

RECOMMENDATION LETTER

TO WHOM IT MAY CONCERN:

NGO Alliance for Energy Efficiency and Renewables (further AEER) had a pleasure to cooperate with SC ELLVICA SRL over the period October – December 2020, during the implementation of 3 Contracts for Design, Supply of Equipment, Installation and Commissioning of four solar power plants (PV, net metering) for 4 public buildings in Cantemir, including:

1. Lyceum Dm. Cantemir, st.Trandafirilor, 1;
2. Gymnasium M. Eminescu, st.Trandafirilor, 10;
3. Kindergarten No. 1, Gagarin St., 8;
4. Kindergarten No. 2, Basarabia, 10.

These Contracts were implemented in the framework of the Project: **Smart Energy Solutions for Ecotown in Cantemir town**, Republic of Moldova, implemented by AEER with the support of the Small Grants Program of the Global Environmental Facility.

I would like to recommend SC ELLVICA SRL and its Director Alexandr Secrieru as a high level professionals in their business. All the works were finalized within the deadlines planned, using high quality materials and equipment. All 3 Contracts were turn-key type contracts that provided all required works without possibilities to change the contract price. It was the obligation of the Contractor to calculate all the costs and fit into the budget including the maintenance conditions and service costs.

The technical solutions proposed by ELLVICA SRL together with relevant works and are highly recommended for your PV Solar Station construction needs.

Should you need any more information or any previous working record regarding SC ELLVICA SRL. Please do not hesitate to contact me.

Yours Sincerely,

Irina Plis,
Director AEER
