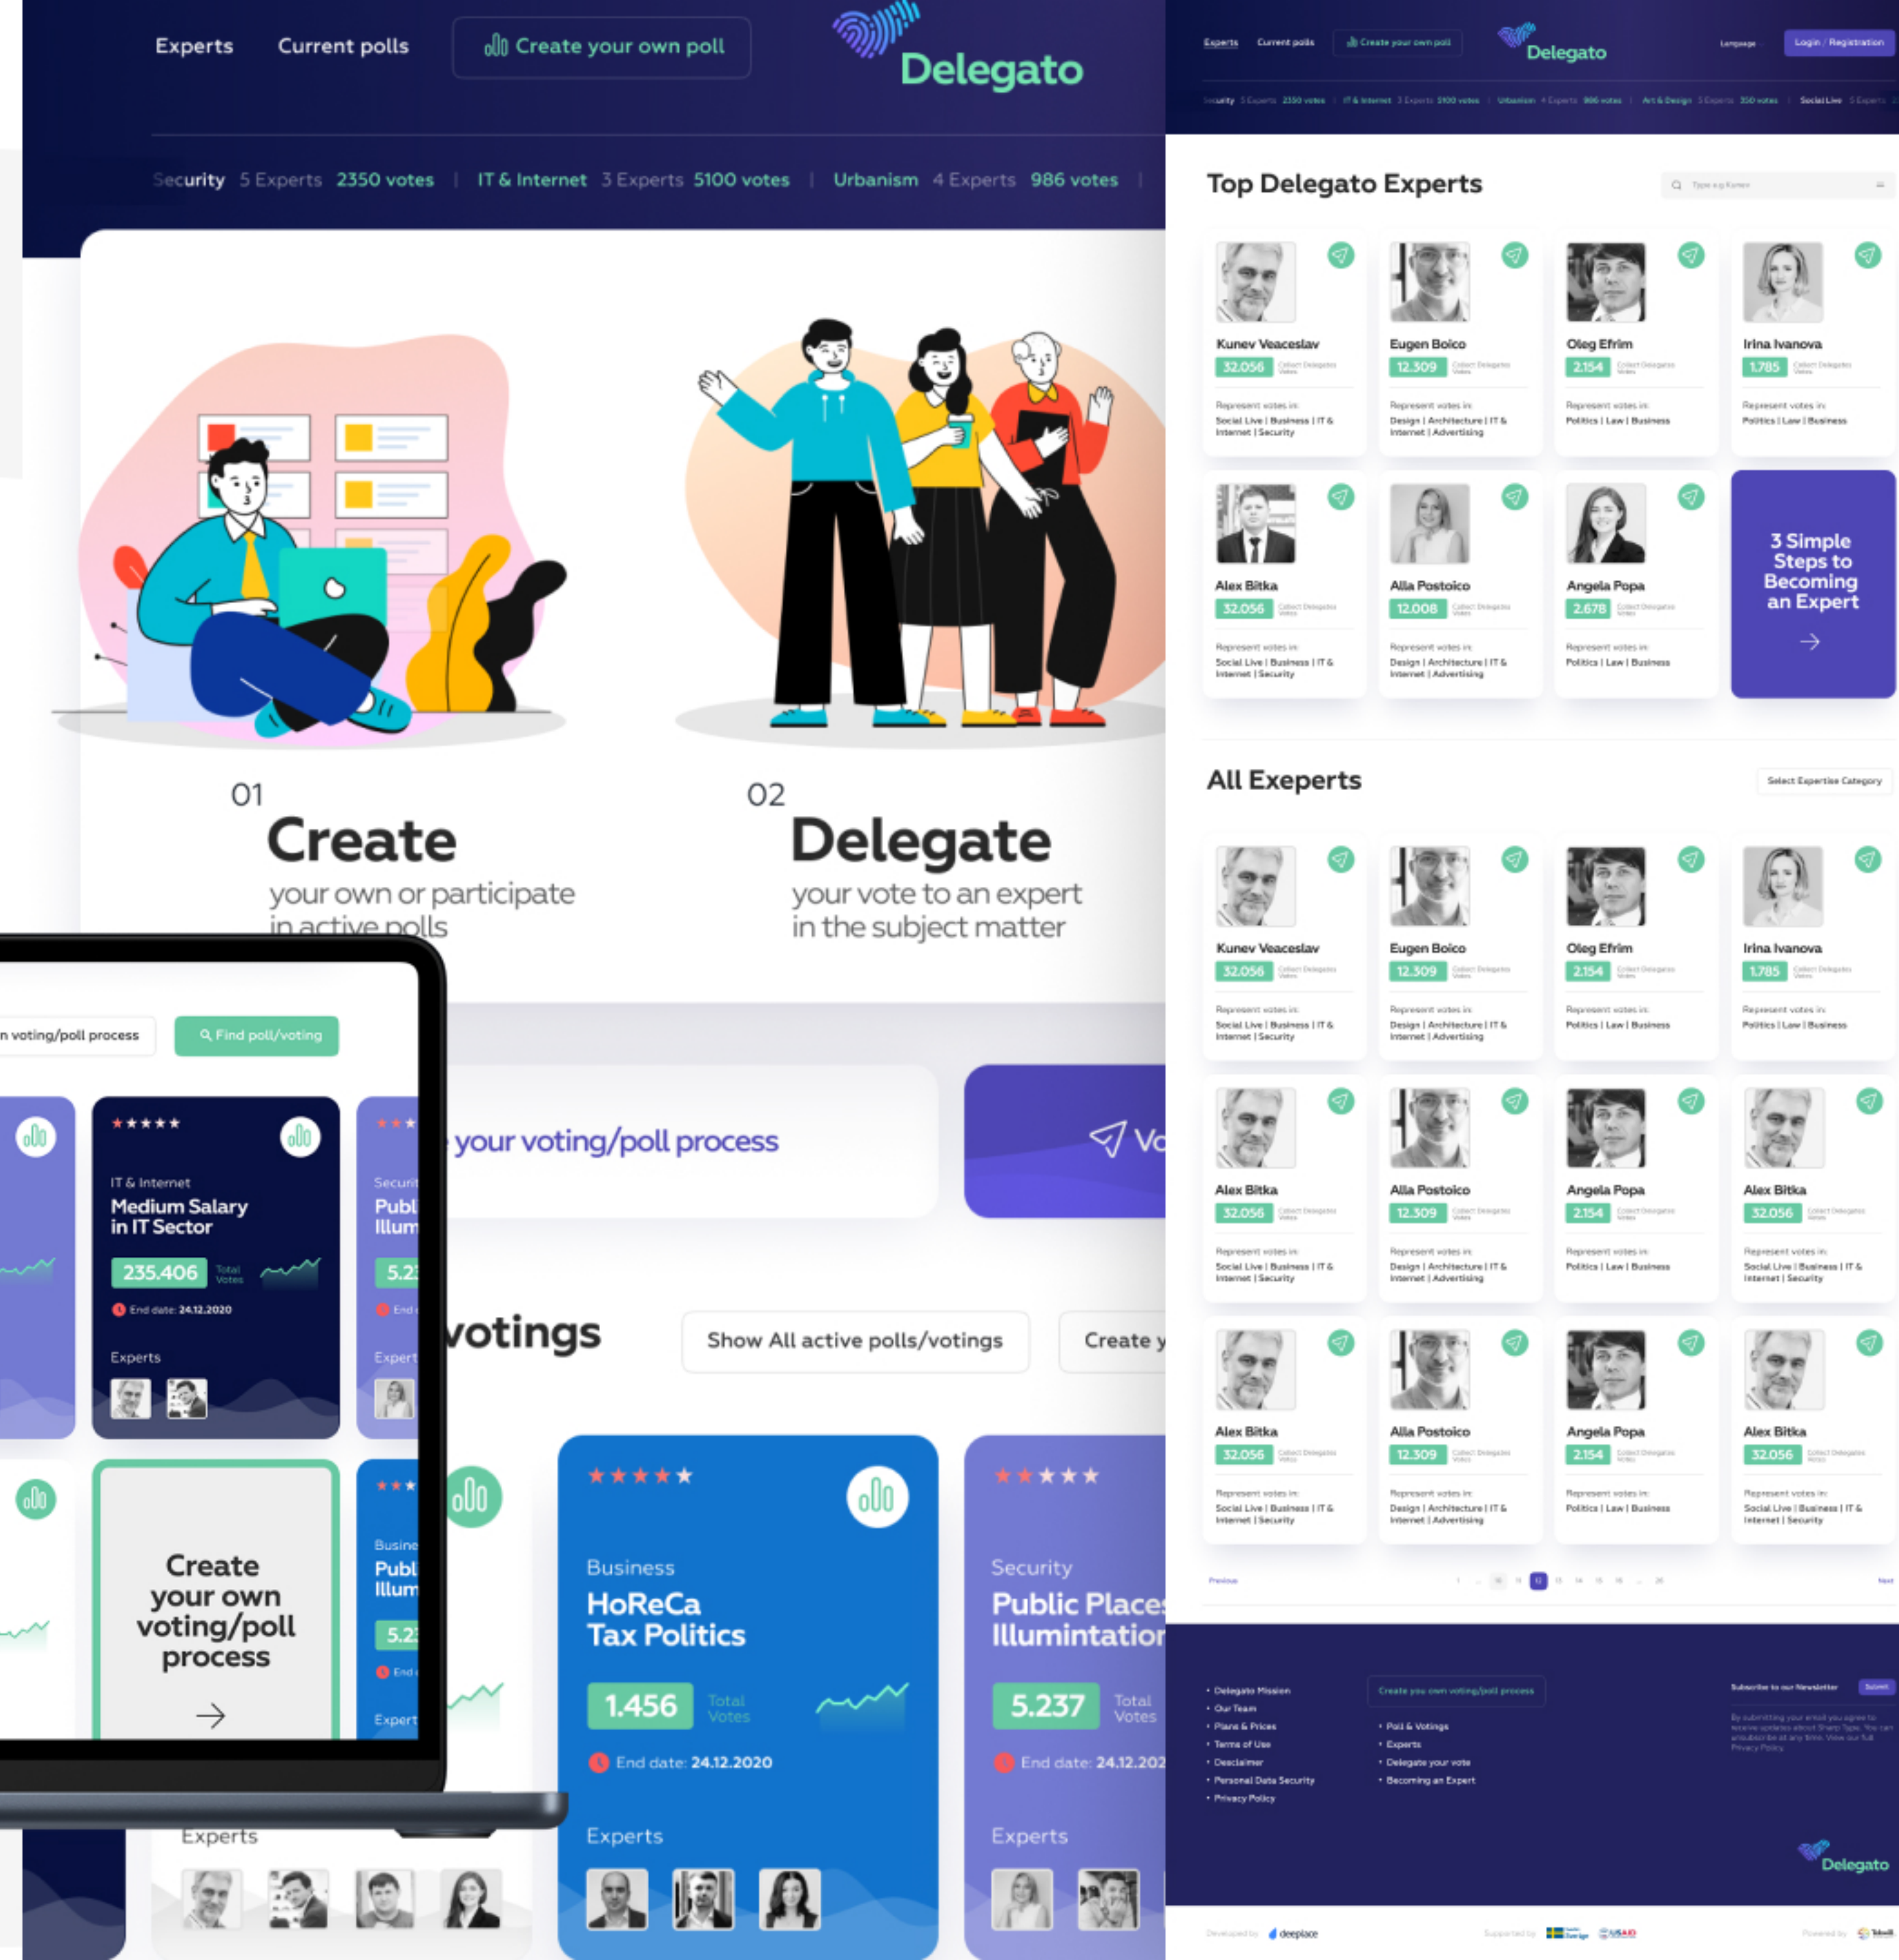

## UX/UI for Procredit Bank

We redesigned the bank's website to make it modern and in line with current trends. The new design is sleek and user-friendly, making it easy for customers to access the bank's services online. Our goal was to create a website that was both visually appealing and functional, and we are confident that the new design will be a success.

# Delegato

UX/UI Design for a unique project that allows you to delegate your voice to a delegate who will represent your interests at various levels of government. This means that you can choose a person who will represent your interests in legislative bodies, at the municipal and national levels.

**1.02 Шрифтовая схема. Основные и дополнительные шрифты**

**Основные шрифты**

Фирменные шрифты являются важным элементом фирменного стиля — их систематическое использование способствует повышению узнаваемости бренда. Они используются в документации, рекламной и другой фирменной продукции.

**Шрифтовая схема состоит из трех групп шрифтов.**

Первая группа — основные шрифты Geometria в нескольких начертаниях и шрифт PT Sans. Эти шрифты используются для оформления всех носителей.

Вторая группа — это дополнительные шрифты, которые применяются, когда использование основных шрифтов ограничено технически — для набора текста в приложениях Microsoft Office в удаленной документации.

Третья группа — Open Sans. Используется в электронных носителях, в качестве системного шрифта на интернет-сайтах.

**Geometria Extra Bold** ДОБРОМ И НЕЖНО ВЛЕКОМ Я ПО РОЗЕМНОЙ ЗЕМЛЕ Ц

**Geometria Bold** ГАГАУЗИЯ. ДРЕВНИЙ МНОГО СОЛНЦА И АРХИТЕКТУРА, ВЕЩАЮЩИЕ И БЕСКОНЕЧНО ГОСТИ ЛЮДИ.

**PT Sans Bold** Быт, традиции и обычаи и верования гагаузов

**PT Sans Regular** Орнаменты - это язык символов, каждая линия и каждая геометрическая форма имеют свое значение. Поэтому при разработке бренда Гагаузии непосредственно декоративные мотивы и орнаменты являются неотъемлемой частью фирменного стиля.

**PT Sans Italic** Руководство по фирменному стилю
